For example, current order/deliver schedules are: Order on Monday for delivery on Wednesday, and order Wednesday for delivery on Friday. Orders are currently placed through online ordering and the same will be expected of the selected Vendor's provision of services under the Contract.

All site locations will receive one or two deliveries per week, and Central Kitchens will receive delivery/ies daily. Delivery schedules for each school/site will be mutually negotiated with the District's Menu Planner or Nutrition Services designee upon Contract award. In general, deliveries are allowed between 7:00 a.m. - 11:00 a.m. or 12:30 p.m. – 2:00 p.m. for all kitchens, except the Central Kitchens (which will accept deliveries between 6:00 a.m. – 1:00 p.m.) Delivery day and time shall remain constant from week to week throughout the Contract period. The district reserves the right to make unilateral changes to delivery times.

If, at any time, a delivery cannot be made within one (1) hour of scheduled time, the Vendor/Driver must notify the school/site to negotiate an alternate delivery time or day. The District may refuse unscheduled deliveries at the Vendor's expense. Frequent occurrences may result in cancellation of the Contract. The District shall be entitled to bill/deduct from payments to the Vendor the rate of $50.00 per hour per delivery for any and all late deliveries.

Deliveries shall be made Monday through Friday except school holidays or closing days (such as inclement weather). When holidays or closing days fall on a scheduled delivery day, deliveries shall be made on the next school day, or as arranged with the District's Menu Planner or Nutrition Services designee in advance.

The Vendor shall "floor set" merchandise into the designated storage area when walk in space is

available (dry, chilled, and frozen) at each site location.

Items which are delivered in packages, cartons or crates are accepted only upon the guarantee that upon the removal from such packaging they are found without any defect. If any defect is discovered, they must be removed and replaced with items acceptable to the District without additional charge to the District. Upon delivery of damaged items, the District shall be provided a full refund. Vendor's drivers must assist in unloading, or the District is entitled to reject the delivery and a delivery may be refused by the District.

The Bidder shall request the District's Food Service Manager to verify the accuracy of items, quantities of each item, total quantities, and condition of merchandise. Each delivery ticket shall be receipted (signed) by the District's Food Service Manager or designee. Variations from the norm (*e.g.*, shortages, damages) shall be noted on each ticket by the District's Food Service Manager and initialed by both the Vendor's truck driver and the District's Food Service Manager.

Accommodations for receiving delivery of product at each District school/site vary greatly throughout the District. Bidders are strongly encouraged to investigate the receiving situation at each site prior to submitting their Proposal and any successful Vendor confirms that it is aware of all such accommodations.

If the Vendor is temporarily out of stock on a particular item, the Vendor must contact the District's Menu Planner or Nutrition Services designee at least five (5) business days (business days are defined as Monday through Friday from 7:30 am – 4:00 pm) prior to scheduled delivery to find a mutually agreed upon resolution. The Vendor may deliver an equal or superior product at an equal or lower price with PRIOR WRITTEN APPROVAL from the District's Menu Planner or Nutrition Services designee.

The Vendor must notify the District's Menu Planner or Nutrition Services designee in advance of any changes in product or sources, and also provide a sample on private label products. Vendor agrees to continue making available current product and/or source if the new product and/or source is not acceptable to the District. For example, if private label product 1 is sourced from Supplier A, and the Vendor changes to source private label product 1 to Supplier B, the Vendor must provide a sample and notify the District's Menu Planner or Nutrition Services designee in writing prior to the change, and shall agree to continue to make available the product from Supplier A if the product from Supplier B is not acceptable to the District.

B.3 Delivery Guarantee

The Bidder must guarantee a 98% fill rate for all District orders. For any District order, if the Bidder is unable to perform under the terms of the Contract, or if it fails to deliver any item as listed on the District Order Guide(s) within the prescribed timelines, the District reserves the right to cancel any order(s) or purchase the item(s) on the open market, and to request and receive payment from the Bidder for the difference between the contract price and the price the District pays on the open market.

B.3 Samples

Where the Bidder quotes on a brand named as a standard of the quality and utility desired, a sample of the item will not be required unless specifically requested. If the bid submitted is on any other brand or make than that so named, a sample thereof must be furnished, if requested, or the

bid on the item will not be considered. The sample submitted shall be the exact item the Bidder proposes to furnish.

Samples of items, when requested, must be furnished free of expense to the District, and if not destroyed by tests, will be returned upon request at the Bidder's expense.

Samples must be marked with the Bidder's name and the applicable identification number of the item in this bid. Samples must be full cases with labels, unless specified otherwise. The District is the sole judge of quality, taste consideration, texture, shrinkage, color and students' acceptability. Price will be a significant determining factor, if quality is judged to be at parity. Broken packages, dented cans, and damaged merchandise will not be accepted. The latest pack is to be provided unless approved otherwise by the Nutrition Services Coordinator. No change for the containers, packing, drayage or other purpose will be allowed over and above the price bid in the Proposal, except as otherwise provided in the RFP.

B.4 Brands

When a particular brand or brand and number are named in connection with any item, it is named as a standard of quality and utility only. A Bidder may submit a bid to furnish an item other than that named, but the item offered by the Bidder must state on the Bid Form the brand with its number, if any, which it will furnish. The District shall be the sole judge of whether an offered item is the equal of the named item. If the Bidder fails to write in the brand and number of the item to be furnished, it is understood the Bidder will furnish the item named by the District as the standard of quality and utility.

The brands specified by the District are those currently used. When the District identifies a brand, the Bidder MUST submit a price on that brand on the bid form. Bidders may also submit a bid for an alternative product of equal quality by attaching an itemized detailed letter with nutrition information, ingredient list, and product formulation sheet. The apparent lowest responsible bidder must submit, on or before the bid deadline, samples and specifications for the alternate item offered. The submission of samples and specifications does not in any way connote nor guaranty the award of Contract. These samples are to be furnished without any cost to the District. Samples are to be delivered to the following person's attention:

Amy Glodde
OUSD Menu Planner, Nutrition Services
900 High Street
Oakland, CA 94601

B.5 Warranty of Products

Buyer warrants that all articles furnished shall be free from all defects of material and workmanship, that all articles shall be fit and sufficient for the purpose intended, and shall save, keep, bear harmless and fully indemnify the District and any of its officers, employees and agents from all damages, or claims for damages, costs of expenses in law or equity that may at any time arise from Buyer's and District's normal use.

B.5 Product Documentation

The District plans menus based on USDA food-based Meal Patterns outlined in the Healthy Hunger Free Kids Act (HHFK) of 2010. If the Bidder is bidding a product not specified or an "or equal" item, the Bidder must submit a complete nutrient analysis, list of ingredients, Child Nutrition ("CN") label or Product Formulation Statement ("PFS") documenting the contribution to the meal pattern, and sample of that product before the

District will consider that product. All items must be **TRANS FAT FREE** with no partially hydrogenated oils listed in the ingredient label. All items must be **HIGH FRUCTOSE CORN SYRUP FREE.** The following nutrients in the units specified must be included in the nutrient analysis:

Calories	(calories)	Vitamin A	(RE)

Carbohydrates	(grams)	Thiamine	(milligrams)
Dietary Fiber	(grams)	Calcium	(milligrams)
Total Fat	(grams)	Iron	(milligrams)
Saturated Fat	(grams)	Sodium	(milligrams)
Trans Fats	(grams)	Cholesterol	(milligrams)

B.6 Substitutions of Products

Substitutions of products/items originally agreed upon will not be accepted without prior authorization and price approval from the District's Director of Nutrition Services. All items delivered shall comply with the U.S. Pure Food and Drug Acts, State Laws, and City of Oakland ordinances.

B.6 Additional Items

The District reserves the option to add and delete items, subject to approval from the Executive Director of its Nutrition Services Department. The Vendor's markup for new products added is to be reasonably similar to related items and manufacturer.

B.7 Delivery of Fresh Products

All products to be furnished to the District must be made in refrigerated trucks. Products requiring refrigeration must be placed in the refrigerated storage in the school/site kitchen. Products must be maintained between 33 – 40 degrees Fahrenheit in storage, and shall not exceed 40 degrees Fahrenheit (4.4 degrees Celsius) at the time of delivery. Frozen food shall maintain 0 degrees Fahrenheit during transport and immediately be placed in the freezer upon loading.

B.8 Inspection of Products

All items furnished to the District shall be subject to inspection and rejection by the District for defects or non-compliance with the specifications. The cost of inspection on deliveries or offers for delivery which do not meet specification(s) shall be deducted from the Contract price and payment(s).

B.9 Distribution Facilities

The District, at its discretion, reserves the right to inspect the warehouses, trucks, and distribution facilities of any Bidder prior to or after award of the Contract. If the District determines after such inspection that the Bidder is not determined capable of performance satisfactory to the District, that bid may not be further considered and/or the District may terminate all or any part of the resulting Contract.

B.10 Inability to Perform

In the event that the Bidder is prevented from making delivery or otherwise performing on time as specified in the Contract due to fire, flood, earthquake, labor or transportation problems, war, acts

of government, or any other similar cause commonly referred to as an "act of God," which is not the fault of the Bidder, the Bidder shall not be required to deliver or perform under the Contract for only the duration of such inability, subject to the following requirements:

a. The Bidder shall send written notice to the Secretary of the Board of Education of the Bidder's inability to perform in accordance with the Contract. The notice shall contain all facts which show the condition(s) which prevent(s) performance. The Bidder shall send such notice as soon as possible, but in no event later than the fifth (5th) day following the date of issuance of a purchase order by the District or no later than the date specified in the Contract for delivery or other performance, whichever is applicable.

b. The District may cancel the Contract or purchase order, entirely or in part.

c. The Bidder shall not make any delivery or otherwise attempt to perform under the Contract except on the basis of issuance by the District of a new purchase order or other written instructions.

d. In the event of cancellation of a purchase order issued pursuant to a continuing Contract for the furnishing of a minimum quantity of items, at the option of the District the quantity of items specified in the purchase order may be deducted from the minimum specified in the Contract.

B.11 Utilization Reports

The Bidder will be required to submit product utilization reports to the District monthly, as well as at the end of the Contract period and when requested. The Bidder must be able to clearly demonstrate the capability to provide accurate, reliable, and timely reports in terms of invoice, statement credit, and utilization reports. Moreover, the Bidder must demonstrate a capability to spontaneously provide data for periodic review of prices by the District.

These reports shall be submitted for total quantity and dollar volume delivered per item, in terms of proposal units per total school delivery point, and for the District as a whole. Utilization reports shall be submitted within ten (10) calendar days of the end of each month. This report shall include monthly, as well as year-to-date totals.

The Bidder will meet at least annually with representatives of the District's Nutrition Services Division to review the Contract and the Vendor's performance under the Contract.

B.12 Local or Toll-Free Telephone Number

The Vendor awarded the Contract shall provide a local telephone number or a toll-free telephone number for the District to use.

B.13 Definition of Contract Costs

The District reserves the right to negotiate, either independently or cooperatively, with manufacturers for contract prices.

Any financial advantage or savings the Vendor receives based off of purchases made for the District must be passed on to the District in its entirety. This includes but is not limited to

allowances, bid pricing, and rebates, including non-profit and blanket school bid pricing and allowances.

For verification purposes, the District reserves the right to have available at the Vendor's place of business at a reasonable time, the right to inspect such documents as necessary to establish the "cost" portion of the Vendor's price. Notwithstanding cancellation notice requirements identified in the Proposal, if the Vendor refuses such inspection to the District, the District may immediately cancel the Contract.

The Vendor is responsible for automatically requesting to renew any expiring bid pricing or allowances on all items the District is purchasing at the time of expiration. The District shall supply the Vendor proper documentation authorizing them to do so the District's behalf.

B.14 Processing Plant and/or Distribution Facility

Bidders must have an established processing plant and/or distribution facility.

B.15 Bidder Billing

The Bidder must be able to set up separate billing account numbers for each delivery site. All billings must be reported on a site-by-site basis.

B.16 Invoicing

After products have been delivered, the Bidder shall send invoices in duplicate to:

Oakland Unified School District
Accounts Payable, Suite 450
1000 Broadway
Oakland, CA 94607

Invoices must show the delivery date, purchase orders and be submitted for each delivery to each destination. Invoices and order forms are to show OAKLAND UNIFIED SCHOOL DISTRICT item number. A separate computer code number for each item or another identification method acceptable to the District may also be used prior to authorization by the Director of Nutrition Services and the Contract Manager. Invoices are to show the contract rate and extension for each item furnished, with a subtotal for each destination, and grand total for all destinations.

The District may require delivery for a school site delivered to an alternate school site determined by the District. When this occurs, the Bidder will provide a separate invoice charging the account for the site placing the order. This will prevent the original receiving site from being charged. Items determined as for catering by the Nutrition Services Director are to be invoiced separately.

B.17 Fuel Surcharge

A fuel surcharge shall not be allowed for the duration of the resulting Contract or on any Contract renewal periods. However, in the event that extreme changes in fuel prices occur during the term of the Contract, the District and Bidder may meet to address contract language changes allowing fuel surcharges or concessions. However, the District is not and will not be obligated to agree to any changes allowing fuel surcharges or concessions related thereto.

B.18 Price Change Review

The Bidder is required to submit a list of price changes quarterly to the District. Price changes shall be effective on a specific, constant day of the month. Changes shall be submitted to the District immediately, on revised order forms, after the designated constant date of price change. Price changes can be made due to documented manufacturer increase or decreases. Back orders shall be filled at the price prevailing at the time of original order, unless a lower price is in effect and in which case must be applied to the benefit of the District for said lower price.

B.19 Price Change Audits

Audits may be made by the District of the Vendor's cost price records, without cause and at the District's full discretion, as follows at any time:

Audits shall be allowed of the following:

a. Selected items showing price increases.
b. Selected items showing no price increases.
c. Substitution of cheaper brand or grades.
d. High usage items

B.20 Service

It is essential that the high standards requested by the District in regard to this RFP and resulting Contract be met and maintained. If, in the opinion of the District, performance by the Vendor is not acceptable, written notice will be given to the Vendor. The Vendor shall correct the problem within ten (10) business days following receipt of said notice. The District will again evaluate results of performance and corrections of the Vendor's service. Failure of the Vendor to correct such problems specified in writing shall be deemed cause for cancellation of the Contract.

B.21 Product Protection Guarantee

The District has "automatic" products protection recourse against the Vendor for products which are misrepresented. According to federal regulations, the Vendor whose name and address appear on the package is the responsible party. If a contracted distributor is the first and original packer, the Contract Vendor then becomes the last line of recourse in the chain. Contract distributors are expected to take immediate action to correct any situation where product integrity is violated.

All products shall conform to the minimum requirements of federal and state regulations. These requirements shall include, but not be limited to weights, measures, fill of containers, drained weights, contamination, expiration date and best by date. In addition, all products shall conform to standard guarantee requirements with respect to safety.

B.22 District Expectations Regarding Items

Bidders must offer materials and services meeting the District's specifications and be capable of delivering quality goods or services, as required.

B.23 Order Guides & Ordering Systems

Bidder will be required to produce District Order Guides. The Order Guides will consist of a complete list of all District authorized products, to include the bidder item number, the complete description (including manufacturer, if applicable), and the current contract price. The Bidder will work closely with the District Menu Planner or other District Nutrition Services designee to develop these guides to best meet the District's needs. The Vendor will only include items or make changes on the order guides as directed by the Menu Planner or Nutrition Services designee. Individual school sites should only be able to order items that are listed in the District order guide. All other items not listed in the order guide should be considered restricted. The District, nor any of its sites, shall be required to pay for any unauthorized orders.

In addition, the Bidder is encouraged to present or demonstrate new items or concepts to the District. Additionally, the District will require from time to time that a Distributor bring in a new item and purchase from non-stocking Suppliers or Manufacturers.

An on-line ordering system that is maintained and managed by the Bidder must be available to the District, and only District approved items will be available to order on said system.

SECTION C EVALUATION AND AWARD CRITERIA

C.1 Proposal Evaluation

Each Proposal will be scored on a scale of 1 to 100 points. The Contract will be awarded to the best qualified, lowest responsive/responsible contractor, weighing heavily the highest evaluated score.

C.1.1 Experience & References (30 points)

The District desires to engage a Vendor with the experience necessary to realize the objectives set forth in the RFP. This component will be evaluated based on the Vendor's demonstrated experience in and/or with: (i) providing past and existing services to the District; (ii) the anticipated capacity to provide timely and adequate services to the District; and (iii) reported and/or demonstrated provision of services by the Vendor to the District, as well as other school districts and entities. This element of the evaluation will be worth up to thirty (30) points.

C.1.2 Key Personnel (20 points)

The District desires that the personnel assigned by the Vendor under the Contract be adequate in number and proficiency. The personnel should have experience working together and each such individual should have the necessary level of experience and education for his or her proposed role. This element of the evaluation will be worth up to twenty (20) points.

C.1.3 Cost (40 points)

Bidders should bid firm prices. As noted above, the District reserves the right to negotiate further on pricing with the awarded Bidder prior to the execution of a Contract with that Bidder. This element of the evaluation will be worth up to forty (40) points.

C.1.4 Local, Small Local and Small Local Resident Enterprise Program Compliance/Utilization (10 points)

In order to provide economic opportunity for Oakland residents and businesses and stimulate economic development in Oakland, the District has implemented a Local, Small Local and Small Local Resident Business ("L/SL/SLRB") Enterprise Program. For this procurement, although this is not a mandatory requirement under this RFP, and such requirement is hereby waived, the District has set the desirable level of L/SL/SLRB participation at 20%. The RFP and resultant Contract encourage participation of **Certified Oakland Businesses**, if possible, as defined in the District's Administrative Regulation 7115. Although this element is not required under this RFP, bidders may include with their proposal evidence that they will comply either partially or in whole with this requirement or a statement that they are unable to comply with this preferred component. This factor of the evaluation will be worth up to ten (10) points.

The State of California 1990 Public Contract-Disciplinary Procedure S.B. No. 2290, otherwise known as KOPP and SEYMOUR Acts, Section 7115, also prohibits fraud and collusion in an attempt to fix prices and kickbacks.

Eddie Macagnone	Director of Operations-Northern California	Operations (Northern California)	6 months	14

Founded in 1978, GSF has been the leader in supporting K-12 operations since its inception. GSF is one of the only distributors in the nation that exclusively services school foodservice operations. We currently support over 500 school districts which collectively serve over 3.3 million meals per day. With over 380 employees, our entire system (Logistics, Warehouse, Transportation, Purchasing, Information Technology, Customer Service, and Quality Assurance) is designed to support the specific needs of your district.

Much like our district partners, the implementation of the Healthy Hunger-Free Kids Act changed the way we conduct business. We changed the focus from being "just a box mover" to becoming a solutions provider, aimed to assist districts in effectively managing their school food service operations and improve the overall image of school meals. In order to accomplish this task, we implemented a number of purchasing initiatives and technology-based solutions,

which include:

- Purging our inventory of all non-compliant food products, to alleviate schools concerns about their purchasing practices when conducting business with GSF.
- Creating an online database of Product Formulation Statements and photographs of original Child Nutrition (CN) Labels from the cases to assist customers is easily accessing the required documents to record meal pattern compliance.
- Improving our technology platform to provide reporting tools, data collection, trend analysis, and business metrics to improve transparency and traceability.

While these initiatives have significantly eased the administrative burden on school districts, this is not the only changes affecting school foodservice operations. The entire food supply has changed. School Districts need more than just compliant school meals. Parents, school boards, superintendents, food service directors, and students are requiring more; robust food safety programs, socially responsible local sourcing initiatives, and verification of employee and animal welfare programs are at the forefront of these conversations.

To meet these goals, GSF committed to a comprehensive strategy to ensure the foods we offer meet **OUR** core values and those outlined in the Los Angeles Food Policy Council's Good Food Procurement model. In early 2013, we developed a Vendor Code of Conduct to ensure that the foods we provide are the safest and healthiest available and sourced responsibly. In 2015, we challenged our supply partners to provide us with their commitment and submit measurable assurance that the foods they provide support local economies, provide environmental sustainability, value the workforce, provide humane and healthy care for livestock, and promote increasing nutrition composition. Included in this response is an example of this commitment provided to us by Foster Farms. We continue to gather and vet information from our vendor partners to increase the transparency in the supply chain.

Most recently we embarked on a mission to support our Districts by identifying the point of origin of the foods we provide with the ultimate goal of including this information on the district invoice. This project will further support Districts with complying with the federal Buy American requirements, identifying foods from California that Districts can promote as supporting "local" efforts, and providing easily accessible information for Districts participating

in the California Thursday program. Included in this response is our current listing of products that Districts may consider using to support their California Thursday Program.

Our overall strategy is to continuously review all programs, products, and initiatives and measure whether they meet our goal of TRIPLE-BOTTOM-LINE, which is defined as being good for the environment, for people, and be procured in a manner that is economical for both the customer and the producer.

While GSF is not currently servicing OUSD, we are well versed in managing large school accounts. Below you will find a list of our top 25 largest accounts, by total lunches served, with information about the level of service and the length of time we have serviced these accounts.

Throughout this response, you will find a detailed explanation of how GSF will meet the expectations of the District related to the requirements outlined in the scope of work and the special conditions. To easily identify the information, we have included the specific section identifier.

B.2 Deliveries
B.7 Delivery of Fresh Product

In order to ensure that GSF's fleet is the safest on the road, most of our equipment is on a long-term lease agreement that comes with a full-service maintenance program. The service agreement must comply with all Department of Transportation requirements. In addition, any company owned vehicles are also maintained to these standards. All fleet vehicles must be inspected every 90 days and receive subsequent repairs and/or service as applicable. Included in the 90 day inspections are:

- Safety checks (brakes, hoses, fluids, headlights, turn signals, etc.)
- Oil changes (by mileage)
- Tire replacement
- Lift gate service
- Reefer unit service (by service hours)
- Visual damage

These inspections are done to ensure compliance with the California Commercial Motor Vehicle Safety Act of 1988, which is commonly referred to as the Biennial Inspection of Terminals (BIT) Program. The BIT Program requires a comprehensive review of our fleet by the California Highway Patrol. Our last review resulted in a passing score for all vehicles.

Our current fleet consists of 126 vehicles, 55 bobtail trucks, 27 tractors, and 44 trailers. All 55 bobtails have a manufacture date of 2012 or newer and of our 27 tractors all but one has a manufacture date of 2012 or newer.

Our bobtails and trailers are all equipped with refrigerator units that are capable of maintaining both frozen and refrigerated temperatures. Some of the units are multi-temperature units that have the capability to run two separate temperature zones with wall portions. Attached you will find a spreadsheet outlining the above fleet information in more detail.

Our operations and transportation team has reviewed the requirements for OUSD deliveries and has visited the delivery sites to fully evaluate the needs of the District. Upon award of this contract GSF will dedicate a minimum of four trucks and drivers to OUSD to meet the delivery requirements.

B.3 Delivery Guarantee

GSF tracks our fill rate performance in two different ways, "fill rate" and "service rate". Fill rate is defined as the quantity of cases delivered measured against the quantity ordered including district approved substitutes. This is measured in total cases ordered versus total cases delivered. Using this calculation our average fill rate is 99.5%. Service Rate is defined as the quantity of cases delivered measured against the quantity ordered minus the substitute products. Service rate is only measured against the original requested items. Using this calculation our average service rate is 97.9%. To ensure that we are continuously improving our service we track the reason why products required substitution and/or the reason why products are completely unavailable. These reason codes include:

- Vendor Issue
- Buyer Issue
- Customer Service Representative Issue
- Customer Issue/Customer Changed order
- Discontinued Item
- Insufficient Commodity Available
- Insufficient Inventory
- Non-stocked item

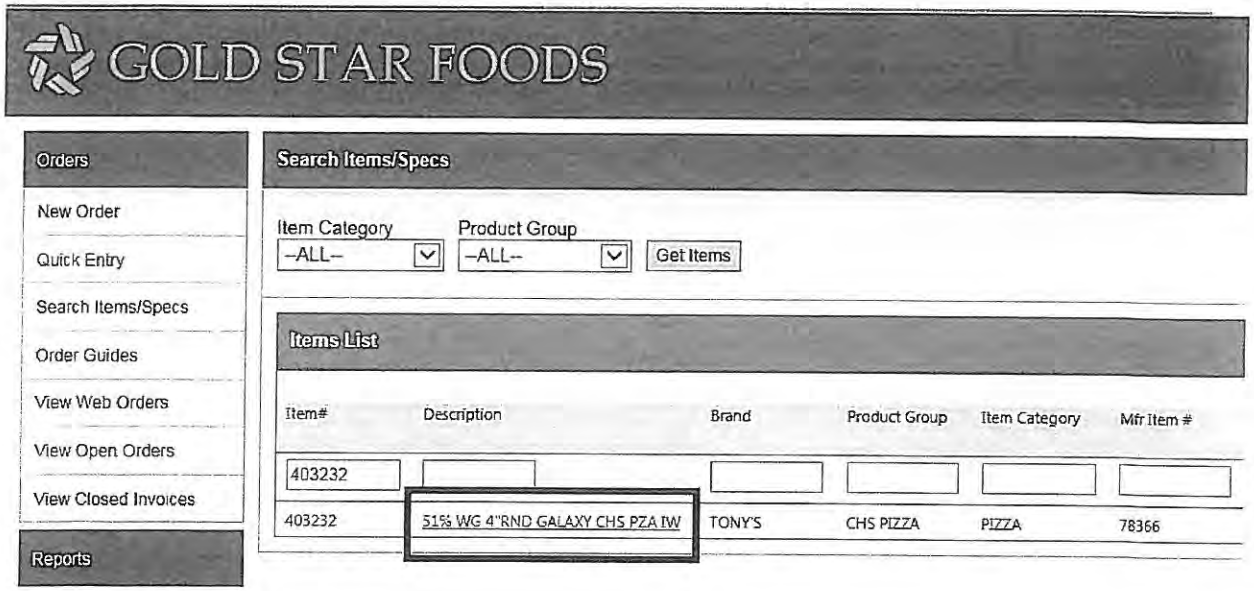
To increase the service rate for OUSD, we will work closely with the OUSD Menu Planner, manufacturers, brokers, outside sales team members, and our customer service representatives to communicate in advance the specific menu needs. This will allow us to prevent issues associated with product availability.

B.5 Warranty of Products and Product Documentation

At GSF we ensure that the foods sold to our Districts are the freshest and safest possible. Upon receipt of every truckload, we inspect each pallet and case to ensure that the temperature is within specification as well as reviewing product for visible damage. This same process is followed when product is placed on our trucks and it is the expectation that our drivers and school personnel inspect the products at the time of delivery.

Our warehouse is equipped with an automated warehouse management system that accurately tracks use-by dates, expiration dates, and pack dates to avoid aging product. We rotate all products using the first-in, first-out method. GSF requires that all vendors deliver foods with a minimum of 75 percent shelf-life remaining. With our inventory turning every 2-3 weeks aged product is kept to a minimum.

To ensure that the foods purchased meet the Federal Child Nutrition Program meal pattern requirements, we have added nutritional specifications, product formulation statements, and/or child nutrition (CN) labels to our on-line ordering system. For all products, you can easily select the link in the product description to access the nutrition information. Included in this response is an example of the Tony's Galaxy Cheese Pizza specification shown below.



B.6 Substitution of Products and Additional Items

Substitution

At GSF, we take a proactive approach for minimizing shortages and/or substitutions. First, we work closely with the District's designated menu planner to ensure that the foods served on the menu are procured in a manner to minimize shortages and/or substitutions. This process will also ensure that GSF can effectively comply with OUSD's requirements for a two-day lead time on ordering. In addition to the assigned Account Manager, every GSF customer has a dedicated Customer Service Representative (CSR). This CSR is responsible for communicating with District

about current, pending, and future orders. In the event that your CSR is unavailable, the Director of Customer Service can also assist with any questions or concerns.

In the event that there is a shortage and/or substitution, we contact the District representative immediately. We utilize both phone and e-mail communication to ensure that we make contact in a timely manner. GSF **will not** send any substitute items without authorization (preferably written) by the District. To minimize the impact to the District, we try to find substitutes with similar pack sizes, price point, and meal pattern/nutritional contribution prior to contacting the District.

Additional/New Items

In the event that OUSD is interested in purchasing a new item, GSF has a seamless process for adding new items. GSF is customer driven, so we defer to the District rather than the vendors to notify us of the new products they wish to purchase. If the new item is from a vendor that is already set-up in our system, we typically are able to set-up the new item in 48 hours or less. This timeline is dependent on whether nutrition information is submitted timely and product formulation statements and/or CN label information is available. If any of these items are not supplied by the vendor the timeframe for adding the new item is increased.

For new vendors the timeframe is increased to seven days, as we have to verify the vendor's financial information and develop processes for purchasing the new items on behalf of the District. In either instance the new items can typically be purchased within a three-week period of time or less. We do not have a set minimum order quantity for new items, but would prefer to have a District utilize at least 25 cases per month. For vendors that we are currently doing business with we assess if the item can be added to existing orders. Further, pricing for the item(s) is specific to the District and is provided to GSF by the manufacturer, any mark-up on the item is maintained at the same mark-up as all items on the contract. In the event that the District does not have a provision in their contract for adding new items, we track all "off-bid" purchases to ensure that the District does not exceed the state's small purchase threshold of $87,800.

B.9 Distribution Facilities
B.14 Processing Plant and/or Distribution Facility

GSF is headquartered in Ontario, CA. Our facility is 254,000 square feet with 83,000 square feet of freezer space, 40,000 square feet of cooler space, and an additional 80,000 square feet of temperature controlled dock space leaving 51,000 square feet of dry storage and office space. In total we have four temperature zones to ensure that all products are stored at the proper temperatures. We have also made significant infrastructure modifications to prevent us from situations where we would have diminished capacity. Our racking systems are designed to withstand a 9.0 earthquake and we have an emergency contract in place to have "trailer" generators delivered that connect directly to the building.

In August 2014, we acquired a Northern California facility in Fairfield, CA. This facility provides support services to the Ontario location, to expedite deliveries in Northern California. In June 2016, we will open a new state-of-the-art facility in Dixon, CA. This facility is 196,000 square feet with 55,000 square feet of freezer space, 16,000 square feet of cooler space, 27,000 additional square feet of temperature controlled dock space leaving 98,000 square feet of dry storage and office space. This facility will also have the same systems in place to continue operations even in the event of a natural and/or man-made disaster. We are very proud of our facilities and welcome the OUSD team to visit anytime.

B.11 Utilization Reports

GSF has a very robust on-line ordering system. While most broadline distributors have technology to manage customer orders, electronic payments, vendor requisitions, and account reconciliation, our Microsoft Window NAV-ERP System is designed specifically to support the additional needs of school districts. Since our on-line ordering system is only accessible to customers through a secure log-in process, we have attached the GSF Customer Web Portal document to provide you with an overview of our on-line ordering program. The ability to view and print reports is already in place and easily accessible through www.goldstarfoods.com, 24 hours per day, 7 days per week.

The reports available through the GSF On-line System include:

- District Usage by Vendor

- Site Usage by Vendor
- USDA Foods Live Inventory
- USDA Foods Lot History
- USDA Foods usage by District
- Raw Commodity Balances
- Commodity Discount by Vendor

We also have the ability to generate customized reports should the district have any other reporting requirements. In addition to this system, we also have the ability to accept customer orders through electronic data transfers, should the District have its own internal ordering system.

B.13 Definition of Contract Costs

As a school-only Distributor, we are well versed in the federal and state regulations for the administration of the Child Nutrition Programs. As such, we ensure that our processes are transparent and comply with these regulations. As in a true partnership, we work closely with each District to ensure that the best possible pricing is offered. We welcome Districts to work directly with manufacturers to obtain unique bid pricing, if that ultimately benefits the district. We also utilize our purchasing power to help reduce costs to ensure that the district always receives the best possible pricing. In addition, we welcome our partner Districts to audit their invoices as well as our vendor invoices to verify that all discounts are passed directly to the District.

B.15 Bidder Billing

GSF is already set-up to provide OUSD with separate billing account numbers for each site. Each month, OUSD will receive a monthly statement of all invoices separated by site.

B.18 Price Change Review

GSF's policy disallows any manufacturer from increasing prices between July 1 and October 1 of any given year. In general, our pricing is firm for the full school year. We require that all manufacturers provide us with a sixty day notice of price changes, and any price change will not

go into effect until January 1 each school year. All price changes presented to Districts will include supporting documentation by the manufacturer. With the contract start date occurring in March 2016, we will review all prices prior to the start of the 2016-17 school year and discuss any potential increases or decreases in pricing at that time.

B.19 Price Change Audits

We welcome schools to review their invoices to ensure that pricing is correct according to the contract. We have staff on hand at any time the District feels an audit is warranted.

B.23 Order Guides & Ordering Systems

As mentioned previously, GSF's online ordering system is very robust. Our online system uses District order guides as the basis for online ordering. The system can be customized for each District and has extensive ordering features that can allow individual school sites to order independently should the FSD choose that option. Below is a screen shot from our on-line ordering system, showing how easy developing an order guide is. The order guide can include only items awarded on the bid, be site specific, and the FSD or other designated OUSD team member can modify the order guides to add or delete items as necessary. The GSF team can easily support the District by creating and/or modifying order guides for the District.

GSF's Regional K-12 Solutions Manager will provide individualized training for all staff that utilize the on-line ordering system. We ensure that all staff is trained prior to the start of the contract to guarantee a seamless transition for new customers and assist with training new staff for those customers renewing their contracts.

New Item Process

GSF is proposing that we implement the following process for presenting new items to the District. This model has proved very successful with another large California district and we feel that this model will also prove successful for OUSD. Under this model District representatives will meet with GSFs VP of K12 Solutions and the Manager of Strategic Sourcing to determine the requirements for the new item, for example:

> OUSD is looking for a new pasta entree to serve at lunch, using locally sourced ingredients, with chicken as the primary protein that is prepared using speed scratch methods but appears and tastes like a cooked to order pasta. This menu item must meet 2oz eq grains, 1oz M/MA, and ½ vegetable.

The GSF team would take this information and reach out to new and existing vendors to find menu items that meet this requirement. After we conduct the initial review and taste testing, we will send the menu, recipe, specifications, and initial pricing back to the OUSD team for review and approval. Once approved, GSF will coordinate with OUSD to bring in the vendors (maximum of 4 per 1 hour meeting) to present the menu items and conduct a taste test. OUSD would invite key members of the District and include students as necessary to determine product acceptability. The OUSD team will review the products and either accept or deny the menu item. Any accepted menu item will move forward to obtain finalized pricing and determine the timeline for adding to the OUSD menus. This new item process could be offered on a monthly basis or on a timeline determined by the District.

D.6.3 Proposed Pricing – Fixed Fee/Case

In order to respond to this proposal with the most competitive pricing, we requested pricing information from all potential vendors. We reviewed the pricing for "spec" item on the bid and also reviewed alternate manufacturers that had lower pricing for the identical product. Where we determined there was a significant price advantage for the District for an alternate/identical

product we provided that item and price on the bid. In the event that the District prefers to utilize the "spec" item we can modify our response to include the pricing for that item.

a. For Items the Distributor is invoiced by the Supplier by case price:
   Delivery to School Site $ 2.99 per case

b. For Items the Distributor is invoiced by the Supplier by per pounds price:
   Delivery to School Site $ 2.99 per master case weight/pound

When calculating the delivery charges the fixed per case delivery cost is derived from the actual costs required to execute a successful delivery which includes:

- Warehouse Personnel
- Truck Driver(s)
- Mileage (accounts for fuel costs)
- Cost of the Vehicle (includes maintenance)

The $2.99 per case ensures that the associated staff is paid a fair living wage and is provided benefits that allow team members to take care of themselves and their families.

D.6.4 Statement of Fill Rates

1. What is your current order fill rate percentage companywide?
2. What is your current order fill rate percentage for K-12 Schools Only?
3. What is your current order fill rate percentage for all contracted accounts"

As outlined above in section B.3 Delivery Guarantee, our answer will be the same for all three questions. As a school only distributor we do not have different fill rates for different sectors of our business because schools are our only business. We track our fill rate performance in two different ways, "fill rate" and "service rate".

Fill rate is defined as the quantity of cases delivered measured against the quantity ordered including district approved substitutes. This is measured in total cases ordered versus total cases delivered. Using this calculation our average fill rate is 99.5%.

Service Rate is defined as the quantity of cases delivered measured against the quantity ordered minus the substitute products. Service rate is only measured against the original requested items. Using this calculation our average service rate is 97.9%.

To ensure that we are continuously improving our service we track the reason why products required substitution and/or the reason why products are completely unavailable. These reason codes include:

- Vendor Issue
- Buyer Issue
- Customer Service Representative Issue
- Customer Issue/Customer Changed order
- Discontinued Item
- Insufficient Commodity Available
- Insufficient Inventory
- Non-stocked item

D.6.5 Scope of Product Range Information

Currently, GSF has 75 different product categories and a total of 5,019 different commercial SKU's. Since OUSD does not purchase commodity foods, we only included commodity items that have a commercial equivalent.

Included in this response is a comprehensive spreadsheet that includes all 5,019 SKUs. This spreadsheet also provides a listing of all the information we have associated with the products including meal pattern contribution, nutrition information, allergen information, ingredient information, including Trans Fat and High Fructose Corn Syrup.

At GSF we refrain from defining items on a schools behalf. As it relates to local, we are in the process of defining the point of origin information so Districts can utilize this information to determine if a product fits into their definition of local. In our experience, Districts define local differently. For many, local is California, for other local is defined by a specific distance from the District.

As it relates to the districts needs to define local, clean label, and/or any other specialized information we are working with manufacturers to collect and create a useful database of

GOLD STAR FOODS

information. Currently we are working with districts to prioritize their needs to ensure we are capturing the most important information first. Upon award of this contract we will work with the District to identify the needs and quickly provide the required information.

Currently, the only product line that is a Gold Star Foods private label is our Fresh Bread. We are proud of our Fresh Bread Program and what it offers schools. To begin, the wheat is a 100% certified, sustainably grown wheat from Robinson Ranch in Merced, CA. This family farm grows the wheat specifically for our bread needs. The wheat is milled in downtown Los Angeles and baked in Commerce, CA or Hayward, CA to ensure the freshest bread is offered to schools. For convenience, our bread program is offered in both fresh and frozen options to meet District needs.

Overall, we feel that we are in the best position and the most qualified to support OUSD in achieving its objectives and vision. We are confident in our ability to provide you the products and services you need to successfully operate your Child Nutrition Programs. We welcome you to contact any or all of the enclosed references for confirmation of our dedication to supporting our schools. Thank you for the opportunity to further expand our role as your Child Nutrition Partner.

Sincerely,

Sean C. Leer, CEO

Re: **Foster Farms Values and Commitment**

Dear Gold Star Foods,

Thank you for the opportunity to share how Foster Farms has taken great strides in the industry to provide a sustainable, humanely certified and safe working environment for the processing and manufacture of our foodservice products for school distribution. Since our founding as a small family farm in 1939, Foster Farms has remained dedicated to our land, people and surrounding communities. While producing our always natural, always fresh, locally grown poultry, we are mindful of the ways that we can help to improve the environment. We take our role as environmental stewards very seriously, and are proud of our accomplishments to date.

Environmentally Sustainable

Foster Farms has been dedicated to providing truly local food. This commitment means more than great quality food; it also means keeping jobs in California and contributing to our state's economic growth. Being local also means a smaller carbon footprint – and that's good for the environment. Foster Farms encourages a strong sense of responsibility for the environment among all company employees through our company-wide environmental policy. At each stage of our operations, from poultry ranches to processing, packaging, shipping, distribution and corporate offices, we have implemented environmental initiatives that promote recycling and reuse, increase energy efficiency, reduce and eliminate waste, and improve air quality, while protecting our precious natural resources. Foster Farms continues to develop and implement innovative, eco-friendly solutions for our business, to ensure the safety and integrity of the local environments in which we operate.

Community Supporter

We are proud of our efforts to contribute to and improve social and economic equity in the communities we work and reside in. Our spirit of giving is a long-standing Foster Family tradition. As part of our community involvement, Foster Farms employees serve on numerous local boards including the California Education Partnering Coalition, CSU, Stanislaus Alumni Association, Stanislaus County Partners in Education, Emmanuel Medical Center Foundation, and the Turlock Chamber of Commerce. Foster Farms has longstanding philanthropic relationships with the Salvation Army, Goodwill, American Red Cross, Second Harvest, and other local non-profit organizations.

Workplace Health and Safety

We are incredibly proud of and dedicated to our employees, many of whom have worked at Foster Farms for decades. Each quarter, we celebrate employee anniversaries and it is not unusual to recognize individuals with 30-plus year careers within our company. Our employees enjoy some of the highest wages in the poultry industry and have access to one of the most attractive benefits packages in the industry. We strive to cultivate a nurturing working environment for all Foster Farms employees. We provide a safe and comfortable working environment. Additionally, out of all U.S. poultry companies, Foster Farms ranks within the top two percent for safety. Foster Farms' Livingston, Calif., poultry processing plant has been selected from 150 poultry processing plants throughout the nation by the U.S. Department of Labor and OSHA to serve as the model processing plant for other U.S. poultry producers.

Humanely Certified

The American Humane® Certified program provides third-party, independent verification that Foster Farms' care and handling of poultry meet the ethical, science-based standards established by the American Humane Association. To achieve certification, Foster Farms verified that humane conditions are maintained on our farms and ranches 24 hours a day, seven days a week, 365 days a year. The American Humane® Certified label on our products is your assurance that the fresh chicken you are buying was humanely raised. And because raising our chickens humanely has been our practice since the beginning, today we are pleased to be American Humane® Certified. We are committed to working with the American Humane Association to promote further advances in animal welfare.

Appendix:

As a testament to our commitment:

- In 2010, Foster Farms will complete a water recycling project at the company's Livingston Complex to reduce facility water usage by 500,000 to 1,000,000 gallons per day.
- In 2009, Foster Farms was named a winner of the prestigious Waste Reduction Awards Program (WRAP) award for its innovative, environmentally-friendly solid waste recycling programs and policies. The WRAP Awards are an annual program established in 1993 by the California Integrated Waste Management Board (CIWMB), part of the California Environmental Protection Agency (EPA), to recognize California businesses that have made outstanding efforts to reduce waste and send less garbage to state landfills.
- Ongoing efforts include a biodiesel initiative for delivery trucks aiming to increase use of environmentally-friendly, cleaner burning fuel sources, while reducing dependency on foreign oil.
- In 2005, Foster Farms won California's highest environmental honor, the Governor's Environmental and Economic Leadership Award for an innovative, successful organic waste disposal program which generates electricity for nearby communities.
- The company is a proud recipient of the POWER Award from Public Officials for Water and Environmental Reform.
- Foster Farms' solid waste recycling efforts in 2004 (which were evaluated in 2006) almost single-handedly allowed Merced County to achieve its goal of diverting solid waste tonnage from landfills.
- As part of our goal to continually improve our management practices, reduce pollutants, and comply with environmental policy, Foster Farms initiated a pollution prevention audit in 2007 (in coordination with third party experts) to evaluate how we can continue to make strides in our environmentally-conscious operations efforts.
- Foster Farms was honored in 2007 by Goodwill Industries' Tacoma, Washington Chapter as "Large Employer of the Year" for our partnership in providing training and career opportunities to Goodwill clients in the greater Tacoma area.
- Inspired by the Foster family's generosity, California employees established "Christmas Kids," a group that annually provides gifts and food baskets for local area families during the holidays. This group has expanded to provide assistance to Seniors' groups, and children's groups year-round.
- Every Foster Farms facility is devoted to local community outreach. Our Kelso, Washington office runs programs specifically for the Pacific Northwest. Our team in Demopolis, Alabama is involved in local community outreach. And the Livingston Corporate office oversees our California efforts, concentrated on Merced and Stanislaus Counties where the majority of Foster Farms' employees live and work.
- Foster Farms also has a donation-matching program with employees for contributions to the United Way in addition to unique situations such as the 2004 tsunami crisis, Hurricane Katrina, and more.
- Foster Farms actively supports furthering education and provides annual scholarships to qualified students at Fresno State, Cal Poly SLO, UC Davis, Stanislaus State and Modesto Junior College. Additionally, thirty $1000 scholarships are awarded to children of Foster Farms employees each year.

B.2 Deliveries

All items shall be delivered in quantities specified in the Contract FOB Destination (no freight allowed), at points within the District as specified in the Contract.

and set aside the Contract, either in whole or in part, and may enter into a new Contract in accordance with the law for furnishing such goods. Any additional cost or expense incurred by the District in the making of such Contract or any additional cost of supplying an item by reason of the failure of the Bidder, as described in this paragraph, shall be paid by the Bidder or its surety.

A variation between the quantity delivered and the quantity specified for an item shall be accepted as a compliance with the Contract only if the variation is within the following manufacturing process allowance: A decrease not exceeding five percent (5%) or an increase not exceeding ten percent (10%) of the quantity specified. Payment shall be adjusted on the basis of the unit price bid.

Timely delivery of all orders is expected to school site and if unable to meet confirmed delivery schedule(s), as agreed upon, then after a one (1) hour grace period, the District reserves the right to assess a penalty payment to the Bidder for each instance in the amount of $150.00 per late delivery, and deduct from the Bidder's invoice the penalty payment. The District reserves the right to refuse a late delivery and will assume no financial obligation if the delivery is refused. Also, delivery to that site will be rescheduled, to ensure no disruption to service.

The prices quoted in the bid and in the Contract shall be for deliveries to all school locations and warehouses as designated by the District. Delivery shall be made only as called for by Nutrition Services personnel.

Items covered by a proposal shall be delivered to school cafeterias in District as shown on the back pages during the Contract period. The District reserves the option to make additions and deletions of and to the delivery sites.

School site orders will be placed two (2) days before the delivery date. For example, current order/deliver schedules are: Order on Monday for delivery on Wednesday, and order Wednesday for delivery on Friday. Orders are currently placed through online ordering and the same will be expected of the selected Vendor's provision of services under the Contract.

All site locations will receive one or two deliveries per week, and Central Kitchens will receive delivery/ies daily. Delivery schedules for each school/site will be mutually negotiated with the District's Menu Planner or Nutrition Services designee upon Contract award. In general, deliveries are allowed between 7:00 a.m. - 11:00 a.m. or 12:30 p.m. – 2:00 p.m. for all kitchens, except the Central Kitchens (which will accept deliveries between 6:00 a.m. – 1:00 p.m.) Delivery day and time shall remain constant from week to week throughout the Contract period. The district reserves the right to make unilateral changes to delivery times.

If, at any time, a delivery cannot be made within one (1) hour of scheduled time, the Vendor/Driver must notify the school/site to negotiate an alternate delivery time or day. The District may refuse unscheduled deliveries at the Vendor's expense. Frequent occurrences may result in cancellation of the Contract. The District shall be entitled to bill/deduct from payments to the Vendor the rate of $50.00 per hour per delivery for any and all late deliveries.

Deliveries shall be made Monday through Friday except school holidays or closing days (such as inclement weather). When holidays or closing days fall on a scheduled delivery day, deliveries shall be made on the next school day, or as arranged with the District's Menu Planner or Nutrition Services designee in advance.

The Vendor shall "floor set" merchandise into the designated storage area when walk in space is

available (dry, chilled, and frozen) at each site location.

Items which are delivered in packages, cartons or crates are accepted only upon the guarantee that upon the removal from such packaging they are found without any defect. If any defect is discovered, they must be removed and replaced with items acceptable to the District without additional charge to the District. Upon delivery of damaged items, the District shall be provided a full refund. Vendor's drivers must assist in unloading, or the District is entitled to reject the delivery and a delivery may be refused by the District.

The Bidder shall request the District's Food Service Manager to verify the accuracy of items, quantities of each item, total quantities, and condition of merchandise. Each delivery ticket shall be receipted (signed) by the District's Food Service Manager or designee. Variations from the norm (*e.g.*, shortages, damages) shall be noted on each ticket by the District's Food Service Manager and initialed by both the Vendor's truck driver and the District's Food Service Manager.

Accommodations for receiving delivery of product at each District school/site vary greatly throughout the District. Bidders are strongly encouraged to investigate the receiving situation at each site prior to submitting their Proposal and any successful Vendor confirms that it is aware of all such accommodations.

If the Vendor is temporarily out of stock on a particular item, the Vendor must contact the District's Menu Planner or Nutrition Services designee at least five (5) business days (business days are defined as Monday through Friday from 7:30 am – 4:00 pm) prior to scheduled delivery to find a mutually agreed upon resolution. The Vendor may deliver an equal or superior product at an equal or lower price with PRIOR WRITTEN APPROVAL from the District's Menu Planner or Nutrition Services designee.

The Vendor must notify the District's Menu Planner or Nutrition Services designee in advance of any changes in product or sources, and also provide a sample on private label products. Vendor agrees to continue making available current product and/or source if the new product and/or source is not acceptable to the District. For example, if private label product 1 is sourced from Supplier A, and the Vendor changes to source private label product 1 to Supplier B, the Vendor must provide a sample and notify the District's Menu Planner or Nutrition Services designee in writing prior to the change, and shall agree to continue to make available the product from Supplier A if the product from Supplier B is not acceptable to the District.

B.3 Delivery Guarantee

The Bidder must guarantee a 98% fill rate for all District orders. For any District order, if the Bidder is unable to perform under the terms of the Contract, or if it fails to deliver any item as listed on the District Order Guide(s) within the prescribed timelines, the District reserves the right to cancel any order(s) or purchase the item(s) on the open market, and to request and receive payment from the Bidder for the difference between the contract price and the price the District pays on the open market.

B.3 Samples

Where the Bidder quotes on a brand named as a standard of the quality and utility desired, a sample of the item will not be required unless specifically requested. If the bid submitted is on any other brand or make than that so named, a sample thereof must be furnished, if requested, or the

bid on the item will not be considered. The sample submitted shall be the exact item the Bidder proposes to furnish.

Samples of items, when requested, must be furnished free of expense to the District, and if not destroyed by tests, will be returned upon request at the Bidder's expense.

Samples must be marked with the Bidder's name and the applicable identification number of the item in this bid. Samples must be full cases with labels, unless specified otherwise. The District is the sole judge of quality, taste consideration, texture, shrinkage, color and students' acceptability. Price will be a significant determining factor, if quality is judged to be at parity. Broken packages, dented cans, and damaged merchandise will not be accepted. The latest pack is to be provided unless approved otherwise by the Nutrition Services Coordinator. No change for the containers, packing, drayage or other purpose will be allowed over and above the price bid in the Proposal, except as otherwise provided in the RFP.

B.4 Brands

When a particular brand or brand and number are named in connection with any item, it is named as a standard of quality and utility only. A Bidder may submit a bid to furnish an item other than that named, but the item offered by the Bidder must state on the Bid Form the brand with its number, if any, which it will furnish. The District shall be the sole judge of whether an offered item is the equal of the named item. If the Bidder fails to write in the brand and number of the item to be furnished, it is understood the Bidder will furnish the item named by the District as the standard of quality and utility.

The brands specified by the District are those currently used. When the District identifies a brand, the Bidder MUST submit a price on that brand on the bid form. Bidders may also submit a bid for an alternative product of equal quality by attaching an itemized detailed letter with nutrition information, ingredient list, and product formulation sheet. The apparent lowest responsible bidder must submit, on or before the bid deadline, samples and specifications for the alternate item offered. The submission of samples and specifications does not in any way connote nor guaranty the award of Contract. These samples are to be furnished without any cost to the District. Samples are to be delivered to the following person's attention:

Amy Glodde
OUSD Menu Planner, Nutrition Services
900 High Street
Oakland, CA 94601

B.5 Warranty of Products

Buyer warrants that all articles furnished shall be free from all defects of material and workmanship, that all articles shall be fit and sufficient for the purpose intended, and shall save, keep, bear harmless and fully indemnify the District and any of its officers, employees and agents from all damages, or claims for damages, costs of expenses in law or equity that may at any time arise from Buyer's and District's normal use.

B.5 Product Documentation

The District plans menus based on USDA food-based Meal Patterns outlined in the Healthy Hunger Free Kids Act (HHFK) of 2010. If the Bidder is bidding a product not specified or an "or equal" item, the Bidder must submit a complete nutrient analysis, list of ingredients, Child Nutrition ("CN") label or Product Formulation Statement ("PFS") documenting the contribution to the meal pattern, and sample of that product before the

B.6 Additional Items

The District reserves the option to add and delete items, subject to approval from the Executive Director of its Nutrition Services Department. The Vendor's markup for new products added is to be reasonably similar to related items and manufacturer.

B.7 Delivery of Fresh Products

Products must be maintained between 33 – 40 degrees Fahrenheit in storage, and shall not exceed 40 degrees Fahrenheit (4.4 degrees Celsius) at the time of delivery. Frozen food shall maintain 0 degrees Fahrenheit during transport and immediately be placed in the freezer upon loading.

B.8 Inspection of Products

All items furnished to the District shall be subject to inspection and rejection by the District for defects or non-compliance with the specifications. The cost of inspection on deliveries or offers for delivery which do not meet specification(s) shall be deducted from the Contract price and payment(s).

B.9 Distribution Facilities

The District, at its discretion, reserves the right to inspect the warehouses, trucks, and distribution facilities of any Bidder prior to or after award of the Contract. If the District determines after such inspection that the Bidder is not determined capable of performance satisfactory to the District, that bid may not be further considered and/or the District may terminate all or any part of the resulting Contract.

B.10 Inability to Perform

In the event that the Bidder is prevented from making delivery or otherwise performing on time as specified in the Contract due to fire, flood, earthquake, labor or transportation problems, war, acts

of government, or any other similar cause commonly referred to as an "act of God," which is not the fault of the Bidder, the Bidder shall not be required to deliver or perform under the Contract for only the duration of such inability, subject to the following requirements:

a. The Bidder shall send written notice to the Secretary of the Board of Education of the Bidder's inability to perform in accordance with the Contract. The notice shall contain all facts which show the condition(s) which prevent(s) performance. The Bidder shall send such notice as soon as possible, but in no event later than the fifth (5th) day following the date of issuance of a purchase order by the District or no later than the date specified in the Contract for delivery or other performance, whichever is applicable.

b. The District may cancel the Contract or purchase order, entirely or in part.

c. The Bidder shall not make any delivery or otherwise attempt to perform under the Contract except on the basis of issuance by the District of a new purchase order or other written instructions.

d. In the event of cancellation of a purchase order issued pursuant to a continuing Contract for the furnishing of a minimum quantity of items, at the option of the District the quantity of items specified in the purchase order may be deducted from the minimum specified in the Contract.

B.11 Utilization Reports

The Bidder will be required to submit product utilization reports to the District monthly, as well as at the end of the Contract period and when requested. The Bidder must be able to clearly demonstrate the capability to provide accurate, reliable, and timely reports in terms of invoice, statement credit, and utilization reports. Moreover, the Bidder must demonstrate a capability to spontaneously provide data for periodic review of prices by the District.

These reports shall be submitted for total quantity and dollar volume delivered per item, in terms of proposal units per total school delivery point, and for the District as a whole. Utilization reports shall be submitted within ten (10) calendar days of the end of each month. This report shall include monthly, as well as year-to-date totals.

The Bidder will meet at least annually with representatives of the District's Nutrition Services Division to review the Contract and the Vendor's performance under the Contract.

B.12 Local or Toll-Free Telephone Number

The Vendor awarded the Contract shall provide a local telephone number or a toll-free telephone number for the District to use.

B.13 Definition of Contract Costs

The District reserves the right to negotiate, either independently or cooperatively, with manufacturers for contract prices.

Any financial advantage or savings the Vendor receives based off of purchases made for the District must be passed on to the District in its entirety. This includes but is not limited to

allowances, bid pricing, and rebates, including non-profit and blanket school bid pricing and allowances.

For verification purposes, the District reserves the right to have available at the Vendor's place of business at a reasonable time, the right to inspect such documents as necessary to establish the "cost" portion of the Vendor's price. Notwithstanding cancellation notice requirements identified in the Proposal, if the Vendor refuses such inspection to the District, the District may immediately cancel the Contract.

The Vendor is responsible for automatically requesting to renew any expiring bid pricing or allowances on all items the District is purchasing at the time of expiration. The District shall supply the Vendor proper documentation authorizing them to do so the District's behalf.

B.14 Processing Plant and/or Distribution Facility

Bidders must have an established processing plant and/or distribution facility.

B.15 Bidder Billing

A separate computer code number for each item or another identification method acceptable to the District may also be used prior to authorization by the Director of Nutrition Services and the Contract Manager. Invoices are to show the contract rate and extension for each item furnished, with a subtotal for each destination, and grand total for all destinations.

The District may require delivery for a school site delivered to an alternate school site determined by the District. When this occurs, the Bidder will provide a separate invoice charging the account for the site placing the order. This will prevent the original receiving site from being charged. Items determined as for catering by the Nutrition Services Director are to be invoiced separately.

B.17 Fuel Surcharge

A fuel surcharge shall not be allowed for the duration of the resulting Contract or on any Contract renewal periods. However, in the event that extreme changes in fuel prices occur during the term of the Contract, the District and Bidder may meet to address contract language changes allowing fuel surcharges or concessions. However, the District is not and will not be obligated to agree to any changes allowing fuel surcharges or concessions related thereto.

P.O. Box [illegible]
Ontario, CA 91761

B.18 Price Change Review

The Bidder is required to submit a list of price changes quarterly to the District. Price changes shall be effective on a specific, constant day of the month. Changes shall be submitted to the District immediately, on revised order forms, after the designated constant date of price change. Price changes can be made due to documented manufacturer increase or decreases. Back orders shall be filled at the price prevailing at the time of original order, unless a lower price is in effect and in which case must be applied to the benefit of the District for said lower price.

B.19 Price Change Audits

Audits may be made by the District of the Vendor's cost price records, without cause and at the District's full discretion, as follows at any time:

Audits shall be allowed of the following:

a. Selected items showing price increases.
b. Selected items showing no price increases.
c. Substitution of cheaper brand or grades.
d. High usage items

B.20 Service

It is essential that the high standards requested by the District in regard to this RFP and resulting Contract be met and maintained. If, in the opinion of the District, performance by the Vendor is not acceptable, written notice will be given to the Vendor. The Vendor shall correct the problem within ten (10) business days following receipt of said notice. The District will again evaluate results of performance and corrections of the Vendor's service. Failure of the Vendor to correct such problems specified in writing shall be deemed cause for cancellation of the Contract.

B.21 Product Protection Guarantee

The District has "automatic" products protection recourse against the Vendor for products which are misrepresented. According to federal regulations, the Vendor whose name and address appear on the package is the responsible party. If a contracted distributor is the first and original packer, the Contract Vendor then becomes the last line of recourse in the chain. Contract distributors are expected to take immediate action to correct any situation where product integrity is violated.

All products shall conform to the minimum requirements of federal and state regulations. These requirements shall include, but not be limited to weights, measures, fill of containers, drained weights, contamination, expiration date and best by date. In addition, all products shall conform to standard guarantee requirements with respect to safety.

B.22 District Expectations Regarding Items

Bidders must offer materials and services meeting the District's specifications and be capable of delivering quality goods or services, as required.

B.23 Order Guides & Ordering Systems

Bidder will be required to produce District Order Guides. The Order Guides will consist of a complete list of all District authorized products, to include the bidder item number, the complete description (including manufacturer, if applicable), and the current contract price. The Bidder will work closely with the District Menu Planner or other District Nutrition Services designee to develop these guides to best meet the District's needs. The Vendor will only include items or make changes on the order guides as directed by the Menu Planner or Nutrition Services designee. Individual school sites should only be able to order items that are listed in the District order guide. All other items not listed in the order guide should be considered restricted. The District, nor any of its sites, shall be required to pay for any unauthorized orders.

In addition, the Bidder is encouraged to present or demonstrate new items or concepts to the District. Additionally, the District will require from time to time that a Distributor bring in a new item and purchase from non-stocking Suppliers or Manufacturers.

An on-line ordering system that is maintained and managed by the Bidder must be available to the District, and only District approved items will be available to order on said system.

SECTION C EVALUATION AND AWARD CRITERIA

C.1 Proposal Evaluation

Each Proposal will be scored on a scale of 1 to 100 points. The Contract will be awarded to the best qualified, lowest responsive/responsible contractor, weighing heavily the highest evaluated score.

C.1.1 Experience & References (30 points)

The District desires to engage a Vendor with the experience necessary to realize the objectives set forth in the RFP. This component will be evaluated based on the Vendor's demonstrated experience in and/or with: (i) providing past and existing services to the District; (ii) the anticipated capacity to provide timely and adequate services to the District; and (iii) reported and/or demonstrated provision of services by the Vendor to the District, as well as other school districts and entities. This element of the evaluation will be worth up to thirty (30) points.

C.1.2 Key Personnel (20 points)

The District desires that the personnel assigned by the Vendor under the Contract be adequate in number and proficiency. The personnel should have experience working together and each such individual should have the necessary level of experience and education for his or her proposed role. This element of the evaluation will be worth up to twenty (20) points.

C.1.3 Cost (40 points)

Bidders should bid firm prices. As noted above, the District reserves the right to negotiate further on pricing with the awarded Bidder prior to the execution of a Contract with that Bidder. This element of the evaluation will be worth up to forty (40) points.

GOLD STAR FOODS
3781 East Airport Drive
P.O. Box [illegible]
Ontario, CA 91761

C.1.4 Local, Small Local and Small Local Resident Enterprise Program Compliance/Utilization (10 points)

In order to provide economic opportunity for Oakland residents and businesses and stimulate economic development in Oakland, the District has implemented a Local, Small Local and Small Local Resident Business ("L/SL/SLRB") Enterprise Program. For this procurement, although this is not a mandatory requirement under this RFP, and such requirement is hereby waived, the District has set the desirable level of L/SL/SLRB participation at 20%. The RFP and resultant Contract encourage participation of **Certified Oakland Businesses**, if possible, as defined in the District's Administrative Regulation 7115. Although this element is not required under this RFP, bidders may include with their proposal evidence that they will comply either partially or in whole with this requirement or a statement that they are unable to comply with this preferred component. This factor of the evaluation will be worth up to ten (10) points.
