Board Cover Memorandum

To Board of Education
From Kyla Johnson-Trammell, Superintendent
Tara Gard, Chief Talent Officer, Talent Division
Meeting Date May 11, 2022
Subject Tribute – Natalie Tran, Montclair Elementary School, District's National Board for Professional Teaching Standards Certified Teacher(s), School Year 2021-2022 Year

Ask of the Board Adoption by the Board of Education of Resolution No. 2122-0139 - Tribute to Natalie Tran, Montclair Elementary School, District's National Board for Professional Teaching Standards -Certified Teacher - School Year 2021-2022.

Background The National Board for Professional Teaching Standards (NBPTS) was established in 1987 as an outgrowth of the 1983 report from the National Commission on Excellence in Education entitled *A Nation at Risk*, which detailed a “rising tide of mediocrity” in educational performance that threatened America’s economic future and imperiled its standing in the world. *A Nation at Risk* focused public attention on the need for a fundamental restructuring of the country’s education system.

Discussion The mission of the National Board is to advance student learning and achievement by establishing the definitive standards and systems for certifying accomplished educators, providing programs and advocating policies that support excellence in teaching and leading and engaging National Board Certified Teachers (NBCTs) and leaders in that process.

The National Board seeks to elevate the status, voice and role of accomplished teachers in shaping a true profession. This includes 1) raising public awareness with respect to the cognitively complex, collaborative and expertise-driven nature of teachers' work; 2) setting higher standards for entry and advancement into the profession; and 3) recognizing accomplished teaching through a rigorous professional certification process comparable to those found in other premier professions, such as medicine, engineering and law.

The National Board developed standards for accomplished teaching in sixteen different subject areas with students at various developmental levels. These standards were developed and validated by representative committees comprised of master teachers, disciplinary organizations, and other education experts. Certification based on these standards began being awarded in the mid-1990s. Today, National Board Certification is considered the most rigorous, coveted and respected professional certification available in education.
