Generally, maintenance may not include repair work involving any facility, but may include repairs on fixtures. Specifically, maintenance services shall include, without limitation, all routine, recurring, and usual work for the preservation, protection, and keeping of any facility for its intended purposes in a safe and continually usable condition for which it was designed, improved, constructed, altered, or repaired. Maintenance work includes resurfacing of streets and highways at less than one inch, and landscape maintenance such as mowing, watering, trimming, pruning, planting, replacement of plants, and servicing of irrigation and sprinkler systems. Maintenance services may not include janitorial or custodial services, and may not include security protection services (such as guards or other security forces). Maintenance services may not include painting, repainting, or decorating other than touchup or minor repainting. (Public Contract Code §§20111(a), 20115, and 22002(c) and (d).)

LEAD-BASED MATERIALS CERTIFICATION

PROJECT/CONTRACT NO. SR413940 between Oakland Unified School District ("District") and East Bay Glass Company ("Contractor" or "Bidder") ("Contract" or "Project").

This certification provides notice to the Contractor that:

- (1) Contractor's work may disturb lead-containing building materials.
- (2) Contractor shall notify the District if any work may result in the disturbance of lead-containing building materials.
- (3) Contractor shall comply with the Renovation, Repair and Painting Rule, if lead-based paint is disturbed in a six-square-foot or greater area indoors or a 20-square-foot or greater area outdoors.

1. Lead as a Health Hazard

Lead poisoning is recognized as a serious environmental health hazard facing children today. Even at low levels of exposure, much lower than previously believed, lead can impair the development of a child's central nervous system, causing learning disabilities, and leading to serious behavioral problems. Lead enters the environment as tiny lead particles and lead dust disburse when paint chips, chinks, peels, wears away over time, or is otherwise disturbed. Ingestion of lead dust is the most common pathway of childhood poisoning; lead dust gets on a child's hands and toys and then into a child's mouth through common hand-to-mouth activity. Exposures may result from construction or remodeling activities that disturb lead paint, from ordinary wear and tear of windows and doors, or from friction on other surfaces.

Ordinary construction and renovation or repainting activities carried out without lead-safe work practices can disturb lead-based paint and create significant hazards. Improper removal practices, such as dry scraping, sanding, or water blasting painted surfaces, are likely to generate high volumes of lead dust.

Because the Contractor and its employees will be providing services for the District, and because the Contractor's work may disturb lead-containing building materials, CONTRACTOR IS HEREBY NOTIFIED of the potential presence of lead-containing materials located within certain buildings utilized by the District. All school buildings built prior to 1978 are presumed to contain some lead-based paint until sampling proves otherwise.

2. Overview of California Law

Education Code section 32240 et seq. is known as the Lead-Safe Schools Protection Act. Under this act, the Department of Health Services is to conduct a sample survey of schools in the State of California for the purpose of developing risk factors to predict lead contamination in public schools. (Ed. Code, § 32241.)

Any school that undertakes any action to abate existing risk factors for lead is required to utilize trained and state-certified contractors, inspectors, and workers. (Ed. Code, § 32243, subd. (b).) Moreover, lead-based paint, lead plumbing, and solders, or other potential sources of lead

contamination, shall not be utilized in the construction of any new school facility or the modernization or renovation of any existing school facility. (Ed. Code, § 32244.)

Both the Federal Occupational Safety and Health Administration ("Fed/OSHA") and the California Division of Occupational Safety and Health ("Cal/OSHA") have implemented safety orders applicable to all construction work where a contractor's employee may be occupationally exposed to lead.

The OSHA Regulations apply to all construction work where a contractor's employee may be occupationally exposed to lead. The OSHA Regulations contain specific and detailed requirements imposed on contractors subject to those regulations. The OSHA Regulations define construction work as work for construction, alteration, and/or repair, including painting and decorating. Regulated work includes, but is not limited to, the following:

- a. Demolition or salvage of structures where lead or materials containing lead are present;
- b. Removal or encapsulation of materials containing lead;
- c. New construction, alteration, repair, or renovation of structures, substrates, or portions thereof, that contain lead, or materials containing lead;
- d. Installation of products containing lead;
- e. Lead contamination/emergency cleanup;
- f. Transportation, disposal, storage, or containment of lead or materials containing lead on the site or location at which construction activities are performed; and
- g. Maintenance operations associated with the construction activities described in the subsection.

Because it is assumed by the District that all painted surfaces (interior as well as exterior) within the District contain some level of lead, it is imperative that the Contractor, its workers and subcontractors fully and adequately comply with all applicable laws, rules and regulations governing lead-based materials (including title 8, California Code of Regulations, section 1532.1).

Contractor shall notify the District if any Work may result in the disturbance of lead-containing building materials. Any and all Work that may result in the disturbance of lead-containing building materials shall be coordinated through the District. A signed copy of this Certification shall be on file prior to beginning Work on the Project, along with all current insurance certificates.

3. **Renovation, Repair and Painting Rule, Section 402(c)(3) of the Toxic Substances Control Act**

The EPA requires lead safe work practices to reduce exposure to lead hazards created by renovation, repair and painting activities that disturb lead-based paint. Pursuant to the Renovation, Repair and Painting Rule (RRP), renovations in homes, childcare facilities, and schools built prior to 1978 must be conducted by certified renovations firms, using renovators with training by a EPA-accredited training provider, and fully and adequately complying with all

applicable laws, rules and regulations governing lead-based materials, including those rules and regulations appearing within title 40 of the Code of Federal Regulations as part 745 (40 CFR 745).

The RRP requirements apply to all contractors who disturb lead-based paint in a six-square-foot or greater area indoors or a 20-square-foot or greater area outdoors. If a DPH-certified inspector or risk assessor determines that a home constructed before 1978 is lead-free, the federal certification is not required for anyone working on that particular building.

4. Contractor's Liability

If the Contractor fails to comply with any applicable laws, rules, or regulations, and that failure results in a site or worker contamination, the Contractor will be held solely responsible for all costs involved in any required corrective actions, and shall defend, indemnify, and hold harmless the District, pursuant to the indemnification provisions of the Contract, for all damages and other claims arising therefrom.

If lead disturbance is anticipated in the Work, only persons with appropriate accreditation, registrations, licenses, and training shall conduct this Work.

It shall be the responsibility of the Contractor to properly dispose of any and all waste products, including, but not limited to, paint chips, any collected residue, or any other visual material that may occur from the prepping of any painted surface. It will be the responsibility of the Contractor to provide the proper disposal of any hazardous waste by a certified hazardous waste hauler. This company shall be registered with the Department of Transportation (DOT) and shall be able to issue a current manifest number upon transporting any hazardous material from any school site within the District.

The Contractor shall provide the District with any sample results prior to beginning Work, during the Work, and after the completion of the Work. The District may request to examine, prior to the commencement of the Work, the lead training records of each employee of the Contractor.

THE CONTRACTOR HEREBY ACKNOWLEDGES, UNDER PENALTY OF PERJURY, THAT IT:

1. HAS RECEIVED NOTIFICATION OF POTENTIAL LEAD-BASED MATERIALS ON THE OWNER'S PROPERTY;
2. IS KNOWLEDGEABLE REGARDING AND WILL COMPLY WITH ALL APPLICABLE LAWS, RULES, AND REGULATIONS GOVERNING WORK WITH, AND DISPOSAL, OF LEAD.

THE UNDERSIGNED WARRANTS THAT HE/SHE HAS THE AUTHORITY TO SIGN ON BEHALF OF AND BIND THE CONTRACTOR. THE DISTRICT MAY REQUIRE PROOF OF SUCH AUTHORITY.

Oakland Unified School District (“District” or “Owner”) will evaluate information submitted by the apparent low Bidder and, if incomplete or unsatisfactory to District, Bidder's bid may be rejected at the sole discretion of District. 5. **Bid Opening.** Bids will be opened at or after the time indicated for receipt of bids as indicated in the Invitation to Bid.
6. **Complete Bids.** Bidders must supply all information required by each Bid Document. Bids

must be full and complete. District reserves the right in its sole discretion to reject any Bid as non-responsive as a result of any error or omission in the Bid. Each bidder must complete and submit all of the following documents with its bid (“Bid Documents”):

- Iran Contracting Act Certification, if applicable (see form attached to Agreement);
- Debarment and Suspension Certification (see form attached to Agreement);

Other District certificates and forms must be submitted after the bid (see Section 13, below). Bids not submitted on the District's required forms shall be deemed non-responsive and shall not be considered. Additional sheets required to fully respond to requested information are permissible. Bidders shall not modify the Bid Form or qualify their Bids. Bidders shall not submit scanned, re-typed, word- processed, or otherwise recreated versions of the Bid Form or other District-provided documents.

7. **Erasures.** Bids shall be clearly written without erasure or deletions. District reserves the right to reject any Bid containing erasures or deletions.
8. **Words / Numerals.** Discrepancies between written words and figures, or words and numerals, will be resolved in favor of written words.
9. **Subcontractors.** No portion of the Contract shall be subcontracted to a third party vendor, and no change in key personnel shall be made, without prior written consent from District. Failure to comply with this term may result in cancellation of the Contract and/or elimination of any obligation of District. It is the District’s desire to have an ongoing support relationship with the successful Bidder. Consistency of service is a critical need and familiarity with District’s locations and unique requirements is also important.
10. **Prevailing Wages.** Pursuant to sections 1770 et seq. of the California Labor Code, Bidder and all Subcontractors under the Bidder shall pay all workers on all work performed pursuant to the Contract not less than the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work as determined by the Director of the State of California Department of Industrial Relations (DIR) for the type of work performed and the locality in which the work is to be performed within the boundaries of the District, as applicable. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Contract, as determined by the DIR are available from the District or on the internet (<http://www.dir.ca.gov>).
11. **Questions.** All questions about the meaning or intent of the Bid Documents are to be directed in writing to the District. Interpretations or clarifications considered necessary by the District

{SR413944} **OAKLAND UNIFIED SCHOOL DISTRICT INSTRUCTION TO BIDDERS/BID FORM**

in response to such questions will be issued in writing by addenda faxed, mailed, or delivered to all parties recorded by the District as having received the Bid Documents. Questions received less than **SEVEN (7)** calendar days prior to the date for opening Bids may not be answered. Only questions answered by formal written addenda will be binding. Oral and other interpretations or clarifications will be without legal effect.

12. **Addenda**. Addenda may also be issued to modify other parts of the Bid Documents as deemed advisable by the District. Each Bidder must acknowledge each addendum in its Bid Form by number or its Bid may be considered non-responsive. Each addendum shall be part of the Bid Documents. A complete listing of addenda may be secured from the District.
13. **Notice of Intent to Award**. The District will send a Notice of Intent to Award to the apparent lowest responsive and responsible bidder, and within **SEVEN (7)** days the bidder shall submit all required documents, including insurance certificates and endorsements. The Contract will not be awarded by the Board of Education until all required documents are submitted, and Contractor's failure to timely submit the required documents will lead to District award to the next lowest bidder and District action against the bid security.
14. **Notice of Award**. The Bidder awarded the Contract shall execute and submit the following documents by 5:00 p.m. of the **SEVENTH (7th)** calendar day following the date of the Notice of Award:
 - a. Submit four (4) copies of the Agreement fully executed by the Bidder awarded the Contract, each bearing an original signature.
 - b. Drug-Free Workplace Certification (see form attached to Agreement).
 - c. Tobacco-Free Environment Certification (see form attached to Agreement).
 - d. Asbestos & Other Hazardous Materials Certification (see form attached to Agreement).
 - e. Lead-Based Materials Certification (see form attached to Agreement).
 - f. Imported Materials Certification (see form attached to Agreement).
 - g. Buy American Certification (see form attached to Agreement).
 - h. Student Contract Form (see Exhibit B to Fingerprinting Notice and Acknowledgement).
15. **Notice to Proceed**. District may issue multiple notices to proceed ("Notice(s) to Proceed" or "NTP(s)") for Potential Work throughout the duration of the Contract. Once Contractor has received an NTP for Potential Work, Contractor shall complete the Work specified in that NTP within the period of time indicated in that NTP.
 - a. It is expressly understood by Contractor that Contractor shall not be entitled to any claim of compensation as a result of District's postponement or failure to issue a NTP pursuant to the Contract.

16. Bid Protests.

All bid protests must comply with the following, or they shall be rejected as invalid:

1. The protest shall be in writing;
2. The protest shall be filed and received no later than 4:00 p.m. on the third business day after the deadline for submittal of the bids;
3. The protest shall set forth in detail all grounds for the protest, including all facts, supporting documentation, legal authorities and arguments in support of the bid protest;
4. Before the bid protest deadline, the protesting party shall transmit the complete bid protest, including all documentation, to all other parties having a potential interest that may be adversely affected by the outcome of the protest, including but not limited to all other bidders who may have a reasonable prospect of losing or obtaining an award of the Contract depending on the outcome of the protest; and
5. All factual contentions must be supported by competent, admissible and credible evidence.

The procedures and time limits set forth in this section for bid protests are strictly construed and are bidder's sole and exclusive remedy in the event of a bid protest. Bidder's failure to strictly comply with these procedures and time limits shall constitute a waiver of any right to further pursue the bid protest, including but not limited to the presentation of a Government Code claim or legal proceedings. Any matter not set forth in the protest, including any ground for the protest or any evidence supporting a ground for the protest, shall be deemed waived.

A bidder may not rely on the bid protest submitted by another bidder, but must timely pursue its own bid protest.

Owner shall review a bid protest that was not rejected for failing to comply with the above procedures. Any final decision on such a bid protest shall be made by the Governing Board.

- 17. Rejection of Bids.** District reserves the right to reject any or all bids, including without limitation the right to reject any or all nonconforming, non-responsive, unbalanced, or conditional bids, to re-bid, and to reject the bid of any bidder if District believes that it would not be in the best interest of the District to make an award to that bidder, whether because the bid is not responsive or the bidder is unqualified or of doubtful financial ability or fails to meet any other pertinent standard or criteria established by District. District also reserves the right to waive inconsequential deviations not involving price, time, or changes in the Work. For purposes of this paragraph, an "unbalanced bid" is one having nominal prices for work item(s) that represent substantive work and/or overly-enhanced prices for nominal work item(s).

- 18. Bidder Responsibility.** Prior to the award of Contract, District reserves the right to consider the responsibility of the Bidder. District may conduct investigations as District deems necessary to assist in the evaluation of any bid and to establish the responsibility, including, without limitation, qualifications and financial ability of Bidders, proposed

subcontractors, suppliers, and other persons and organizations to perform and furnish the Work in accordance with the Contract Documents to District's satisfaction within the prescribed time.

19. **Compliance with District's LOCAL, SMALL LOCAL AND SMALL LOCAL RESIDENT BUSINESS ENTERPRISE PROGRAM.** All bidders must meet the minimum 50% use of Local Businesses that is required as part of the District's Local, Small Local, and Small Local Resident Business Enterprise Program. See the District's website for further information.
20. The District reserves the right to reject any and all bids and/or waive any irregularity in any bid received. Unless otherwise required by law, no bidder may withdraw its bid for ninety (90) days after the date of the bid opening.
21. The District shall award the Contract, if it awards it at all, to the lowest responsive and responsible bidder based on the rates only as shown in the completed Bid Form attached hereto.
22. All work must be completed within the Term of the Contract.
23. **COVID-19.** During the Work, the Contractor shall ensure that all Work, including but not limited to Work performed by Subcontractors, is performed in compliance with all applicable legal, contractual, and local government requirements related to the novel coronavirus and COVID-19, including "social distancing," masks, and hygiene as may be ordered by the State or local authorities and as may be directed in the Contract Documents. In addition, the Contractor and its Subcontractors shall practice 6 feet social distancing. Each bidder must include in its bid all costs related to these requirements in effect at the time of bidding. If additional COVID-19 requirements are imposed after the bid and the Contractor believes that it is entitled to additional time or money, it must timely submit proper requests pursuant to the Contract Documents.
