Scope of Work Description

ACC is proposing to conduct in situ Soil Sampling at the Harriet R Tubman CDC in Oakland, California. Proposed scope of work includes assessing shallow soils prior to the proposed development of new play areas.

ACC proposes advancement of up to two (2) soil borings to approximately 1.0 ft bgs, or refusal, via a hand auger. Samples will be collected from the barrel of the hand auger using stainless steel sleeves subsequently capped with plastic sheeting and tight-fitting plastic caps. Samples will be stored on ice and delivered to a state-certified laboratory following standard chain-of-custody protocol. Sampling equipment will be decontaminated between sampling locations. Soil borings will be back filled with soil cuttings. ACC assumes the soil sampling can be completed during normal business hours.

Samples will be analyzed discretely for CAM 17 Metals by method 6010; total petroleum hydrocarbons as gasoline, diesel, and motor oil by method 8015; VOCs by 8260; SVOCs by 8270; PCBs by 8082; Organochlorine pesticides by 8081, asbestos by CARB 435, and additional waste criteria (STLC/TCLP), as needed. Samples will be analyzed on a standard turn around time (7 business days). Laboratory turnaround times cannot be guaranteed by ACC.

ACC will prepare a written report signed by a Professional Geologist that discusses soil sampling procedures, analytical results, and recommendations and includes a sample location map and analytical results tables.

ACC's understanding is soil may be off-hauled to a landfill pending characterization. Proposed costs do not include assessment of baserock. Proposed work does not include costs for reviewing/signing waste profiles; interaction with the landfills/haulers; or additional hours for consulting beyond the scope of this proposal.

The base fee to conduct the work described above is \$6910. A 10% lump sum contingency amount is included in this proposal as a line item and is included in the total cost.

Proposed work is subject to the attached ACC General Terms & Conditions. Work will commence upon receipt of an executed copy of this agreement. If you have questions regarding this proposal please contact Kim Bunting at 707.481.0795. We appreciate the opportunity to provide this proposal.
