Background

Stanford previously partnered with OUSD to implement a research study on the effects of an intervention for students returning to the district from the Juvenile Justice system. While this prior work demonstrated a benefit of the intervention for students, to date OUSD has been unable to implement the intervention systemwide because sufficient staff are not yet trained on providing the intervention. This work will extend OUSD's ability to provide this intervention to students by having the staff from Stanford who administered the original intervention support Hattie Tate in training OUSD staff in the implementation, providing the tools necessary for implementation, and providing support to district staff in the implementation through the 2023-2024 school year.

EXHIBIT A

1) Anticipated Use of Data: *Describe the purpose for which the Recipient seeks access to the OUSD Data identified in Exhibit B.*

During the term of the service agreement, Stanford will have access to identified student responses entered into Qualtrics to provide routine quality checks on incoming responses in Qualtrics to ensure everything is working properly. This includes reviewing (1) students' qualitative responses for clarity and depth to ensure that facilitator training and instructions, procedures, and question prompts are eliciting high quality data, (2) students' quantitative responses to ensure reliability of responses, and (3) the timing of students' responses to ensure sufficient student engagement. Before the expiration of the services agreement, Stanford will provide closed ended/quantitative data that was entered in Qualtrics to OUSD's RAD department who will assign dummy identifiers and match with OUSD administrative data specified in Exhibit B, and send back to Stanford for use under this Agreement. Before the end of the services agreement, Stanford will clean and anonymize (assign a unique participant number) the master file of qualitative data from Qualtrics before saving in a secure folder. Stanford will maintain the key linking participant number and name in a separate secure location to which only the PI and research staff will have access to, and will only analyze the deidentified file for use under this Agreement, which will also be maintained in a secure location.

The open-ended, qualitative responses will not be matched to the OUSD administrative data but will be shared with the OUSD adult/teacher the student chose in their letter and Stanford will assign a random subject number which will replace the identifiers from Qualtrics and will inform a separate line of analysis.

For 5 calendar years following the end of the service agreement, Stanford will have access to deidentified qualitative student responses that were entered into Qualtrics during the term of the service agreement and deidentified quantitative data stored in Qualtrics regarding the student responses (e.g., response times, word counts, scales) to review the data to understand patterns of responses at OUSD and elsewhere, to better understand the theory of change and the processes the intervention instigates that cause downstream change, using diverse methods, and assessing their effect, if any, on perceptions of and responses to the student, which may include publication. All reports of such tests will maintain student confidentiality though for the avoidance of doubt Stanford is able to share de-identified data with third parties during this period to the extent necessary to accomplish the aforementioned goals. No student names will be released or linked. Stanford will not link the quantitative and qualitative data obtained from Qualtrics to OUSD administrative records—this is a separate line of analysis governed by a research application.

2) Description of Existing Agreements between OUSD and Recipient: *To the extent that OUSD and Recipient have entered separate agreements imposing legal obligations in addition to data sharing, list their date, Enactment Number (if applicable), and a brief summary below. Include research applications in this list.*

No Cost Service Agreement: Dated August 18, 2022: Services agreement with the following scope: Stanford University will provide training, tools, and support for the implementation of the Lifting the Bar intervention to OUSD staff. This intervention, designed by Hattie Tate and Stanford researchers, is designed to improve outcomes for youth returning to school from the juvenile justice system.

3) Site/Department to Provide Data (e.g., Research, Assessment, & Data Department, Tech Services Department, specific school site):

N/A (for the purposes of this Data Sharing Agreement, Stanford will already have access to the requested student work product because each data element will be self-reported by students directly into the Lifting the Bar online intervention, hosted on Stanford's Qualtrics platform)
