Why College & Career Pathways

Linked Learning Pathways: Engineering Example

Rigorous, Contextualized & Integrated Academics

Students learn Math, English, Science, and Social Sciences Common Core Standards with Engineering applications, leveraging and reinforcing skills students learning in Career Technical Education and work-based learning.

Work-Based Learning

Students learn with professionals from diverse fields in Engineering sector, everything from practicing professionalism to helping to solve complex and real problems in the industry through application of technical and academic skill acquired in the classroom

AP's, Counselors, Case Managers Aligned + Master schedule to support cohorting, credit recovery, dual enrollment, and internships + District and Citywide Focus on College *and* Career

Students develop college and career plans aligned with their goals, get support to meet A-G requirements and complete financial aid applications, earn college credit aligned with their plans, and receive individualized supports as needed, all leveraging learning and experiences in the pathway

Comprehensive Student Supports

Students develop deep skill and certifications in Engineering, learning to apply industry-standard technology to provide real solutions to complex problems. Students practice and apply Math, English, Science, and Social Sciences skills in these classes and learn with industry professionals.

Career Technical Education

College & Career in OUSD

- CTE Technology Upgrades
- CTE Classroom Infrastructure Upgrades

    - Arts, Media & Entertainment
    - Engineering
    - Computer Science
    - Health Science & Medical Technology
    - Law & Public Service
- Expansion of summer Peralta Institute CTE offerings
- OUSD Alumni Highway to Work (CNA + ER Technician)

How do we know pathways are working in Oakland?

A systematic approach to Linked Learning pathways began in 2014.

Overall **high school graduation rates have increased by 14.1 percentage points**, from 60.7% for the class of 2014 to 74.8% for the class of 2022! Similarly, **eligibility for four-year college has increased by 17.1%**, from 27.9% of graduates in the class of 2014 to 45% of graduates in the class of 2022.

Since 2014, Linked Learning pathways have **increased graduation rates for Black students by 17.5%** – and the **gap in graduation rates between Black and white students has decreased by 30%**. Measure H will continue these programs to close racial achievement gaps in our Oakland schools, increasing educational equity.

Oakland Unified School District

-

Career Technical Education Plan

High School Linked Learning will gather input from the CTE Committee members for the Comprehensive Local Needs Assessment to inform the application to the CDE for Perkins funding for the 2023-24 school year AND inform the development of the Empowered Graduates Strategic Plan (Yr 3).

We sincerely thank you for your time.

Today's Facilitators from OUSD's Linked Learning Department:
