Health and Wellness Summer Program

Nutrition and Exercise Lab

Teaching the Practice of Health and Wellness for Life

Scope and Sequence of the Summer Program

Mission Statement: The Nutrition and Exercise Summer lab seeks to create a supportive environment where parents of school-age children can learn about healthy eating practices and exercise that will support them in their health and wellness goals.

Objectives: To increase knowledge and skills in the areas of nutrition: healthy eating, preparing simple snacks, awareness of whole foods, and mindful movement: simple exercises that can be done to support physical health.

Timeline:

- July 23th through August 3rd.

Logistics:

- A healthy snack will be provided at each meeting. Generally the snack featured is a local and seasonal fruit or vegetable that follows the 'harvest of the month' calendar to promote sustainable, seasonal agricultural awareness. Other snacks will focus on healthy and simple preparation that girls can incorporate into their lives. There will also be a food demonstration at least once a week of a simple recipe that uses local, seasonal fruit/vegetable.
- Each session will open with different breathing techniques to help parents learn different ways to manage stress.

- Each session will have a 30 minute exercise segment. Simple postures that correlate with proper breath work and alignment will be taught. The level of difficulty will be determined by class participants.
- Each session will allow time for a nutrition lesson. Lessons in label reading, how to shop a grocery store, how to know what is in season, are a few of the topics that will be covered.
- Each class will end with an Empowerment circle, different affirmations that relate to health and wellness will be introduced to the group to help sustain them at home and at work.
