Background A one paragraph explanation of why the consultant's services are needed.

Seneca Center is along-time partner of Elmhurst Community Prep. Its therapists have worked with our population for nearly a decade, and the clinical supervisor for the organization is a part-time RTI coordinator for ECP. The organization's reputation is strong and it's integration in the largely school structure is a clear value-add.

Discussion One paragraph summary of the scope of work.

While not large the most at-risk population of young people in our community can have a significant impact on the positive functioning of our school. Currently, these young people are struggling and not being served well. By engaging these services, we hope to provide effective intervention that would allow students to develop the SEL and academic skills necessary for high school success.

Seneca Family of Agencies Statement of Qualifications

Seneca has provided school-based behavioral health services for Oakland Unified School District (OUSD) students since the mid-1980s, initially offering nonpublic school-based day treatment for the District's highest-need students, followed by public school-based outpatient services beginning in 1998. OUSD schools and numbers of District students served each year by Seneca include United for Success (approximately 60 students/year), Community Day School (117 students), Elmhurst Middle School and Alliance Academy (40 students/year), Mandela High School and the Architecture Academy (30 students), and Street Academy (43 students). In addition, Seneca provides outpatient mental health services and RTI (Response to Intervention) services for students at ARISE High School and Cox Academy (Oakland charter schools).

Since implementing its first school-based behavioral health services program in the 1980s, Seneca has emphasized the development of close, collaborative relationships among its own staff, school district personnel, county agency staff, and family members in order to address the education and treatment needs of client youth. Because success in school is such a powerful indicator for later success in adulthood, Seneca school-based, mental health program staff strongly encourage families to see this time in their children's lives as a critical opportunity for achieving positive change. In particular, we support family members and other caregivers to develop and maintain open and constructive communication with teachers, school administrators and guidance counselors, probation officers, child welfare workers, and any other public agency staff who may be involved with their children.

At many of the 15 public school sites in Alameda and Contra Costa Counties where Seneca provides behavioral health services, the partnerships established by Seneca program staff with (and among) students, parents/caregivers, teachers, and school administrators have contributed to a transformation of the campus culture and climate. Whether providing consultation and training to teachers in order to institute effective behavioral management programs, intervening individually with students to help them meet their education and treatment goals, or supporting parents to advocate for the educational needs of their children, Seneca therapists and mental health assistants do whatever is required to positively impact the school system ecology where client youth spend such a large proportion of their waking hours.
