

School Lunch

I support the implementation of a NEW MODEL OF FOOD SERVICE for Oakland Unified Schools based on the recommendations of OUSD's *Rethinking School Lunch Feasibility Study*, which proposes comprehensive Nutrition Services transformation. Substantially improved school meals are important, not only to OUSD students' academic success, but also to their social, emotional and physical health.

I support the new model of food service for Glenview Elementary School. This school is the greatest in academic but yet, the FOOD is not very appealing at all. My daughter does not like the food because it is "too fatty and not healthy". I agree with her. Thanks!

Mar 28 2012 Lai Saephan laisaephan2002@yahoo.com

Godmother to student at Kaiser Elementary. Really want to see the lunches improved to standards that support kids' health.

Mar 28 2012 Mary Goodell mary49512@yahoo.com
Mar 28 2012 Teri Gruenwald terikaren@yahoo.com

My family supports lunches with high nutritive, gustatory and aesthetic values, prepared from foods that are sustainably farmed, fished or harvested. With lots of love, the most rabid, PC foodies in the East Bay!

			Glenview Elementary School. I would like to see REAL food: fresh, not processed; all-organic; minimal grains, starches, and sugars; no more than about 4 oz of protein at a time; and full-fat dairy only (it's an important dietary protection against obesity and diabetes - and that's not a typo).

Please give our children healthy food. Please do not be swayed by contracts of large corporations. We have a huge obesity epidemic and healthy food could change that.

incoming kindergartner for 2012-2013 school year in OUSD.

I would love a school lunch program modeled after the Berkeley school lunch program.

I support this change being a parent of a pre diabetic child.

I am a teacher in Oakland and see the school lunches every day. Our students need more nutritious food.
Sequoia Elementary
Sequoia Elementary

Sequoia Elementary School

Change is needed for the benefit of our students. Please consider major improvements in school meals so my children can have adequate nutrition to support their academic success.
