Subject: Presentation: Measure B (Fund 2122) – Budget to Actual Expenditures, and

Cash Projections

ACTION REQUESTED

Presentation to the Board of Education of the Measure B (Fund 2122) - Budget to Actual Expenditures, and Cash Projections as of September 28, 2011.

BACKGROUND

In keeping with the Oakland Unified School District's commitment to the improvement and development of its K-12 facilities, the District has embarked on a groundbreaking plan to create a district-wide modernization of the District's schools.

STRATEGIC ALIGNMENT

Among the key purposes of the District's Facilities Master Plan is to provide an academic environment for the Oakland community that will give every student, educator, and community member using our facilities the best possible opportunity for learning.

Through implementation of the Facilities Master Plan, the District intends to improve the District's facilities in terms of structural integrity, safety, reliability of operating (mechanical) systems, access to modern resources, number and type of appropriate laboratories and specialized instruction rooms, opportunities for physical education, and attractiveness, such that the Oakland Public Schools are second to none. Operation of the District schools under the planned approach is intended to ensure safety, cleanliness, and orderliness for all individuals participating in the learning process.

The basic facility needs of students such as proper lighting, functional roofs, noise control and well maintained buildings, not only convey the message that we value our students and teachers

ER: TEW: SMB

but may foster a sense of school pride and community ownership which may improve attitudes towards learning. The implementation of the Facilities Master Plan is our first step in that direction.

FISCAL IMPACT

The funding source for this project budget is the General Obligation Bond-Measure B.
