

LPS Oakland R&D Campus

Blended Teaching

Accelerating Academics

- Providing strong literacy and numeracy foundations
- Embedding literacy supports in all courses
- Empowering students with their own data

Building Economic Assets

- Tapping and developing technology skills
- Learning design thinking and entrepreneurship
- Leveraging language skills

Transitioning to College

- Developing the organizational, communication and self-advocacy skills for college
- Interacting with professors and students from across the state
- Earning college credit in high school
- Extending through the first year of college
