## 1 Scope of Services | ASR 01

Our proposal and scope of work is based on the discussion with Paul Orr and Robert Palmer relevant to lack of progress made by the General Contractor (GC) in fulfilling commissioning requirements for the project. This Additional Services Request (ASR) represents the additional effort required by Integral Group to that is above and beyond the contracted scope of work.

The list below represents the activities and time spent by Robert Palmer to communicate with the GC regarding requirements for providing documentation, TAB and testing support. Our scope includes one documentation and TAB review, with a second review to back check the GC's resubmittal to ensure comments were addressed. In this case, the TAB #2 GC resubmittal did not adequately address comments and is effectively "lost time." Due to the inadequacy of TAB #2, submitted documentation and failed testing, an additional round of submittals and reviews is required. This ASR includes the hours for lost time for TAB #2 and Documentation Review, as well as the hours required to review required for TAB #3 Review as described below.

DATE September 16, 2020

REGARDING **Additional Service Request – BES for Increment 3 Expansion Joint**

Dear Michael,

At the request of Oakland Unified School District (OUSD), we are submitting this additional service request to provide Building Envelope Specialist (BES) services for the Fremont High School Campus project. As you are aware, RDH previously submitted a proposal on January 30, 2019 for scope to provide BES services for the Increment 3 window replacement. At this time, RDH has fulfilled the obligations of that additional services request and expended the previously approved budget amount.

### Scope Background

On September 10, 2020 RDH reviewed the Increment 3 breezeway expansion joint and reported on areas where the air/water barrier is not continuous as required in the Owner's Project Requirements (OPR). RDH shared these observations with Oakland Unified School District (OUSD), Integral Group, and LCA Architects in RDH's Site Visit Report (SVR) #13. OUSD has requested that RDH provide additional BES services and coordinate with the project team to resolve items identified for Cahill to RFI in RDH SVR #13.

### Scope of Services

At OUSD's request, we will provide BES services which includes reviewing RFI's, as-built drawings for the existing adjacent library building, and conference calls to coordinate with the team. Our scope is meant to supplement but not replace the work LCA is providing under their Construction Administration services agreement.

RFI/ASI Review: Provide support reviewing and responding to contractor requests for information (RFI) and architect supplemental instructions (ASI) related to the breezeway expansion joint. This may include reviewing as-built drawings for the exterior wall assemblies at the existing library building which connects to the Increment 3 breezeway. We have budgeted up to 10 hours for this scope item.

Coordination Calls: Participate in up to three (3) coordination calls with the project team. We have budgeted up to 6 hours for this scope item.

Field Verification: Conduct up to one (1) site visit to review the as-built conditions. While we have documented the current expansion joint installation in RDH SVR 13, additional field verification may be needed to confirm the existing wall assemblies at the adjacent library building. This scope is for field verification related to responding to RFI's only and does not include a site visit report. We have budgeted up to 4 hours for this scope item.

### Fees

We propose performing the scope above on a Time and Expense basis. We estimate a not to exceed budget of **\$4,000** for our services noted above. We will only bill for actual time

expended and will seek approval in advance if the required effort or scope is more than anticipated.

### Terms

We propose that the Contract Terms and Hourly Rates we negotiated for our base scope of services apply to these additional services.

### Closure

This Proposal is valid for 60 days from the date of this letter. If this Agreement is acceptable, please sign a copy of this proposal in the space provided on the last page and return a signed copy by email. Please do not hesitate to contact the writer should you wish to discuss any aspect of our proposal. We look forward to working with you.

Attn: Huy Hoang

RE: Fremont HS Inc. 2-4 - Request for Additional Services for **Building Envelope Commissioning Services**

Dear Mr. Hoang,

RDH Building Science, our building enclosure subconsultant, was requested by the District to provide additional services regarding (1) a scope expansion to accommodate full window replacement at Building B, (2) additional Construction Administration Services (CAS) scope to review and advise on RFI/ATIs in the remaining increments, and (3) additional Construction Field Review (CFR) scope to accommodate what is now understood to be the appropriate time on site.

RDH has proposed a total not-to exceed budget of \$44,750 for the remaining 3 increments, to which we propose adding 10% to cover our management and administrative costs. This would result in a total not to exceed Add-Service amount of \$49,225.

If this is acceptable, please send the appropriate authorizations. And feel free to contact me and RDH with any questions.

Thank you,

Michael McNulty

**EXHIBIT A**  
**Scope of Services**

Proposal to be attached.

6/23/2016

Dear Kenya Chatman:

This letter is to confirm our team's Local Business Enterprise (LBE) certification with the city of Oakland. Per our earlier discussions OUSD would like to proceed with the Base Services and Add Alternate 1 sections listed on Integral Group's Proposal for Commissioning Services for Fremont High School. The fee breakdown listed on the proposal is as follows:

- Base Services (Integral Group) – \$143,700
- Add Alternate for Envelope Commissioning (sub-contractor) – \$106,000
- Reimbursable Expenses – \$3,000
- Total fee: \$252,700

12,000 Contingency

\$264,700

Integral Group is currently certified as a local business enterprise by the city of Oakland with a LBE number 5628. However our proposed envelope commissioning sub-contractor does not currently hold a LBE certification with the city of Oakland. This results in the following LBE percentage breakdown:

- Integral Group (LBE # 5628) – \$146,700 / \$252,700 = 58.05%
- Sub-contractor (Not an LBE) – \$106,000 / \$252,700 = 41.98%

Hence the proposed commissioning team LBE percentage is above the 50% threshold required by the city for contracts above \$100,000.

Please feel free to contact us with any questions or concerns.

Sincerely,

William Casper-Ortiz MSME | Associate

#### **Title 24 – 2013 Design Review Checklist/Kick-off Meeting**

As part of the commissioning requirements set forth in the new Title 24 2013 Energy Standards, IG will conduct the Title 24-2013 design review and corresponding design review kick off meeting (to be held in Schematic Design). This review is guided by T24 Cx compliance forms and it is aimed at verifying the inclusion of code mandated energy efficiency measures into the construction documents. The Owner and design team will receive completed checklists for incorporation into the construction documents.

#### **Commissioning Specifications**

Integral Group will provide commissioning specifications to be included into the contract documents. The following specification sections will be provided for inclusion by the Design Team:

- 019113 – General Commissioning Requirements
- 220800 – Plumbing Systems Commissioning
- 230800 – Mechanical Systems Commissioning
- 260800 – Electrical Systems Commissioning

IG will also review the specifications to ensure proper commissioning language is in the project documents, as necessary. IG will ensure that systems manual items are included in the commissioning specifications.

#### **Commissioning Plan**

Prior to permit issuance, Integral Group will develop a commissioning plans to document how the project will be commissioned and will be provided during the design and construction phases of the building project to guide the project team. The Commissioning Plan will include the following:

- General project information
- Commissioning team information
- Commissioning goals
- Commissioning process activities, schedules and responsibilities
- Systems to be commissioned
- Plans to test systems and components and shall include:
  - Equipment and systems to be tested, including the extent of tests
  - Functions to be tested
- Conditions under which the test shall be performed
- Measurable criteria for acceptable performance

#### **Submittal Review**

Integral Group will review contractor submittals applicable to systems being commissioned for compliance with the OPR; BOD and contract documents. This review shall be concurrent with A/E reviews and submitted to the design team and Owner for inclusion back to the installing sub-contractor.

Applicable RFIs and COs will be reviewed as it impacts the Commissioned systems as necessary.

#### **Pre-Functional Test/Checklists – Installation Verification**

IG will prepare a pre-functional test/checklist for each commissioned piece of equipment for the use of the installed sub-contractor. This will ensure that all equipment is ready for functional testing (see next item) to begin. These phase will require TAB reports, sub-contractor start-up checklists, controls point-to-point checklists, chlorination reports, etc. The contractor is required to complete these forms and submit them to IG for review prior to functional testing.

IG will also conduct site installation visits during construction to ensure proper installation of the commissioned systems. The visits are to coincide with construction progress meetings. Site reports will be issued to the team. Refer to the meeting section for proposed number of site visits/meetings.

IG will not monitor T24 acceptance tests which are to be performed by the others. However, completed T24 acceptance tests will be required to be submitted as a complete pre-functional test package prior to commencement of the functional testing phase.

IG may witness select start-up and TAB activities to ensure proper procedures. Exact systems and activities to be witnessed shall be documented through the Commissioning plan and communicated during the construction kick off meeting.

### **10 Month Warranty Review**

IG will review the operation of the building during the warranty period; usually 10 months into occupancy. IG will review the following items:

- Interview facilities staff for known issues
- Statically inspect the commissioned systems for issues
- Selectively test building systems to ensure proper operation and/or overrides are not present affecting the operation and energy efficiency of the system. This may be done via BMS trend reviews. It is assumed that facilities personnel and/or contractors will provide the trends.

IG will provide a list of issues to be corrected by the Contractor. IG has included a visit onsite for this task.

### **Plan Check and CHPS Forms Submission**

IG will prepare the appropriate commissioning related forms for plan check and CHPS (EE 3.0 and EE 3.1) submission. We will also provide written comments and responses to all AHJ and CHPS comments.

### **Meetings**

The following meetings are included in the base scope of work:

- One - In-person T24 design review CX kickoff meeting
- Two – In-Person Peer Design Review Meetings with Design Team (including Back check)
- One – In-Person Controls Integration Meeting with District and Design Team
- One – In-Person Pre-bid meeting
- One - In-person construction CX kickoff meeting
- Twenty – Progress meetings onsite while conducting site installation walks and construction progress monitoring

The above meetings are in addition to the onsite functional testing activities.

### **ADD ALTERNATE 1 - CHPS (EE 3.2) ENVELOPE COMMISSIONING**

This additional scope will incorporate the CHPS EE 3.2 envelope commissioning requirements. This will be conducted by a third party sub-contractor to Integral Group. We will manage and supervise our sub-contractor at cost. The proposed sub-contractor is RDH Consulting. They have offices in Oakland, CA.

It is expected that the envelope commissioning sub-contractor will attend some of the meetings for the base scope of work, as necessary, for integration into the overall commissioning process. However the envelope sub-contractor will not be expected to attend all meetings and may host separate envelope commissioning meetings.

### **ADD ALTERNATE 2 – FIRE/LIFE SAFETY SYSTEMS**

Integral group will include the commissioning of the fire alarm and sprinkler systems. We will interface with the IOR to test the systems prior to the local AHJ testing the systems to ensure a smooth inspection process for code approval.

It is not expected that additional meetings will be required, rather covered during regularly scheduled meetings already included in the base scope of work.

### **ADD ALTERNATE 3 – ADDITIONAL SYSTEM COMMISSIONING**

Per the RFP there additional systems that would like to be commissioned that are not part of the base T24-2013 and CHPS requirements. Therefore, we have provided an itemized list of systems in the fee section to add individual systems to IG's scope of commissioning. These additional systems will be monitored and witnessed only by the installing sub-contractors testing and commissioning process. IG will collect all documentation and track any issues as a result of the testing of these additional systems.

It is not expected that additional meetings will be required, rather covered during regularly scheduled meetings already included in the base scope of work.
