The term of this Agreement shall commence on May 31, 2012 and shall conclude no later than December 21, 2012.

**Background** Structural deficiencies were identified and documented in an Evaluation & Design Criteria Report prepared by ZFA Structural Engineers dated 11-21-2011. **Strategic Alignment** Among the key purposes of the District's Facilities Master Plan is to provide an academic environment for the Oakland community that will give every student, educator, and community member using our facilities the best possible opportunity for learning.

Through implementation of the Facilities Master Plan, the District intends to improve the District's facilities in terms of structural integrity, safety, reliability of operating (mechanical) systems, access to modern resources, number and type of appropriate laboratories and specialized instruction rooms, opportunities for physical education, and attractiveness, such that the Oakland Public Schools are second to none. Operation of the District schools under the

planned approach is intended to ensure safety, cleanliness, and orderliness for all individuals participating in the learning process.

The basic facility needs of students such as proper lighting, functional roofs, noise control and well maintained buildings, not only convey the message that we value our students and teachers but may foster a sense of school pride and community ownership which may improve attitudes towards learning. The implementation of the Facilities Master Plan is our first step in that direction.

Materials Testing and Special Inspection Services,  
Oakland Technical High School Auditorium Seismic Rehabilitation Project  
4351 Broadway, Oakland, California  
OUSD Project # ~~07150~~ 12103 M.L.

Dear Ms. Ledezma:

In accordance with your request, Ninyo & Moore is pleased to provide this proposal to perform materials testing and special inspection services for Oakland Technical High School Auditorium Seismic Rehabilitation Project. This proposal provides cost estimates based on our review of the non-approved DSA project plans, specification and DSA-103 sheet, as stipulated in the California Building Code, Title 24, and our previous experience with similar projects of this nature.

The purpose of our services will be to provide you with field and laboratory data and information in order to assess compliance with the project plans and specifications. Included in this proposal is a discussion of our understanding of the project, the scope of services we can provide, and associated fees.

#### PROJECT UNDERSTANDING AND PROPOSED CONSTRUCTION

It is our understanding that this project will consist of strengthening of the existing diaphragms, anchorage to pre-cast concrete walls, Strengthening of the horizontal steel truss diaphragm above the auditorium and connecting to pre-cast concrete walls, and bracing and anchoring of all non-compliant non-structural items at the Oakland Technical High School Auditorium.

## SCOPE OF SERVICES

We understand the Project Inspector will coordinate our services on an as-needed basis. Based on our review of the project documents and our experience with similar projects, we anticipate our scope of services to include:

- Managing the project, including review and distribution of test data and daily field inspection reports.
- Reviewing welding procedures submitted by the contractor for compliance with the project documents.
- Performing visual inspection by our AWS/CWI-credentialed special inspector of structural steel site assembly and field welding including ultrasonic testing.
- High strength bolts installation inspection, sampling of high strength bolts, nuts and washers and laboratory testing for Rockwell and Hardness tests.
- Performing pull and/or load testing by our technician of anchors/dowels.
- Preparing daily reports and test data sheets.
- Preparing Division of the State Architect (DSA) Final Verified Reports.

## ASSUMPTIONS

- Our services will be scheduled and coordinated by the District's Project Inspector.
- The contractor and subcontractors will maintain a 40-hour work week during normal daytime work hours; and that weekend and overtime work has not been included in this cost proposal.
- Our services are subject to California prevailing wage law.
- It will not be necessary to sign a labor agreement with the Operating Engineers Union for this project, nor will Ninyo & Moore's technicians and inspectors need to be members of the Union.
- Site visits made by professional staff and our field technicians will be billed on a portal-to-portal basis, with a 2- hour minimum.
- The DSA Project Inspector will perform inspection services including:
  - Placement of reinforcing steel, formwork and embedded elements;
  - Installation of post-installed anchors.

- Since steel shop schedules are not available, we anticipate a local Bay Area fabricator will be utilized for the structural and miscellaneous steel. We have based our estimate for shop welding inspection services on this and our prior experience with similar types of projects.
- Services that are not included will be provided upon the District's written request.
- Additional laboratory testing will be provided upon request and written approval, and will be billed at the rates listed on our current fee schedule.

#### PROPOSED ESTIMATED COST

| Task | Summary of Estimated Fees for Geotechnical Observation Materials Testing and Inspection Services | Estimated Fees  |
|------|--|-----------------|
| 1.   | Structural Steel Welding and High-Strength Bolting   | \$5,535         |
| 2.   | Load Testing Post-Installed Anchors/Dowels   | \$3,792         |
| 3.   | Management, Admin Support, Prepare and issue Final Report  | \$2,090         |
|      | <b>Estimated Fees</b>  | <b>\$11,417</b> |

SEE APPENDIX "A" FOR BREAKDOWN OF FEES

Our proposed time-and-material fee estimate for construction materials testing and special inspection services associated with this project, based on the scope of services as described above, is **\$11,417 (Eleven Thousand Four Hundred and Seventeen Dollars)**. A detailed estimate of fees is attached. Please note that at the time our estimate was calculated, a construction schedule was not available. Should the construction schedule require a lesser or greater amount of services than that estimated herein, the cost would vary accordingly. The actual cost of our services will depend largely on the requested site visits for our services, as well as impact of weather and work stoppages, all of which are beyond our control. When possible, we will combine inspection and testing services to reduce the cost of our services.

We will provide services on an as-needed basis and will require 24 hours notice for scheduling inspection and testing visits. Construction services are billed portal-to-portal from our Oakland office.

We sincerely appreciate being a part of the OUSD project team to implement this important Facility Bond program and very much look forward to the opportunity to continue to work with you on this project.

Sincerely,  
**NINYO & MOORE**

## **SCHEDULED ADDITIONAL INSURED - WRITTEN CONTRACT (ARCHITECTS, ENGINEERS AND SURVEYORS)**

This endorsement modifies insurance provided under the following:  
COMMERCIAL GENERAL LIABILITY COVERAGE PART

### **SCHEDULE**

**NAME OF PERSON(S) OR ORGANIZATION(S):**

Oakland Unified School District, its Directors, Officers, Employees, Agents, and Representatives.

**PROJECT/LOCATION OF COVERED OPERATIONS:** All Operations of the Named Insured.

### **PROVISIONS**

1. The following is added to **SECTION II - WHO IS AN INSURED:**

The person or organization shown in the Schedule above is an additional insured on this Coverage Part, but:

- a. Only with respect to liability for "bodily injury", "property damage or "personal injury" and
- b. If, and only to the extent that, the injury or damage is caused by acts or omissions of you or your subcontractor in the performance of "your work" to which the "written contract requiring insurance" applies. The person or organization does not qualify as an additional insured with respect to the independent acts or omissions of such person or organization.

The insured provided to such additional insured is limited as follows:

- c. In the event that the Limits of Insurance of this Coverage Part shown in the Declarations exceed the limits of liability required by the "written contract requiring insurance", the insurance provided to the additional insured shall be limited to the limits of liability required by that "written contract requiring insurance" This

endorsement shall not increase the limits of insurance described in Section III – Limits Of Insurance.

- d. This insurance does not apply to the rendering of or failure to render any "professional services" or construction management errors or omissions.
- e. This insurance does not apply to "bodily injury" or "property damage" caused by "your work" and included in the "products-completed operations hazard" unless the "written contract requiring insurance" specifically requires you to provide such coverage for that additional insured, and then the insurance provided to that additional insured applies only to such "bodily injury" or "property damage" that occurs before the end of the period of time for which the "written contract requiring insurance" requires you to provide such coverage or the end of the policy period, whichever is earlier.

2. The following is added to Paragraph 4.a. of **SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS:**

The insurance provided to the additional insured shown in the Schedule above is excess over any valid and collectible "other

## COMMERCIAL GENERAL LIABILITY

insurance, whether primary, excess, contingent or on any other basis, that is available to the additional insured for a loss we cover. However, if you specifically agree in the "written contract requiring insurance" that this insurance provided to the additional insured under this Coverage Part must apply on a primary basis or a primary and non-contributory basis, this insurance is primary to "other insurance" available to the additional insured which covers that person or organization as a named insured for such loss, and we will not share with that "other insurance". But this insurance provided to the additional insured still is excess over any valid and collectible "other insurance", whether primary, excess, contingent or on any other basis, that is available to the additional insured when that person or organization is an additional insured under any "other insurance".

### 3. The following is add to **SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS**:

#### Duties Of An Additional Insured

As a condition of coverage provided to the additional insured:

- a. The additional insured must give us written notice as soon as practicable of an "occurrence" or an offense which may result in a claim. To the extent possible, such notice should include:
  - i. How, when and where the "occurrence" or offense took place;
  - ii. The names and addresses of any injured persons and witnesses; and
  - iii. The nature and location of any injury or damage arising out of the "occurrence" or offense.

b. If a claim is made or "suit" is brought against the additional insured, the additional insured must:

- i. Immediately record the specifics of the claim or "suit" and the date received; and
- ii. Notify us as soon as practicable.

The additional insured must see to it that we receive written notice of the claim or "suit" as soon as practicable.

- c. The additional insured must immediately send us copies of all legal papers received in connection with the claim or "suit", cooperate with us in the investigation or settlement of the claim or defense against the "suit", and otherwise comply with all policy conditions.
- d. The additional insured must tender the defense and indemnity of any claim or "suit" to any provider of other insurance which would cover the additional insured for a loss we cover. However, this condition does not affect whether this insurance provided to the additional insured is primary to that other insurance available to the additional insured which covers that person or organization as a named insured.

### 4. The following definition is added to the **DEFINITIONS** Section:

"Written contract requiring insurance" means that part of any written contract or agreement with the person or organization shown in the Schedule above, under which you are required to include that person or organization as an additional insured on this Coverage Part, provided that the "bodily injury" and "property damage" occurs and the "personal injury" is caused by an offense committed:

- a. After the signing and execution of the contract or agreement by you;
- b. While that part of the contract or agreement is in effect; and
- c. Before the end of the policy period.
