

Skyline Green Program of Study

Industry Sector:

- [Energy, Environment, and Utilities](#)

Industry Partners: Waste Management, ETIC Engineering, Bay Area Air Quality Management District (BAAQMD), Laney College, Merritt College, Sun Power, Y-PLAN, SunPower, Lawrence Hall of Science; PG&E, AMRYIS, East Bay College Fund; Aspire Education Project: GLOBE-CAP; We Share Solar; EBMUD

<p>Pathway Vision</p> <p>Here is a link to our Linked Learning Certification Final Report</p>	<p>What is the instructional vision that will drive the pathway?</p> <p>Through the use of Science, Technology, Engineering & Math (STEM), cross-curricular and project-based learning programs throughout a student's four years in the Green Energy Academy at Skyline High School, students will reach competency levels in: <i>communication, critical thinking, creativity</i> and <i>collaboration</i>. At the completion of high school, <u>every</u> academy student will be prepared to complete a senior defense. The senior defense communicates what they have learned/achieved in the 4 competence levels.</p> <p>The mission of the Green Energy Academy is to provide students with an opportunity to succeed in green energy careers and post-secondary education in the area of environmental technology. The Green Academy provides students with a comprehensive educational experience consisting of engaging and rigorous academics and hands-on learning. Students graduating from the academy are ready to pursue occupational training programs at the community college, post-secondary education, or directly enter the workforce in an entry-level technical training position with career potential.</p>

Possible additions to the program of study for 2020-21:

<i>Engineering Geometry with Physics - Math</i>	9, 10	<i>Engineering and Design / Engineering and Design</i>
<i>Functional Design Through Algebra</i>	9, 10, 11, 12	<i>Engineering and Architecture / Engineering Design</i>

Possible additions to the program of study for ECCCO Summer 2020:

- ENVMT 3 Social Issues in Agriculture* 9, 10, & 11 (Summer 2020)
LANHT 28A Permaculture Design I 9, 10, & 11 (Summer 2020)
