For more than 25 years, Seneca has partnered with families, communities, schools, and districts to provide innovative care at the most critical point of need. Serving more than 1,000 children in traditional public, public charter and non-public settings daily, Seneca understands the power and considerable impact of providing a continuum of care ranging from early interventions to Special Education services. The All-In! Partnership Project exists to support schools in meeting this need for all of their students.

Allied Interventions: Any effort to serve the diverse population of students in today's schools requires an approach that considers their equally diverse needs. *Allied Interventions* is a unique model that provides aligned academic, behavioral and therapeutic approaches both to prevent student struggles and to remedy gaps that may already exist. Utilizing the Response to Intervention (RTI) tiered framework outlined below, our team takes a collaborative approach to working with school leaders and staff to help design, implement, and track a wide array of targeted interventions and key services to meet the assessed needs of special and general education students.

TIER 3 • INTENSIVE:

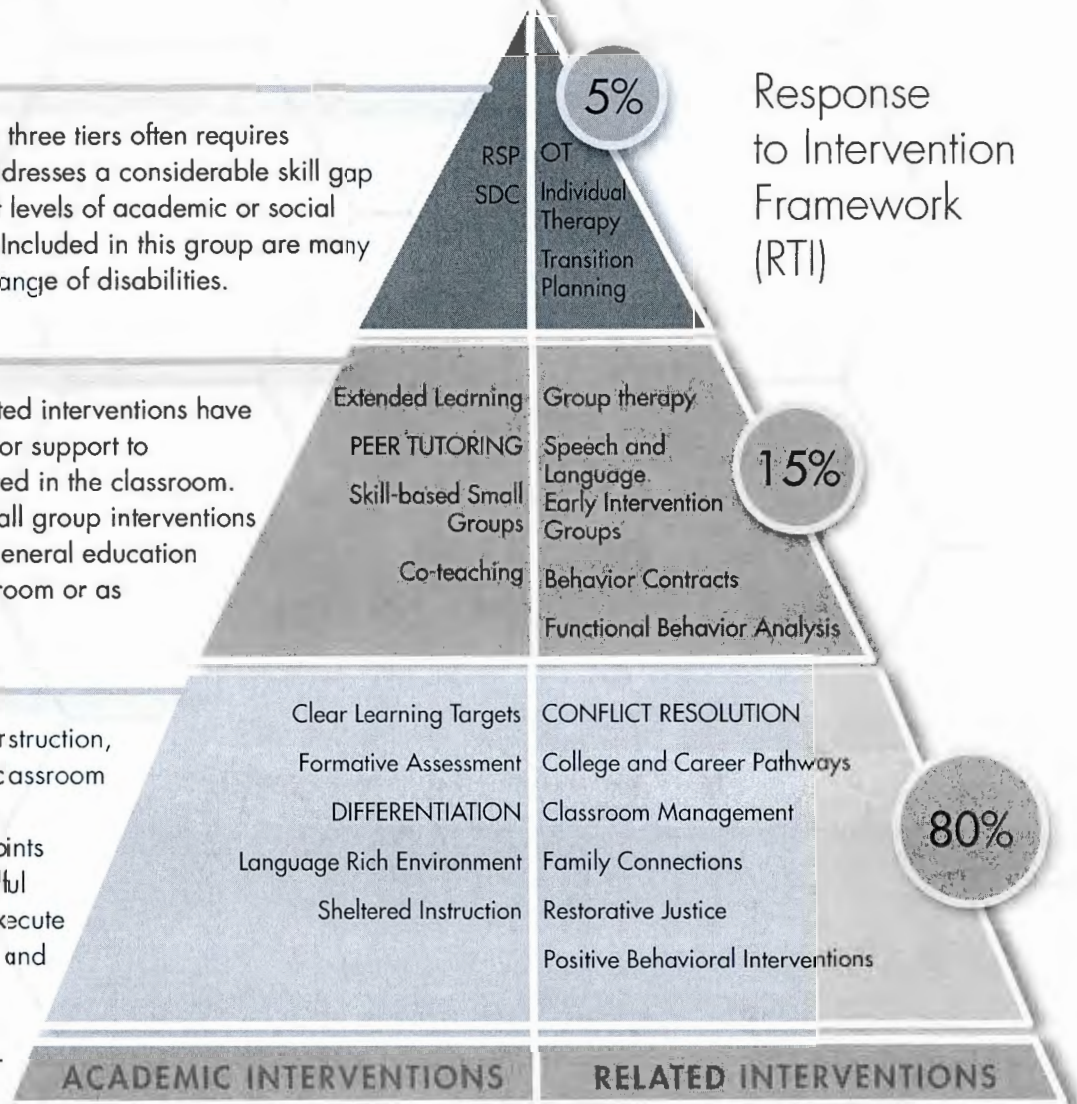

The most intensive of the three tiers often requires one-to-one support or addresses a considerable skill gap for students at the lowest levels of academic or social emotional achievement. Included in this group are many students with IEPs for a range of disabilities.

TIER 2 • TARGETED:

Students receiving targeted interventions have demonstrated the need for support to supplement what is offered in the classroom. These are most often small group interventions delivered to special or general education students within the classroom or as a pull-out.

TIER 1 • CORE:

As part of high quality instruction, in a climate of positive classroom culture, students receive interventions at many points throughout the day. Skillful teachers plan for and execute interventions that adjust and accommodate to the unique behavioral and academic needs of their students.

ALL-IN! (Interventions Partnership Program) Program Services

School Intervention Assessment: In collaboration with school leadership, the Seneca's team helps plan and administer a variety of measures to assess the school's practices of tiered intervention. The assessment process includes structured observations, stakeholder interviews, and the administration of the ASSC School Climate Quality Analytic Survey, a comprehensive inventory correlated with API performance. The team then scaffolds and facilitates the school's interaction with the data and develops a customized plan for service delivery.

Tiered Intervention Master Planning & Leadership Support: Seneca's program administrators collaborate with the school's leadership to engage in a strategic planning process. The team develops a plan to create, schedule, deliver, and monitor interventions at each of the three tiers, including special education and related services. Seneca's experienced special education administrators provide regular support for school leaders to engage their educational teams in the effective delivery and monitoring of high quality tiered interventions.

Intervention Data Management & Analysis: The Seneca team builds upon the school's current data management practices and integrates the use of multiple data systems to track service delivery and monitor student progress. In addition, the team builds on current networks for information sharing amongst relevant school staff, partner service providers, families, and the greater school community.

Universal Designs for Learning: Our multi-disciplinary team provides collaborative planning and conferencing with teachers to differentiate and intervene to support the learning needs of all students. Experienced trainers and instructional coaches lead teacher, team or school wide cycles of inquiry to analyze student data and make plans for student growth.

Targeted and Intensive Interventions: Credentialed education specialists, licensed related service providers (speech therapists, occupational therapists, low incidence disability specialists, etc.), licensed therapists and certified behavioral analysts oversee and/or provide key interventions to students who require more support. The Seneca team oversees referral, assessment, and service delivery and ensures compliance with related professional, state and federal educational requirements. In addition to current special education services, the team coordinates an array of targeted early interventions designed to reduce the need for later referral. Seneca professionals facilitate the collection and analysis of progress monitoring data and produce all necessary documentation associated with the services provided.

Coordination of Services: Seneca's team structures and facilitates a high functioning process to support integrated service planning and develops school-wide procedures to ensure the identification of students requiring additional intervention.

Responsive Professional Development: In collaboration with the school leadership, the Seneca team selects, designs, and presents professional development on a wide range of topics aimed at supporting the effective implementation of tiered interventions. Training may occur during planned professional development sessions or through ongoing consultation, coaching, mentoring and reciprocal teaching opportunities.
