# Statement of Qualifications

Envision Learning Partners was created in 2010 to bring Envision Schools' unique and effective approach to transforming student learning to schools and districts across the country. As Envision Education's consulting and training division, Envision Learning Partners (ELP) works with a broad range of district and charter schools to increase the number of students that are truly prepared for success in college, career and life. ELP offers professional development, coaching, tools and technology that make it possible to change schools' practices and results, and partners closely with school and district leaders to transform the culture and school systems that support a higher level of college and career readiness. By the end of the 2012—2013 school year, we will have worked with more than 800 teachers and leaders in more than 20 school networks, impacting the learning of at least 82,500 students.

One of the hallmarks of Envision Schools is a unique graduation portfolio and defense system. Envision has gone the extra mile to ensure that this performance assessment model is Common Core aligned and that its rubrics and other key tools are rooted in proven research methodologies. As a result, education leaders from across the country have taken note of the deeper learning results produced by this comprehensive performance assessment model and have reached out to Envision Learning Partners to help them design and implement a similar model tailored to their classrooms, schools and districts.

In addition, a coalition of four major national foundations (Carnegie, Kellogg, Hewlett and Irvine) selected Envision Learning Partners to lead a national effort to expand the implementation of deeper learning student assessment. As part of this initiative, Envision Learning Partners is working with national partners and training other school networks and professional development providers, such as New Tech Network and ConnectEd, how to support schools in implementing a similar performance assessment model.

Clients of Envision Learning Partners gain access to Envision tools that have produced results in Envision's high schools and others. These tools include materials, a handbook and vetted rubrics that were co-created with Stanford University's SCALE.

There are other organizations that provide coaching and professional development in <u>some</u> of the areas that Envision Learning Partners specializes in, like project-based learning, aligned performance tasks, Common Core integration, common rubrics, and leadership and culture. However, Envision Learning Partners is unique in its ability to call on its demonstrated and ongoing experience in urban schools of all levels and use this experience to guide schools through the creation and implementation of a comprehensive graduation portfolio and defense system and aligned systems and supports.
