## Memo

**To** Board of Education

**From** Tony Smith, Ed.D., Superintendent  
Timothy White, Assistant Superintendent, Facilities Planning and Management

**Board Meeting Date** October 12, 2011

**Subject** Amendment No. 3 - Gould Evans Baum Thornley - Montclair New Classroom Building/New Classroom Portables Project

**Action Requested** Approval by Board of Education of Amendment No. 3 with - Gould Evans Baum Thornley for Additional Architectural Services on behalf of the District for the Montclair New Classroom Building/New Classroom Portables Project, increasing the contract by a not to exceed amount of \$29,000.00 increasing previous contract amount from \$1,494,750.00 to a not to exceed amount of \$1,523,750.00. All remaining portions of the agreement shall remain in full force and effect as originally stated.

**Background** The originally designed deep foundation system was based on earlier recommendations by PSI due to the high potential for differential settlement during an earthquake. The amended soils report determined the potential of differential settlement is much less than originally documented. The foundation system is to be redesigned with a shallow footing, which will result in a substantial cost savings to the District.

**Local Business Participation Percentage** 23.70%

**Strategic Alignment** Among the key purposes of the District's Facilities Master Plan is to provide an academic environment for the Oakland community that will give every student, educator, and community member using our facilities the best possible opportunity for learning.

Through implementation of the Facilities Master Plan, the District intends to improve the District's facilities in terms of structural integrity, safety, reliability of operating (mechanical) systems, access to modern resources,

## OAKLAND UNIFIED SCHOOL DISTRICT

number and type of appropriate laboratories and specialized instruction rooms, opportunities for physical education, and attractiveness, such that the Oakland Public Schools are second to none. Operation of the District schools under the planned approach is intended to ensure safety, cleanliness, and orderliness for all individuals participating in the learning process.

The basic facility needs of students such as proper lighting, functional roofs, noise control and well maintained buildings, not only convey the message that we value our students and teachers but may foster a sense of school pride and community ownership which may improve attitudes towards learning. The implementation of the Facilities Master Plan is our first step in that direction.

Board Meeting Date May 11, 2011

Subject Amendment No. 2 - Gould Evans Baum Thornley - Montclair New Classroom Building/New Classroom Portables Project

**Action Requested** Approval by Board of Education of Amendment No. 2 with - Gould Evans Baum Thornley for Additional Architectural Services on behalf of the District for the Montclair New Classroom Building/New Classroom Portables Project, increasing the contract by a not to exceed amount of \$78,300.00 increasing previous contract amount from \$1,416,450.00 to a not to exceed amount of \$1,494,750.00. All remaining portions of the agreement shall remain in full force and effect as originally stated.

**Background** Bioretention area added for treatment of storm water run-off. Parking lot improvements addressed accessible parking spaces and bicycle parking, safety concerns, ponding/erosion problems. C.A. services were specifically excluded in Gould Evans initial proposal. Phase of infrastructure was undefined when the professional services agreement was finalized. Increased size of the multipurpose room required additional analysis of the mechanical, structural and seismic design

**Strategic Alignment** Among the key purposes of the District's Facilities Master Plan is to provide an academic environment for the Oakland community that will give every student, educator, and community member using our facilities the best possible opportunity for learning.

**SUBJECT:** Additional Services Fee Proposal –  
Montclair Elementary School  
Project No. 07050  
New Classroom/Multi-Purpose Building/Cafeteria

**VIA:** email [john.esposito@ousd.k12.ca.us](mailto:john.esposito@ousd.k12.ca.us)  
email [kevin.newlon@ousd.k12.ca.us](mailto:kevin.newlon@ousd.k12.ca.us)

Dear John and Kevin:

As discussed, I am writing to propose fees for Additional Services which we have performed on the Montclair Elementary School project, as follows:

- o *Additional site work beyond the scope of the project as defined when the Professional Services Agreement for the overall project, dated January 19, 2010, was finalized. (The attached diagram demonstrates that site work has been increased by nearly 50%.) The extent of site work has increased as a result of the following:*
  - Creation of a bioretention area north of the original site scope (just west of the existing building) in order to meet requirements by the City of Oakland, Alameda County, and the State of California for treatment of storm run-off, and as necessary to achieve CHPS Certification.
  - Improvements to the upper parking lot necessitated by: (1) the need to provide accessible parking spaces and bicycle parking; (2) parent and neighbor concerns regarding the safety and efficiency of drop-off and pick-up; (3) teacher concerns regarding adequacy and safety of parking; and (4) ponding and erosion problems which were discovered during the design process.

- o *Construction Administration Services for the relocation of existing portables and installation of new portables.* This work was specifically excluded from Addendum 1—see attached proposal for Addendum 1.
- o *Phasing of infrastructure improvements beyond simply connecting utilities to relocated and new portables.* Such infrastructure improvements include grading and re-paving of a portion of the yard, installation and coordination of a new fire line and hydrant, and new power, water, sewer, telecom, and security lines installed during the portables phase to facilitate construction of the new classroom/multi-purpose building. In particular, grading became significantly more complex in order to accommodate both interim and final conditions with regard to drainage and disability access.
- o *Increasing the size of the Multipurpose Room from 4,000 sf (per the RFQ) to nearly 6,000 sf.* This required additional mechanical analysis and design, provision of a platform/stage, revision of structure from hybrid wood/steel to steel, and separation from the remainder of the new Classroom Building by a seismic joint and two-hour wall to maintain Type V-B Construction.

Compensation for the services described in this proposed Addendum to our overall agreement will be as follows. Fees quoted herein are in addition to all fees noted in the overall agreement.

• Increased scope of site work	\$34,500
• CA for portables	\$27,500
• Phasing of infrastructure	\$7,800
• Increased size of MP Room	\$8,500

In considering this request for Additional Compensation, please note that a considerable portion of these additional fees are intended to reimburse our subconsultants, who have provided these services in a timely manner despite questions related to their own scope increases.

Terms and conditions are assumed to be in conformance with the Professional Services Agreement for the overall project, dated January 19, 2010, unless noted otherwise herein.

Please let me know if you have any questions or need additional information.

Sincerely,

Robert Baum, AIA
