Overview of Facilities Internship Program

The Start

- ❖ Facilities Internship Program relaunched in 2022
- ❖ Five to six week program

How does this program help students?

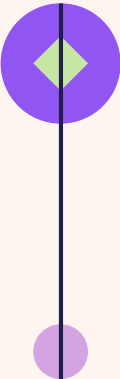

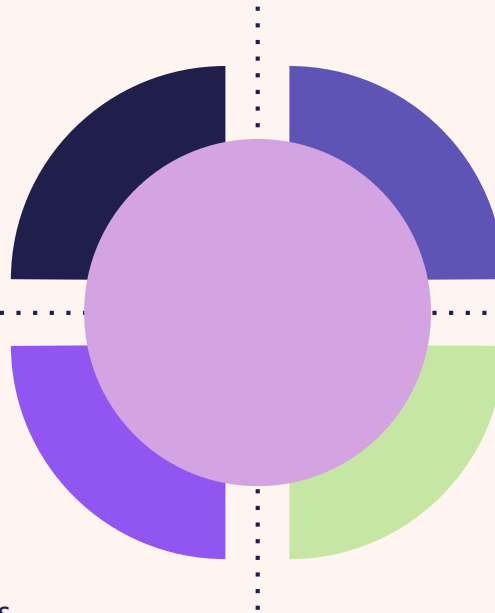

- ❖ Students experience different trades firsthand.
- ❖ Students are exposed to a professional work environment.
- ❖ Create resumes

What have students learned from this?

- ❖ Students learned more about different trade opportunities.
- ❖ Students have learned various career and technical skills.

Employers/ Departments

- ❖ OUSD Custodial and Nutrition Services, Buildings & Grounds (B&G)
- ❖ Brailsford & Dunlavy
- ❖ Cordoba Corporation
- ❖ Overaa Construction

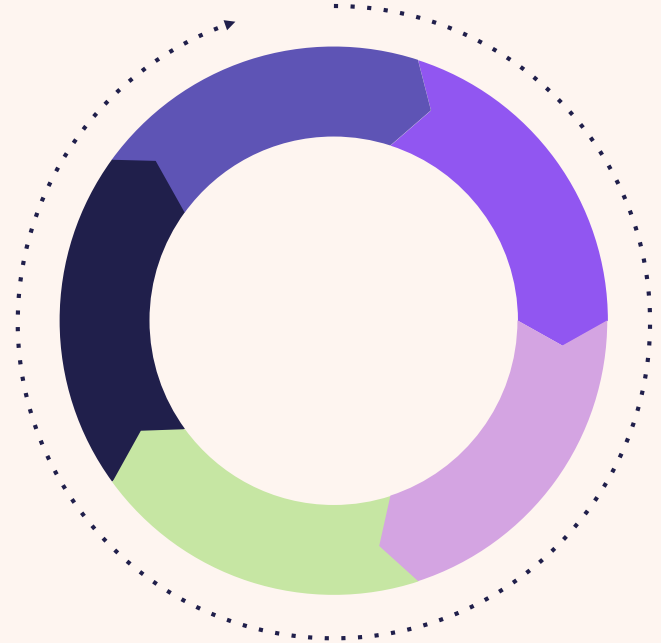

Trades

Why are trades important?

“You can’t chase what you don’t know exists.”-

Emiliano Sanchez (OUSD Coordinator of Skilled Trades and Apprenticeships)

- ❖ Students who want to work with their hands can get opportunities to experience trades.
- ❖ Education Costs: Trade school can prove to be a financially smart decision
- ❖ “According to the Education Data Initiative, college enrollment peaked in 2010 and declined nearly 10% over the last 14 years. Some of the biggest reasons include rising tuition and student loan debt.” (Taylor Delandro, 2024)
- ❖ “‘I saw more success learning electrical skills at a trade school than a four-year university, believe it or not,’ he said. (Chris Henderson 23 year old electrical contractor)” (Taylor Delandro, 2024)

- ❖ Computer Science
- ❖ Architecture/Design
- ❖ Law

Quotes from Interns

Dominic

"My favorite part of the job is when we are cleaning, and we still communicate with each other. My biggest takeaway is understanding what the custodians do."

Griffin

"I like my internship; my favorite part is being able to go all over Oakland. It felt like something I can do, it's something my skills can be used in."

Edgar

"My favorite part of this internship is visiting schools; I get to see different styles of architecture. I've learned how to weld; I thought it was just plumbing and stuff, but I've learned how to weld."

Lizbeth

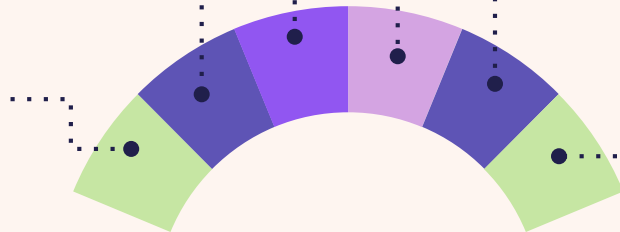

"Favorite part I think is that every project I do something new and get my hands dirty. It makes me feel accomplished, like "oh I did this now let's go home and rest." I come from a family that works in construction and it's what I am attracted to. I like working things, and being the woman doing the work a guy can do."

Lilia

"I came in here with an open growth mindset. What attracted me to this internship is that I am an OUSD student so working with OUSD is good coming back. My favorite part of my job is new things."

Angel

"I have learned a lot of problem-solving skills, collaboration, and working with my hands. My favorite memory is, being able to switch out a water pump on my first week, I felt accomplished as if I was able to do something."

Oakland Technical High School
Student; B&G
Landscaping/Gardening Intern

Skyline High School
Student; Custodial Services Office
Assistant Intern

Staff Views

Cynthia Harding

Custodial Services

"It gives them some life skills and shows them how the work environment is."

Roland Broach

Custodial Services

"I think students benefit from the program by having the opportunity to work side by side or near adults who are established in the workforce environment already."

Marc White

Buildings & Grounds

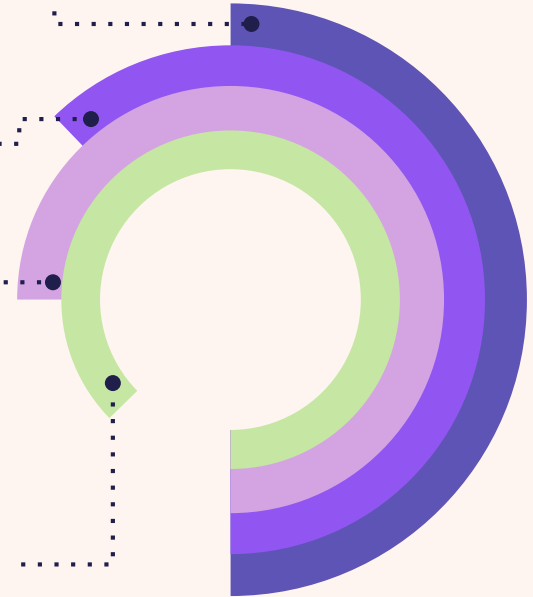

"The Facilities Internship Program is providing students with hands-on experience in the various trades that support the daily operations of our schools."

David Colbert

Facilities Planning and Management

"It has gone through different stages; it went from kind of grass roots. Where people would volunteer and tell people, then it got built to where we now have partnerships with different school sites, linked learning, and among other programs. So, it has grown over the years."

Before

After

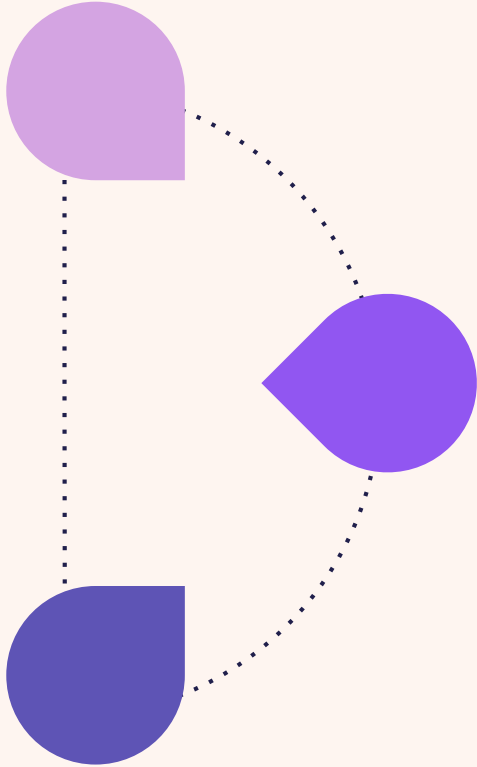

Areas of Opportunity

Going Well

- ❖ Partnership with Exploring College, Career, and Community Options (ECCCO) Program
- ❖ Number of students employed
- ❖ Variety of Facility-related positions offered
- ❖ Participation from outside firms
- ❖ Opportunities opened to all OUSD 10th-12th graders

Areas of Growth

- ❖ More timely process of transferring funds to ED foundation
- ❖ More positions available to students
- ❖ Recruitment efforts that diversify student intern pool (gender, schools, Pathways)
- ❖ Pay rate (current, minimum wage \$16/ hour)
- ❖ Improving internal and external communication

Thanks
