number and type of appropriate laboratories and specialized instruction rooms, opportunities for physical education, and attractiveness, such that the Oakland Public Schools are second to none. Operation of the District schools under the planned approach is intended to ensure safety, cleanliness, and orderliness for all individuals participating in the learning process. The basic facility needs of students such as proper lighting, functional roofs, noise control and well maintained buildings, not only convey the message that we value our students and teachers but may foster a sense of school pride and community ownership which may improve attitudes towards learning. Public Schools are second to none. Operation of the District schools under the planned approach is intended to ensure safety, cleanliness, and orderliness for all individuals participating in the learning process.

The basic facility needs of students such as proper lighting, functional roofs, noise control and well maintained buildings, not only convey the message that we value our students and teachers but may foster a sense of school pride and community ownership which may improve attitudes towards learning. The implementation of the Facilities Master Plan is our first step in that direction.

SUBJECT: Proposal for Providing Hazardous Materials Abatement Design Services to Support the Sobrante Park Elementary School Landscape Improvement Project (Rev1), Oakland, CA (SES No. 12-023)

Dear Mr. Newby:

Sensible Environmental Solutions Inc. (SES) is pleased to respond to the Oakland Unified School District (OUSD) request for a proposal to provide hazardous materials abatement design services to support the subject project. The scope of work and proposed costs are based on our site visit on February 20, 2012.

#### SUMMARY OF SCOPE

#### Task 1 - Hazardous Materials Pre-design Inspection

SES will visit the site and collect bulk material samples of asphalt paving at the play yard in conjunction with planned coring operations. SES will review the sample results and project drawings to identify the extent of impacts to identified asbestos-containing materials.

#### Task 2 - Development of Hazardous Materials Abatement Documents

Utilizing the information collected during the pre-design investigation phase, SES will prepare detailed hazardous materials abatement specifications for the abatement of identified hazardous materials that will be impacted by the Modernization Project.

SES will prepare abatement specifications including:

- 1. Section 00335 Existing Hazardous Materials Conditions (Exterior);
- 2. Section 01011 Summary of Hazardous Materials Work; and
- 3. Section 02080 Asbestos Abatement.

SES will work closely with the project team to identify the hazardous materials impacted by the project and most practical compliance approach: SES will provide draft specifications at the 90% completion stage of work for review and comment by the District and the District's Architect. SES will incorporate review comments and provide one set of Bid Documents for reproduction.

#### Task 3 - Bidding Services

SES will attend one pre-bid conference meeting to discuss and review the scope of work for the abatement project. SES will address contractor questions regarding the scope of work and prepare any necessary clarifications and/or addenda to clarify existing scope of work prior to the bid due date.

#### Task 4 - Pre-Construction / Submittal Review

SES will attend one pre-construction Meeting to discuss and review scopes of work, address contractor questions regarding the scope of work and prepare any necessary clarifications that may be required during the course of the abatement project.

SES will review and approve the hazardous materials abatement contractor's submittal package. SES's review will consist of ensuring the Contractor's work plan is acceptable and meets the requirements of the project and applicable regulations. SES assumes that the review will be for one (1) abatement contractor. If more than one submittal package is provided or additional reviews are required, SES will be reimbursed in accordance with the hourly rates identified herein.

#### Task 5 - Inspection and Abatement Monitoring

SES will provide on-site monitoring services for an estimated 7 days (Monday – Friday) during hazardous material related work. Monitoring services will include the following:

- Providing Hazardous Materials Management Services during abatement operations.
- Providing an on-site inspector who is a California Certified Asbestos Consultant (CAC) for eight-hours per shift;
- Conducting pre-start visual inspections of the contractor's work areas, documenting the contractor's work procedures and collecting daily submittals;
- Collecting daily air samples for asbestos and lead outside of work areas during abatement activities. SES has budgeted for the collection of up to five (5) asbestos or lead air samples per shift;
- Conducting final visual clearance inspections for asbestos at completion of abatement operations.

#### Task 6 - Project Close-out

At the completion of the project, SES will provide an electronic copy of the Final Hazardous Materials Management Report. The final report will document the hazardous materials procedures utilized during the project and include a project narrative, daily logs, sample survey forms, laboratory results, photographs and the Contractor's pre and post-abatement submittal information.

#### DRUG/SMOKE-FREE WORKPLACE CERTIFICATION

The District and all District projects are "drug-free" and "smoke-free" workplaces and, as such, require that the Project Manager be subject to the requirements mandated by California Government Code Section 8340, et seq., when on the Project site. The Drug-Free Workplace Act of 1990 requires that every person or entity awarded a contract or grant for the procurement of any property or service from a State agency certify that it will provide a drug-free workplace and, in that respect, comply with certain obligations set forth in that Act. In addition, the Drug-Free Workplace Act provides that each contract or grant awarded by the State agency may be subject to suspension of payments or termination for failure to comply with such Act. It is the sole responsibility of the Project Manager to police and oversee its personnel on the Project. If the Project Manager fails to comply with the Drug-Free Workplace Act or the smoke-free workplace policy of the District, the District may enforce its lawful rights to suspend pending or subsequent payments and to terminate this Agreement and may pursue all other rights and remedies it may have against the Project Manager at law and/or in equity.
