LCFF Calculator Caveats

v.26.1c

5/21/2025

Every effort was made to make the calculator as accurate as possible. However, because the calculator is based on estimates and assumptions, actual Local Control Funding Formula (LCFF) funding may differ from the amounts generated by the calculator. In some cases, LEA-specific and unique complexities that exist for a small percentage of local educational agencies (LEAs) may result in errors. Every unique situation is not modeled in the calculator, and **the calculator may not be useful for all LEAs.**

The following bullets highlight these assumptions, and some of the unique situations and known issues that could be identified.

General

The calculator is based on the LCFF statute as currently written, unless otherwise noted in these caveats. In some cases there may be differences in rounding +/- \$1.

A proration/(deficit) factor assumption has been built into the LCFF calculator. The proration factor methodology and application is subject to revision should the state choose to apply a proration factor, or other deficit factor, in the future.

The calculator includes cost of living adjustments (COLA) and if applicable proration factors as estimated by the Department of Finance (DOF).

The calculator prepopulates with certified data provided by the California Department of Education (CDE) for the calculation of principal apportionment. Users should independently verify prefilled data, and should make adjustments as needed if revisions have been filed.

The Education Protection Account (EPA) proportionate share percentage is based on estimates released by the CDE that may not yet be finalized. Therefore, the percentage may change from what is shown in the calculator through final calculation in February of the following fiscal year.

NEW
2022-23

EPA revenue in the 2021-22 fiscal year increased to an unprecedented level of funding which necessitated changes to the calculation. Pursuant to Section 112 of AB 181 (Chapter 52, Statutes of 2022), the 2012-13 Revenue Limit rates for school districts and charter schools were adjusted to reflect statutory COLA increases from 2013-14 through 2021-22. These rates will continue to receive COLA adjustments moving forward.

NEW
2024-25

On the Data Entry tab, there are three new columns that include an additional three years of historical data for local educational agencies. These columns do not create calculations for these years, but may impact the three prior year calculations (PY3, PY2). Districts can use these to enter in audit adjustments or other necessary adjustments from reorganizations or mergers to their attendance, enrollment, unduplicated pupil counts, or charter shift increases or decreases.

FISCAL CRISIS & MANAGEMENT
ASSISTANCE TEAM

Charter School Calculations

The calculator is not designed to directly calculate budget estimates for all-charter school districts because of the unique options selected at the time the district converted. It is recommended all-charter school districts contact the CDE to determine the best method for estimating LCFF revenues.

Charter schools that are funded under different funding methodologies due to their pupil population are not included as a single scenario within the calculator. These schools are mainly those authorized by a county board of education.

The calculator is designed for a district to calculate the in lieu taxes and, as such, charter schools should contact their sponsoring authority for in lieu tax amounts to ensure accuracy.

The calculator does not take into account the following:

- District reorganizations that include a charter school(s) newly authorized by one or more districts affected by the reorganization.
- Charter schools that operated in the prior year but have been reauthorized by a different agency in the current year and have not been certified within the PASE system.

If either of these situations apply, we recommend working with the CDE and FCMAT to determine if the calculator can be adapted.

School District Calculations

NEW
2023-24

2019-20 certified ADA was adjusted after the R3 certification cycle for school districts that were the sponsoring LEA of a charter school that discontinued operation by the end of 2019-20. This ADA adjustment was only made to accommodate an accurate calculation of the three prior-year average (PY1 2021-22, PY2 2020-21, PY3 2019-20) commencing with the 2022-23 fiscal year.

For districts with **necessary small schools** (NSS), the calculator models different combinations of NSS and regular ADA to determine the overall maximum funding available. Districts with necessary small schools should refer to the Instructions tab. Districts are encouraged to independently select their funding options and evaluate the results to determine which funding method they will elect to follow.

The calculator does not take into account the following funding adjustments for **basic aid school districts**:

- Basic Aid Choice
- Basic Aid Court-Ordered Voluntary Pupil Transfer
- Basic Aid Open Enrollment
- Basic Aid Supplement Charter School Adjustment

The calculator does not take into account the impact of district reorganizations that have not been certified by the CDE via the PASE system. Furthermore, **historical year projections may not be accurate**. We recommend working with your county office, the CDE and FCMAT to evaluate whether an alternative approach to developing a funding estimate is possible.

LCFF Calculator Navigation
v.26.1c 5/21/2025

Structure:

- 1 The LCFF Calculator structure has been built to maintain a standard eight-year structure that includes two historical years, one current year and five projection years.
- 2 The Data Entry tab was designed to cluster data entry sections by projection type (charter school or school district). Charter school data entry sections are intentionally placed at the top of the page due to the limited amount of data required to complete a projection.
- 3 The workbook contains conditional formatting to guide users through data entry. Once a projection type is identified and all basic questions are answered, only the highlighted sections require data entry; all remaining sections not applicable to the projection will remain grayed out. **No data should be entered in sections that are not highlighted.**

Projection Type Not Identified	Charter School Projection	School District Projection
	Data Entry Sections	Data Entry Sections

- 4 A separate calculation must be prepared for each LEA, either district or charter school.

Data entry cells: prepopulated with the most current certified data; all data entry cells are unlocked for user edit. Prepopulated data cannot be restored after user override.

Tab Navigation Key:

Information tabs: provide important projection information and should be reviewed with each update.
Data Entry tab: single data entry tab for <u>ALL</u> LCFF calculations. Sections to be completed are identified through highlighting upon entry of CDS code and responses to required questions.
Primary calculation results tabs: provide calculations and results summaries only. No data is entered on these tabs.
Secondary support calculation tabs: provide details of supporting calculations for components that do not apply to all LEA calculations. No data is entered on these tabs.
User editable tabs: preformatted graphs and blank worksheet tabs.

LCFF Calculator Navigation
 v.26.1c 5/21/2025
Instructions:

1 **Review Caveats:** Important details that may affect LEA calculations are noted in this tab. This tab should be reviewed with each update.

2 **Data Entry tab:** Data for all calculation types is entered into the Data Entry tab.

- Start a calculation by entering the five-digit code for a school district calculation or seven-digit school code for a charter school calculation. Once the LEA code is entered, the LEA type (district or charter) will be identified and the applicable data entry sections will be highlighted for completion.
- New charter schools that do not yet have a CDS code should select "Yes" from the drop-down list following the question below the CDS code box.

Section (1) Universal Assumptions: Prepopulated assumptions are based on the most current data released by the Department of Finance and the California Department of Education. COLA and EPA assumptions should be reviewed and updated to match percentage updates published after the version release.

Section (2) Charter School Data Elements Required to Calculate the LCFF: Enter charter school data elements in this section of the Data Entry tab ONLY; do not enter data in sections that are grayed out.

Section (3) School District Data Elements Required to Calculate the LCFF: Enter school district data elements in this section of the Data Entry tab ONLY; do not enter data in sections that are grayed out.

- **In Lieu of Taxes:** School districts that are the sponsoring LEA for a charter school or are otherwise required to transfer property taxes to a charter school should answer "YES" to the applicable question in this section, then complete section (5) School District In-Lieu of Property Tax Calculation for Charter Schools.
- **Necessary Small Schools:** School districts that have necessary small schools should answer "YES" to the applicable question in this section, then complete section (4) Necessary Small Schools ADA.
- **TK Add-on Funding:** ADA for TK students must be entered in this section for the add-on to calculate. TK ADA should also be included in the ADA section to properly calculate the Base, Supplemental and Concentration grants.
- **Charter Shift ADA:** Prior year ADA used in the determination of school district funding calculations is based on the greater of current year, prior year and, beginning with 2022-23 fiscal year, three-prior year average. The prior year ADA must be adjusted by the net ADA of students who "shifted" between district schools and district sponsored charter schools. Sponsoring school districts should enter the total prior year ADA by grade span of those students who attended district sponsored charter schools in the prior year and returned to attend district schools in the current year in the first section. Total prior year ADA by grade span for students who attended district schools in the prior year, then left to attend a district sponsored charter school should be entered in the second section.

Section (4) Necessary Small Schools ADA: School districts that have necessary small schools must complete section (4) on the Data Entry tab. **Prior year data must be entered for each year including historical years, even when the school is funded under LCFF. If "Enter SCHL LCFF ADA" or "Enter SCHL FTE" is in any of the cells in the NSS ADA/FTE section, school districts should enter in the ADA/FTE for the school, so the calculator can accurately project funding.**

- **NSS Supporting Calculations:** details related to NSS funding determination are located in the NSS Calculation tabs.

Section (5) In-Lieu of Property Tax Calculation for Charter Schools: School districts required to transfer in-lieu taxes to charter schools should select "Yes" from the drop-down list in section (3), then complete either section (a) or (b).

- **Section (a):** To be completed only by districts that use an alternative rate for in-lieu tax transfers or calculates the in-lieu transfers outside of this tool. Carefully review and follow the instructions located in the In-lieu tax section.
- **Section (b):** To be completed by districts that follow the traditional allocation of funding for in-lieu tax transfers. The tool has been designed to support basic aid district calculations, which require charter school ADA to be entered by grade span. Non basic aid districts can enter the total charter school ADA for each school in any single grade span, it is not necessary to enter ADA by grade span or separately for each charter school. Consolidating all charter school ADA into a single section will calculate a similar result.
- **In-Lieu of Property Taxes Results:** The supporting calculations and in-lieu of property tax transfer amounts for each charter school are located in the District In-Lieu Taxes tab.

3 **Review LCFF Calculation and EPA Results:** Detailed calculations and results can be viewed on the Calculator, EPA and Summary tabs. No data entry is required on these tabs.

4 **Supporting Calculations:** details related to NSS funding determination and in-lieu tax transfer amounts for each charter school are located in the NSS Calculation and District In-Lieu Taxes tabs.

(g) PRIOR YEAR GUARANTEE ADJUSTMENT FOR CHARTER SHIFT												
If applicable, enter prior year ADA for students transferring into or out of district schools and <u>district-sponsored</u> charter schools. Report the prior year ADA for these students in the current year field, using the grade span the students were enrolled in during the prior year(s). NOTE: *Legislative requiring the charter shift adjustment was suspended in fiscal years 2020-21 and 2021-22, no prior year ADA should be entered for these years.

(5) IN-LIEU OF PROPERTY TAX CALCULATION FOR CHARTER SCHOOLS												
Complete <u>either</u> section (a) or (b)												
(a) ALTERNATIVE CALCULATION TOOL												
Use this section to override the calculated in-lieu of property tax results.												
	1. Clear the prepopulated number '1' from the box located to the right	1										
	2. Local calculation of <u>total</u> in-lieu property taxes											
(b) IN-LIEU TAX CALCULATION BY CHARTER SCHOOL (Note: Charters MUST be numbered to bring results into the District In-Lieu Taxes tab)												
Enter the name and ADA for each charter school. Basic Aid districts are required to transfer in-lieu taxes based on grade span funding rates. To reduce data entry, non-basic aid districts can enter the total ADA for each year into a single grade span.

*CDE P-2 Certification and Calculated columns can be compared to determine accruals. Enter accrual information on Data Entry tab.

**A miscellaneous adjustment increases EPA State Aid (object 8012) funding in lieu of is an LEA when it is overpaid. EPA State Aid offsets LCFF State Aid (object 8011). It is calculated a single time at P2.

IN-LIEU PROPERTY TAX TRANSFER

For an authorizing district, in-lieu of property tax is calculated on the lesser of property taxes per ADA or the LCFF funding per ADA

1. Property Taxes per ADA
- 2a. Adjusted base revenue per ADA x charter school ADA

For a district with students in county-operated charter, or a basic aid district with students in countywide charter schools, or a district certified as basic aid at prior year annual with students in an SBE-approved charter school, in-lieu of property tax is calculated on the lesser of property taxes per ADA, or adjusted base funding per ADA.

1. Property taxes per ADA x District of Residence ADA
- 2a. Adjusted base revenue per ADA x District of Residence ADA

To enter your own calculation of In-Lieu use the Alternative Calculation tool on the Data Entry tab

1	Aspire Golden State College Preparatory Academy (118224)												
2	NECESSARY SMALL SCHOOLS (NSS)												
3	The calculator is constructed to include all ADA for purposes of calculating the Base, Grade Span adjustment, Supplemental and Concentration grants. The												
4	ADA funded under NSS is returned to the calculator as a negative number to allow display of total LCFF- funded ADA. Similarly, the base grant and grade span												
5	adjustment grants generated by NSS ADA are returned as negative numbers. The NSS Allowance replaces the base and grade span and is returned as a												
6	positive amount. Supplemental and Concentration grants are not affected by this calculation.												
7	SECTION 1: DATA NEEDED TO CALCULATE FUNDING												
8	RATES 2022-23				12/13 deficit rate	The elementary NSS allowance is based on a combination of ADA and the number of full-time teachers (EC 42282). For High Schools, NSS will use the allowance based on only the ADA or the allowance based only on the number of certificated employees, whichever provides the lesser amount (EC 42284). The allowance amounts shown in the tables reflect COLA & Augmentation.

The ADA funded under NSS is returned to the calculator as a negative number to allow display of total LCFF- funded ADA. Similarly, the base grant and grade span adjustment grants generated by NSS ADA are returned as negative numbers. The NSS Allowance replaces the base and grade span and is returned as a positive amount. Supplemental and Concentration grants are not affected by this calculation.

2	NECESSARY SMALL SCHOOLS (NSS)											
3	<i>The calculator is constructed to include all ADA for purposes of calculating the Base, Grade Span adjustment, Supplemental and Concentration grants. The ADA funded under NSS is returned to the calculator as a negative number to allow display of total LCFF-funded ADA. Similarly, the base grant and grade span adjustment grants generated by NSS ADA are returned as negative numbers. The NSS Allowance replaces the base and grade span and is returned as a positive amount. Supplemental and Concentration grants are not affected by this calculation.</i>

Charter Renewal Budget Narrative– Aspire Golden State College Preparatory Academy (GSP)

Revenue Assumptions:

GSP's school budget relies primarily on Per Pupil revenue derived from the LCFF funding model. Projected Enrollment, ADA, and COLA used to calculate this revenue are contained in the accompanying FCMAT calculator and the Assumptions tab of the excel charter renewal financials.

Aside from ongoing LCFF Revenue, the school also receives ongoing funding from State and Federal SPED, Federal title funding, State and Federal nutrition as well as the following State, Local and Federal grants listed below:

	FY26	FY27	FY28	FY29
<i>Other State Funding Grants 8590:</i>				
Community Schools	\$ 275,487	\$ 280,138	\$ 284,947	\$ 289,730
Strong Workforce Grant	\$ 182,961	\$ -	\$ -	\$ -
Golden State Pathways Grant	\$ 113,346	\$ 113,346	\$ 73,346	\$ -
Prop 28 grant	\$ 82,115	\$ 82,115	\$ 82,115	\$ 82,115
<i>Local Grants:</i>				
Measure G1 ((includes PY carryover)	\$ 149,801	\$ 149,801	\$ 149,801	\$ 149,801
Measure N/H (includes PY carryover)	\$ 286,250	\$ 189,550	\$ 189,550	\$ 189,550

Bottom Line:

After adjusting for non-cash depreciation, Aspire GSP shows surplus balances for all three years of the requested charter renewal term. In the final year of the current charter term, GSP is budgeted to use \$100k in surplus reserves (discussed below) to help balance the budget.

GSP	FY26	FY27	FY28	FY29
Surplus/(Deficit) - Current Year - Unadjusted	\$ (284,729)	\$ (168,194)	\$ (102,359)	\$ (122,882)
Add back: Depreciation/Amort	\$ 194,742	\$ 191,864	\$ 191,864	\$ 191,864
Add: Reserve Surplus Use	\$ 100,000	\$ -	\$ -	\$ -
Surplus/(Deficit) - Current Year - Adjusted	\$ 10,013	\$ 23,670	\$ 89,505	\$ 68,982

Reserves:

Aspire's reserve policy for schools is designed to meet the following;

- Push schools towards solid fiscal management, and multi-year budgeting
- Incentivize schools to save for the rainy day and the next recession's budget cuts
- Incentivize schools to care for their building, do routine maintenance, and avoid early replacement due to inadequate or incompetent daily and routine maintenance of their facility
- Ensure schools feel the benefit in future years from their budget sacrifices

In accordance with the reserve policy, Aspire schools work toward a target reserve balance of 20% of total expenses. GSP currently has a surplus reserve balance (meaning their reserve balance exceeds the 20% requirement) and can access these funds as needed to ensure the financial needs of the school are met.

Expense Assumptions:

All Other Transfers: The unrestricted "All Other Transfers" line item includes home office, regional office, and special education allocations. The home office allocation and regional office allocations are charges per school site that supports the services provided to the school by the home and regional offices including curriculum support, finance and accounting support, data and evaluation services, IT, recruiting, operations, and human resources support. The special education allocation is a charge per school site that supports the centralized special education leadership staff.

Staffing: All staffing level and cost assumptions can be found in the assumptions tab of the excel charter financials
