Memo (Bid Award)

To Board of Education

From Kyla Johnson-Trammell, Superintendent
Rebecca Littlejohn, Risk Manager Office, Division of Risk Management Department

Board Meeting Date February 22, 2023

Subject Resolution for the Declaration of Emergency Repair Work Without Competitive Bidding, Ratification of the Contract for Performance of the Emergency Repair Work, and Continuation of the Emergency Repair Work – Restoration Management Company – Lockwood STEAM Elementary School Emergency Fire Damage Repair Project – Risk Management Department”

Action Requested Approval by the Board of Education of Resolution No. 2223-0165 by four-fifths vote for (A) declaring an emergency that required the procurement of construction services for emergency abatement and repair at Lockwood STEAM Elementary School (“Site”) without competitive bidding; (B) ratifying the contract the District entered into on January 23, 2023, with Restoration Management Company for the performance of the emergency repair work, which includes reconstruction services for emergency fire and smoke damage repair to multiple locations around the Site; and (C) continuing the emergency repair work until the next Board meeting. The contract price is in the not-to-exceed amount of \$350,000.00, the emergency repair work commenced on February 1, 2023, and is scheduled to last until July 7, 2023, pursuant to the contract.

Discussion An emergency exists that permits the District not to use competitive bidding. (Public Contract Code §§22035 and 22050.) To expedite the start of the repair work, District staff entered the agreement effective January 23, 2023, thus requiring ratification by the Board. (Education Code §17604.) The need to continue the emergency repair work until the next Board meeting remains, and conditions do not currently allow use of competitive bidding to complete the remaining repair work. (Public Contract Code §22050(c)(1) and (3).)

**RESOLUTION OF THE
BOARD OF EDUCATION
OAKLAND UNIFIED SCHOOL DISTRICT**

RESOLUTION NO. 2223-0165

**DECLARING AN EMERGENCY THAT REQUIRES THE
PROCUREMENT OF CONSTRUCTION SERVICES FOR
EMERGENCY ABATEMENT AND REPAIR AT LOCKWOOD STEAM
ELEMENTARY SCHOOL WITHOUT COMPETITIVE BIDDING; RATIFYING A
CONTRACT FOR PERFORMANCE OF THE EMERGENCY REPAIR WORK; AND
CONTINUATION OF THE EMERGENCY REPAIR WORK**

WHEREAS, on or about November 30, 2022, at Lockwood STEAM Elementary School, 6701 International Blvd, Oakland, California, 94621 (the “Site”) multiple fires were set by arson in locations around the exterior of the cafeteria, classroom building, and other outdoor areas resulting in extensive damage to exterior areas and the interior of the classroom building, requiring immediate repairs and reconstruction and necessitating the removal of students from the affected areas, including the removal and relocation of a special education class from its regular classroom (“Sanctuary Room”), for repairs; and

WHEREAS, the Oakland Unified School District (“District”) acted promptly and diligently to address the situation by immediately cleaning up the affected areas, inspecting the damaged areas to determine the necessary repairs, and removing students and staff from the affected areas to avoid exposure to harmful smoke particles; and

WHEREAS, due to this emergency, reconstruction work and repairs were immediately necessary to ensure that the repairs were completed as expeditiously as possible to allow a special education class to return to the Sanctuary Room because the only room that could accommodate the special education class during the repairs was the classroom portable that was being used to run the afterschool program for the Site (“Portable F”); and

WHEREAS, the special education class was moved to the Portable F, which required the Site’s afterschool program (“Afterschool Program”) to be relocated; and

WHEREAS, the Afterschool Program was moved to Room 205 in Building A (“Room 205”); and

WHEREAS, Room #205 is not an adequate space for the Afterschool Program because it cannot accommodate the number of students that the Afterschool Program serves daily (130), thus resulting in the Site’s inability to provide the Afterschool Program at its regular capacity while the Sanctuary Room is being repaired; and

WHEREAS, Room #205 is also inadequate for the Afterschool Program because the Portable F was also used as a community resource center during the day that provided COVID testing and

distributed food, clothing, diapers, and other baby supplies to the members of the community, but there is not enough space in Room #205 for these purposes, resulting in the Site's inability to provide such services while the Sanctuary Room is being repaired; and

WHEREAS, due to the necessity to move the special education class to the Portable F and to move the Afterschool Program to Room #205 while the Sanctuary Room is being repaired, the Site is unable to operate the Afterschool Program and the community resource center at regular capacity, thus impairing the Site's ability to provide these essential public services due to the Site having inadequate space to run all of its programs; and

WHEREAS, in order to abate this emergency, the District had to begin the repair and reconstruction work for the areas damaged by the fires, including repairs in Sanctuary Room that included installation of insulation, replacement of damaged materials, repainting of all drywall finish surfaces, repainting of all door and window openings and wood trim, repainting of all sheetrock surfaces, and all other work as specified in the proposal provided by Restoration Management Company ("Contractor") on December 9, 2022, attached as Exhibit A to the District's Agreement with Restoration Management ("Repair Work"), so the Repair Work could be completed as soon as possible to allow the special education class to return to Sanctuary Room which would then allow the Afterschool Program to return to the Portable F, and thus allowing normal operation of the Afterschool Program; and

WHEREAS, the Contractor estimated the cost of repairs to not exceed Three Hundred Fifty Thousand Dollars (\$350,000.00); and

WHEREAS, the District is subject to the Uniform Public Construction Cost Accounting Act (Pub. Contract Code, § 22000, et seq.; "UPCCA"), which requires formal competitive bidding for construction contracts over \$200,000, and formal or informal competitive bidding for construction contracts over \$60,000; and

WHEREAS, there was insufficient time to competitively bid the contract for the Repair Work, as the Repair Work had to be completed as soon as possible to allow the special education class to return to Sanctuary Room and to allow the Afterschool Program to return to the Portable F; and

WHEREAS, an exception to the applicable competitive bidding requirements exists in cases of emergency when repair and/or replacements are necessary, and the governing board of the District ("Board") may proceed to immediately replace or repair any public facility without adopting plans, specifications, strain sheets, or working details, or giving notice for bids to let contracts (Public Contract Code §22035); and

WHEREAS, an emergency is a sudden, unexpected occurrence that poses a clear and imminent danger, requiring immediate action to prevent or mitigate the loss or impairment of life, health, property, or essential public services (Public Contract Code §1102); and

WHEREAS, emergency work under Public Contract Code section 22035 must be done pursuant to the terms of Public Contract Code section 22050; and

WHEREAS, section 22050 requires, in relevant part, that the following steps be taken:

(1) Pursuant to a four-fifths vote of the Board, the District may repair or replace a public facility, take any directly related and immediate action required by that emergency, and procure the necessary equipment, services, and supplies for those purposes, without giving notice for bids to let contracts;

(2) Before taking any action pursuant to paragraph (1), the Board shall make a finding, based on substantial evidence set forth in the minutes of its meeting, that the emergency will not permit a delay resulting from a competitive solicitation for bids, and that the action is necessary to respond to the emergency;

(3) If the Board orders any action specified above, the Board shall review the emergency action at its next regularly-scheduled meeting and, except as specified below, at every regularly-scheduled meeting thereafter until the action is terminated, to determine, by a four-fifths vote, that there is a need to continue the action; and if the Board meets weekly, it may review the emergency action in accordance with this paragraph every 14 days; and

(4) When the Board reviews the emergency action, it shall terminate the action at the earliest possible date that conditions warrant so that the remainder of the emergency action may be completed by giving notice for bids to let contracts; and

WHEREAS, for the effective and timely management of the District, and for the prompt remediation of the above-described emergency, District staff entered into an agreement between the District and Contractor, effective January 23, 2023, for the installation of insulation, replacement of damaged materials, repainting of all drywall finish surfaces, repainting of all door and window openings and wood trim, repainting of all sheetrock surfaces, and all other work as specified in the proposal provided by Restoration Management Company on December 9, 2022, attached as Exhibit A to the District's Agreement with Restoration Management, in the not-to-exceed amount of Three Hundred Fifty Thousand Dollars (\$350,000.00) to be paid by the District (the "Contract"; see Attachment A to this resolution); and

WHEREAS, District staff believed, and still believes, that this not-to-exceed price was and is reasonable; and

WHEREAS, Contractor commenced its work under the Contract on February 1, 2023; and

WHEREAS, the Board must review the Contract at each regularly-scheduled meeting after the District enters the Contract until the Contract work is completed; and the Board must determine at each such meeting, by four-fifths vote, whether there is need to continue the Contract; (Public Contract Code §22050(c)(1)); and

WHEREAS, when reviewing the Contract at each regularly-scheduled meeting per the previous paragraph, the Board must terminate the Contract (i.e., it may not continue the Contract work per Public Contract Code §22050(c)(1), above) at the earliest possible regularly-scheduled Board

meeting where conditions warrant that the remainder of the Contract work may be completed by awarding a new contract through use of competitive bidding (Public Contract Code §22050(c)(3)); and

WHEREAS, the Repair Work must be done as soon as possible to allow the special education class to return to the Sanctuary Room and to allow the Afterschool Program to return to the Portable F to further allow the Site to operate its Afterschool Program and community resource center at the regular capacity; and

WHEREAS, if the District were to terminate this Contract and were to competitively bid the remaining Contract work, it would cause unacceptable delay, given the need to complete the Repair Work as soon as possible to allow the Site to operate its Afterschool Program and community resource center at the regular capacity.

NOW, THEREFORE, BE IT RESOLVED, the governing board of the Oakland Unified School District hereby finds, determines, declares, orders, and resolves as follows:

1. That the above recitals are true and correct;
2. That, as described above, at the time that the District signed the agreement, there was an emergency at the Site as defined by applicable statute(s) (“Emergency”);
3. That, as described above, at the time that the District signed the agreement, in order to mitigate and minimize as quickly as the impact on District students and programs, the Repair Work had to commence immediately, the Repair Work would not have permitted the delays which would have resulted from a competitive bidding process, and entering into the Contract without competitive bidding was necessary to adequately respond to the emergency;
4. That the Board hereby ratifies the Contract;
5. That currently there is a need to continue the emergency Repair Work at the Site under the Contract, and conditions do not allow termination of the Contract followed by use of competitive bidding to complete the Repair Work; and
6. That District staff shall report on the status of this Contract to the Board at every regularly scheduled meeting so that the Board may determine, by a four-fifths vote, that there is a need to continue the Contract, including a specific determination that the remainder of the Contract cannot be completed by giving notice for bids to let contracts.

Passed by the following vote (NOTE: Four-fifths vote is required for the finding of an emergency and the finding that there is a need to continue the Contract):

AGREEMENT BETWEEN OWNER AND CONTRACTOR

This Agreement, effective **January 23, 2023**, is by and between the **Oakland Unified School District**, in Alameda County, California, hereinafter called the “Owner,” and **RESTORATION MANAGEMENT COMPANY** hereinafter called the “Contractor.”

WITNESSETH: That the Contractor and the Owner for the consideration hereinafter named agree as follows:

ARTICLE I. SCOPE OF WORK. The Contractor agrees to furnish all labor, equipment and materials, including tools, implements, and appliances required, and to perform all the work required, by the Contract (the “Work”) in a good and workmanlike manner, free from any and all liens and claims from mechanics, material suppliers, subcontractors, artisans, machinists, teamsters, freight carriers, and laborers, and as specified in

**Lockwood STEAM Elementary School Emergency Fire Damage Repair Project, located at
6701 Blvd, Oakland, CA, 94621,**

all in strict compliance with the plans, drawings and specifications therefore prepared by

**Oakland Unified School District, 955 High Street, Oakland, CA, 94601,
PH: 510-535-2728,**

and other Contract Documents relating thereto including the proposal submitted by Contractor on December 9, 2022, attached hereto and incorporated herein as Exhibit A.

The Contract as awarded includes the base scope of work only.

During the Work, the Contractor shall ensure that all Work, including but not limited to Work performed by Subcontractors, is performed in compliance with all applicable legal, contractual, and local government requirements related to the novel coronavirus and COVID-19, including “social distancing,” masks, and hygiene as may be ordered by the State or local authorities and as may be directed in the Contract Documents.

ARTICLE II. CONTRACT DOCUMENTS. The Contractor and the Owner agree that all of the documents listed in Article 1.1.1 of the General Conditions form the “Contract Documents” which form the “Contract.” The Contractor and its subcontractors must use the Owner’s program software (COLBI DOCS) for projects.

ARTICLE III. TIME TO COMPLETE AND LIQUIDATED DAMAGES.

Time is of the essence in this Contract, and the time of Completion for the Work (“the Contract Time”) shall be **one hundred fifty-seven (157)** calendar days which shall start to run on (a) the date of commencement of the Work as established in the Owner’s Notice to Proceed, or (b) if no date of commencement is established in a Notice to Proceed from Owner, the date of Contractor’s actual commencement of the Work (including mobilization). The Owner anticipates that the Contract Time

will start to run on **February 1, 2023**, in which case the deadline for Completion would be **July 7, 2023**.

The site for the Contract will not be available to the Contractor for construction on the following dates: N/A. The Contractor shall not be entitled to time extensions for lack of access to the site on these dates.

Failure to Complete the Work within the Contract Time and in the manner provided for by the Contract Documents, or failure to complete any specified portion of the Work by a milestone deadline, shall subject the Contractor to liquidated damages. The actual occurrence of damages and the actual amount of the damages which the Owner would suffer if the Work were not Completed within the Contract Time, or if any specified portion of the Work were not completed by a milestone deadline, are dependent upon many circumstances and conditions which could prevail in various combinations and, from the nature of the case, it is impracticable and extremely difficult to fix the actual damages. Damages which the Owner would suffer in the event of such delay include, but are not limited to, loss of the use of the Work, disruption of activities, costs of administration and supervision, third party claims, and the incalculable inconvenience and loss suffered by the public.

Accordingly, the parties agree that \$250.00 per calendar day of delay shall be the damages which the Owner shall directly incur upon failure of the Contractor to Complete the Work within the Contract Time or Complete any specified portion of the Work by a milestone deadline, as described above. Liquidated damages will accrue for failure to meet milestone deadlines even if the Contractor Completes the Work within the Contract Time.

In addition, Contractor shall be subject to liquidated damages, or actual damages if liquidated damages are not recoverable under law, for causing another contractor on the Project to fail to timely complete its work under its contract or for causing delayed *completion* of the Project. The actual occurrence of damages and the actual amount of the damages which the Owner would suffer if another contractor on the Project were to fail to timely complete its work under its contract or delay *completion* of the Project are dependent upon many circumstances and conditions which could prevail in various combinations and, from the nature of the case, it is impracticable and extremely difficult to fix the actual damages. Damages which the Owner would suffer in the event of such delay include, but are not limited to, loss of the use of the Work, loss of use of the other contractor's work, loss of use of the Project, disruption of activities, costs of administration and supervision, third party claims, the incalculable inconvenience and loss suffered by the public, and an Owner's inability to recover its delay damages from the contractors whose work was delayed by Contractor.

Accordingly, the parties agree that \$250.00 for each calendar day of delay shall be the amount of damages which the Owner shall directly incur upon Contractor causing another contractor on the Project to fail to timely complete its work under its contract or causing delayed *completion* of the Project.

For Contractor's obligations regarding claims against Owner from other contractors on the Project alleging that Contractor caused delays to their work, see General Conditions sections 3.7.4, 3.16 and 3.17. If liquidated damages accrue as described above, the Owner, in addition to all other remedies

provided by law, shall have the right to assess the liquidated damages at any time, and to withhold liquidated damages (and any interest thereon) at any time from any and all retention or progress payments, which would otherwise be or become due the Contractor. In addition, if it is reasonably apparent to the Owner before liquidated damages begin to accrue that they will accrue, Owner may assess and withhold, from retention or progress payments, the estimated amount of liquidated damages that will accrue in the future. If the retained percentage or withheld progress payments are not sufficient to discharge all liabilities of the Contractor incurred under this Article, the Contractor and its sureties shall continue to remain liable to the Owner until all such liabilities are satisfied in full.

If Owner accepts any work or makes any payment under the Contract Documents after a default by reason of delays, the payment or payments shall in no respect constitute a waiver or modification of any provision in the Contract Documents regarding time of Completion, milestone deadlines, or liquidated damages.

ARTICLE IV. PAYMENT AND RETENTION. The Owner agrees to pay the Contractor on a time and materials basis, not to exceed **THREE HUNDRED FIFTY THOUSAND DOLLARS 00/100 (\$350,000.00)** for work satisfactorily performed based on the hourly rates included in Exhibit B, attached hereto and incorporated herein, after receipt of properly documented and submitted Applications for Payment and to make payments on account thereof, as provided in the General conditions. To the extent there is any conflict between the time and materials payment provisions outlined in the Agreement and any provision in the General Conditions, these time and materials payment provisions shall prevail.”

The above contract price does not include any special allowances. The above contract price includes a general contingency allowance of **ZERO (\$0)** to pay any additional amounts to which the Contractor may be entitled under the Contract Documents other than special allowances.

Any payment from a special allowance or general contingency allowance (“Allowance”) is entirely at the discretion, and only with the advanced written approval, of the Owner. To request payment from an Allowance, the Contractor must fully comply with the Contract Documents’ requirements related to Notice to Potential Changes, Change Order Requests, and Claims, including but not limited to Articles 4 and 7 of the General Conditions and its provisions regarding waiver of rights for failure to comply. If the Owner approves in writing a payment from an Allowance, no change order approved by Owner’s governing body shall be required, but Contractor must sign an Allowance expenditure form, after which the Contractor may include a request for such payment in its next progress payment application. Contractor’s inclusion of a request for such payment in a progress payment application, or Contractor’s acceptance of a progress payment that includes such payment, shall act as a full and complete waiver by Contractor of all rights to recover additional amounts, or to receive a time extension or other consideration, related to the underlying basis of such payment; and such waiver shall be in addition to any other waiver that applies under the Contract Documents (including Article 4 of the General Conditions). If Contractor requests a time extension or other consideration in connection with or related to a requested payment from an Allowance, Contractor must comply with the Contract Documents’ requirements related to Notice to Potential Changes, Change Order Requests, and Claims, including but not limited to Articles 4, 7, and 8 of the General Conditions and their provisions regarding waiver of rights for failure to comply, and no such

time extension or other consideration may be issued until a change order is approved by the Owner's governing body pursuant to the Contract Documents. The amount of an Allowance may only be increased by a change order approved by Owner's governing body. Once an Allowance is fully spent, the Contractor must request any additional compensation pursuant to the procedures in the Contract Documents for Notices of Potential Claim, Change Order Requests, and Claims, and payment must be made by a change order approved by the Owner's governing body pursuant to the General Conditions. Upon Completion of the Work, all amounts in an Allowance that remain unspent and unencumbered shall remain the property of the Owner, Contractor shall have no claim to such funds, the Owner shall be entitled to a credit for such unused amounts against the above contract price, and the Owner may withhold such credit from any progress payment or release of retention.

ARTICLE V. CHANGES. Changes in this Agreement or in the Work to be done under this Agreement shall be made as provided in the General Conditions.

ARTICLE VI. TERMINATION. The Owner or Contractor may terminate the Contract as provided in the General Conditions.

ARTICLE VII. PREVAILING WAGES. The Project is a public work, the Work shall be performed as a public work and pursuant to the provisions of Section 1770 et seq. of the Labor Code of the State of California, which are hereby incorporated by reference and made a part hereof, the Director of Industrial Relations has determined the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work in the locality in which the Work is to be performed, for each craft, classification or type of worker needed to execute this Contract. Per diem wages shall be deemed to include employer payments for health and welfare, pension, vacation, apprenticeship or other training programs, and similar purposes. Copies of the rates are on file at the Owner's principal office. The rate of prevailing wage for any craft, classification or type of workmanship to be employed on this Project is the rate established by the applicable collective bargaining agreement which rate so provided is hereby adopted by reference and shall be effective for the life of this Agreement or until the Director of the Department of Industrial Relations determines that another rate be adopted. It shall be mandatory upon the Contractor and on any subcontractor to pay not less than the said specified rates to all workers employed in the execution of this Agreement.

The Contractor and any subcontractor under the Contractor as a penalty to the Owner shall forfeit not more than Two Hundred Dollars (\$200.00) for each calendar day or portion thereof for each worker paid less than the stipulated prevailing rates for such work or craft in which such worker is employed. The difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage rate shall be paid to each worker by the Contractor.

The Contractor and each Subcontractor shall keep or cause to be kept an accurate record for Work on this Contract and Project showing the names, addresses, social security numbers, work classification, straight time and overtime hours worked and occupations of all laborers, workers and mechanics employed by them in connection with the performance of this Contract or any subcontract

thereunder, and showing also the actual per diem wage paid to each of such workers, which records shall be open at all reasonable hours to inspection by the Owner, its officers and agents and to the representatives of the Division of Labor Standards Enforcement of the State Department of Industrial Relations. The Contractor and each subcontractor shall furnish a certified copy of all payroll records directly to the Labor Commissioner.

Public works projects shall be subject to compliance monitoring and enforcement by the Department of Industrial Relations. For all projects over Twenty-Five Thousand Dollars (\$25,000), a contractor or subcontractor shall not be qualified to submit a bid or to be listed in a bid proposal subject to the requirements of Public Contract Code section 4104 unless currently registered and qualified under Labor Code section 1725.5 to perform public work as defined by Division 2, Part 7, Chapter 1 (§§1720 et seq.) of the Labor Code. For all projects over Twenty-Five Thousand Dollars (\$25,000), a contractor or subcontractor shall not be qualified to enter into, or engage in the performance of, any contract of public work (as defined by Division 2, Part 7, Chapter 1 (§§1720 et seq.) of the Labor Code) unless currently registered and qualified under Labor Code section 1725.5 to perform public work.

ARTICLE VIII. WORKING HOURS. In accordance with the provisions of Sections 1810 to 1815, inclusive, of the Labor Code of the State of California, which are hereby incorporated and made a part hereof, the time of service of any worker employed by the Contractor or a Subcontractor doing or contracting to do any part of the Work contemplated by this Agreement is limited and restricted to eight hours during any one calendar day and forty hours during any one calendar week, provided, that work may be performed by such employee in excess of said eight hours per day or forty hours per week provided that compensation for all hours worked in excess of eight hours per day, and forty hours per week, is paid at a rate not less than one and one-half (1½) times the basic rate of pay. The Contractor and every Subcontractor shall keep an accurate record showing the name of and the actual hours worked each calendar day and each calendar week by each worker employed by them in connection with the Work. The records shall be kept open at all reasonable hours to inspection by representatives of the Owner and the Division of Labor Law Enforcement. The Contractor shall as a penalty to the Owner forfeit Twenty-five Dollars (\$25.00) for each worker employed in the execution of this Agreement by the Contractor or by any subcontractor for each calendar day during which such worker is required or permitted to work more than eight hours in any one calendar day, and forty hours in any one calendar week, except as herein provided.

ARTICLE IX. APPRENTICES. The Contractor agrees to comply with Chapter 1, Part 7, Division 2, Sections 1777.5 and 1777.6 of the California Labor Code, which are hereby incorporated and made a part hereof. These sections require that contractors and subcontractors employ apprentices in apprenticeable occupations in a ratio of not less than one hour of apprentice's work for each five hours of work performed by a journeyman (unless an exemption is granted in accordance with Section 1777.5) and that contractors and subcontractors shall not discriminate among otherwise qualified employees as indentured apprentices on any public works solely on the ground of sex, race, religious creed, national origin, ancestry or color. Only apprentices as defined in Labor Code Section 3077, who are in training under apprenticeship standards and who have signed written apprentice agreements, will be employed on public works in apprenticeable occupations. The responsibility for compliance with these provisions is fixed with the Contractor for all apprenticeable

occupations.

LEAD-BASED MATERIALS CERTIFICATION

PROJECT/CONTRACT NO. Lockwood STEAM Elementary School
Emergency Fire Damage Repair between Oakland Unified School
District ("District") and Restoration Management Company
("Contractor" or "Bidder") ("Contract" or "Project").

This certification provides notice to the Contractor that:

- (1) Contractor's work may disturb lead-containing building materials.
- (2) Contractor shall notify the District if any work may result in the disturbance of lead-containing building materials.
- (3) Contractor shall comply with the Renovation, Repair and Painting Rule, if lead-based paint is disturbed in a six-square-foot or greater area indoors or a 20-square-foot or greater area outdoors.

1. Lead as a Health Hazard

Lead poisoning is recognized as a serious environmental health hazard facing children today. Even at low levels of exposure, much lower than previously believed, lead can impair the development of a child's central nervous system, causing learning disabilities, and leading to serious behavioral problems. Lead enters the environment as tiny lead particles and lead dust disburse when paint chips, chalks, peels, wears away over time, or is otherwise disturbed. Ingestion of lead dust is the most common pathway of childhood poisoning; lead dust gets on a child's hands and toys and then into a child's mouth through common hand-to-mouth activity. Exposures may result from construction or remodeling activities that disturb lead paint, from ordinary wear and tear of windows and doors, or from friction on other surfaces.

Ordinary construction and renovation or repainting activities carried out without lead-safe work practices can disturb lead-based paint and create significant hazards. Improper removal practices, such as dry scraping, sanding, or water blasting painted surfaces, are likely to generate high volumes of lead dust.

Because the Contractor and its employees will be providing services for the District, and because the Contractor's work may disturb lead-containing building materials, CONTRACTOR IS HEREBY NOTIFIED of the potential presence of lead-containing materials located within certain buildings utilized by the District. All school buildings built prior to 1978 are presumed to contain some lead-based paint until sampling proves otherwise.

2. Overview of California Law

Education Code section 32240 et seq. is known as the Lead-Safe Schools Protection Act. Under this act, the Department of Health Services is to conduct a sample survey of schools in the State of California for the purpose of developing risk factors to predict lead contamination in public schools. (Ed. Code, § 32241.)

Any school that undertakes any action to abate existing risk factors for lead is required to utilize trained and state-certified contractors, inspectors, and workers. (Ed. Code, § 32243, subd. (b).) Moreover, lead-based paint, lead plumbing, and solders, or other potential sources of lead contamination, shall not be utilized in the construction of any new school facility or the modernization or renovation of any existing school facility. (Ed. Code, § 32244.)

Both the Federal Occupational Safety and Health Administration ("Fed/OSHA") and the California Division of Occupational Safety and Health ("Cal/OSHA") have implemented safety orders applicable to all construction work where a contractor's employee may be occupationally exposed to lead.

The OSHA Regulations apply to all construction work where a contractor's employee may be occupationally exposed to lead. The OSHA Regulations contain specific and detailed requirements imposed on contractors subject to those regulations. The OSHA Regulations define construction work as work for construction, alteration, and/or repair, including painting and decorating. Regulated work includes, but is not limited to, the following:

- a. Demolition or salvage of structures where lead or materials containing lead are present;
- b. Removal or encapsulation of materials containing lead;
- c. New construction, alteration, repair, or renovation of structures, substrates, or portions thereof, that contain lead, or materials containing lead;
- d. Installation of products containing lead;
- e. Lead contamination/emergency cleanup;
- f. Transportation, disposal, storage, or containment of lead or materials containing lead on the site or location at which construction activities are performed; and
- g. Maintenance operations associated with the construction activities described in the subsection.

Because it is assumed by the District that all painted surfaces (interior as well as exterior) within the District contain some level of lead, it is imperative that the Contractor, its workers and subcontractors fully and adequately comply with all applicable laws, rules and regulations governing lead-based materials (including title 8, California Code of Regulations, section 1532.1).

Contractor shall notify the District if any Work may result in the disturbance of lead-containing building materials. Any and all Work that may result in the disturbance of lead-containing building materials shall be coordinated through the District. A signed copy of this Certification shall be on file prior to beginning Work on the Project, along with all current insurance certificates.

3. Renovation, Repair and Painting Rule, Section 402(c)(3) of the Toxic Substances Control Act

The EPA requires lead safe work practices to reduce exposure to lead hazards created by renovation, repair and painting activities that disturb lead-based paint. Pursuant to the Renovation, Repair and Painting Rule (RRP), renovations in homes, childcare facilities, and schools built prior to 1978 must be conducted by certified renovations firms, using renovators with training by a EPA-accredited training provider, and fully and adequately complying with all applicable laws, rules and regulations governing lead-based materials, including those rules and regulations appearing within title 40 of the Code of Federal Regulations as part 745 (40 CFR 745).

The RRP requirements apply to all contractors who disturb lead-based paint in a six-square-foot or greater area indoors or a 20-square-foot or greater area outdoors. If a DPH-certified inspector or risk assessor determines that a home constructed before 1978 is lead-free, the federal certification is not required for anyone working on that particular building.

4. Contractor's Liability

If the Contractor fails to comply with any applicable laws, rules, or regulations, and that failure results in a site or worker contamination, the Contractor will be held solely responsible for all costs involved in any required corrective actions, and shall defend, indemnify, and hold harmless the District, pursuant to the indemnification provisions of the Contract, for all damages and other claims arising therefrom.

If lead disturbance is anticipated in the Work, only persons with appropriate accreditation, registrations, licenses, and training shall conduct this Work.

It shall be the responsibility of the Contractor to properly dispose of any and all waste products, including, but not limited to, paint chips, any collected residue, or any other visual material that may occur from the prepping of any painted surface. It will be the responsibility of the Contractor to provide the proper disposal of any hazardous waste by a certified hazardous waste hauler. This company shall be registered with the Department of Transportation (DOT) and shall be able to issue a current manifest number upon transporting any hazardous material from any school site within the District.

The Contractor shall provide the District with any sample results prior to beginning Work, during the Work, and after the completion of the Work. The District may request to examine, prior to the commencement of the Work, the lead training records of each employee of the Contractor.

THE CONTRACTOR HEREBY ACKNOWLEDGES, UNDER PENALTY OF PERJURY, THAT IT:

1. HAS RECEIVED NOTIFICATION OF POTENTIAL LEAD-BASED MATERIALS ON THE OWNER'S PROPERTY;
2. IS KNOWLEDGEABLE REGARDING AND WILL COMPLY WITH ALL APPLICABLE LAWS, RULES, AND REGULATIONS GOVERNING WORK WITH, AND DISPOSAL, OF LEAD.

THE UNDERSIGNED WARRANTS THAT HE/SHE HAS THE AUTHORITY TO SIGN ON BEHALF OF AND BIND THE CONTRACTOR. THE DISTRICT MAY REQUIRE PROOF OF SUCH AUTHORITY.

FOR CONSTRUCTION CONTRACTS**
(Education Code Section 45125.2)

Business entities entering into contracts with the Owner for the construction, reconstruction, rehabilitation or repair of a facility must comply with Education Code section 45125.2, and if such an entity is not compliant with Section 45125.2, then it must comply with Section 45125.1. Such entities are responsible for ensuring full compliance with the law and should therefore review all applicable statutes and regulations. The following information is provided simply to assist you with compliance with the law:

1. The Owner has determined that your employee(s), or you as a sole proprietor, will have more than limited contact with students, therefore the law requires that you must use one or more of the following methods to ensure the safety of pupils (Education Code §45125.2(a)): ***[NOTE TO OWNER: Most projects create more than “limited contact” with students; however, if the owner has determined that the contractor will only have limited contact (or will have no contact) with students (for example, new construction at an isolated site), then please consult with legal counsel about whether this notice is required.]***
 - a. Install a physical barrier at the worksite to limit contact with pupils.
 - b. If you are not a sole proprietorship, have one of your employees, whom the Department of Justice has ascertained has not been convicted of a violent or serious felony (see ***Attachment A*** to this Notice and Acknowledgement), continually monitor and supervise all of your employees. For the Department of Justice to so ascertain, your employee may submit fingerprints to the Department of Justice pursuant to Education Code section 45125.1(a).
 - c. Arrange, with Owner’s approval, for surveillance of your employees by Owner’s personnel.

Prior to commencing the Work, you shall submit the Independent Contractor Student Contact Form (see ***Attachment B*** to this Notice and Acknowledgement) to the Owner, which will indicate which of the above methods you will use.

2. If you are providing services in an emergency or exceptional situation, you are not required to comply with Education Code section 45125.2, above. An “emergency or exceptional” situation is one in which pupil health or safety is endangered or when repairs are needed to make a facility safe and habitable. Owner shall determine whether an emergency or exceptional situation exists. (Education Code §45125.2(d).)

3. If you use one or more of the three methods in Section 1 (above), you are not required to comply with Education Code section 45125.1. (Education Code §45125.2(b).)

The Lockwood STEAM Elementary School Emergency Fire Damage Repair Project, located at 6701 International Blvd, Oakland, California, 94621, which consists of but not limited to:

providing reconstruction services on an emergency basis, includes installation, replacement, painting, and removal of fire, extensive damage materials found on the exterior stucco, soffit, and carpet wall on the East and South Elevations as well as on the roof. Immediate action was necessary in order to protect the health and safety of staff, prevent conditions from causing hazardous issues, and avoid breathing and inhaling smoke particles caused by fire (the "Contract").

The condition of this obligation is such that, if the Principal shall well and truly perform and fulfill all the undertakings, covenants, terms, conditions, and agreements of said Contract during the original term of said Contract and any extensions thereof that may be granted by the Owner, with or without notice to the Surety, and for the period of time specified in the Contract after completion for correction of faulty or improper materials and workmanship and during the life of any guaranty or warranty required under the Contract, and shall also well and truly perform and fulfill all the undertakings, covenants, terms, conditions and agreement of any and all duly authorized modifications of said Contract that may hereafter be made, then this obligation is to be void, otherwise to remain in full force and virtue.

And the said Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract or to the Work to be performed thereunder or the specifications accompanying the same, shall in any way affect its obligation on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract, or to the Work, or to the specifications.

No further agreement between Surety and Owner shall be required as a prerequisite to the Surety performing its obligations under this bond. In the event that the Surety elects to complete the Work of the Contract after termination of the Contract by Owner, the Surety may not hire Principal, or any of Principal's owners, employees, or subcontractors, to perform the Work without the written consent of Owner, and the Owner may grant or withhold such consent within its sole discretion.

IN WITNESS WHEREOF, the above-bounden parties have executed this instrument under their several seals this 13th day of January, 2023,
