Subject Amendment No. 1 - Cost Reimbursement Subaward - California State University East Bay Foundation, Inc. - California Regional K-16 Education Collaboratives Grant Program - High School Linked Learning Office

Ask of the Board Approval by the Board of Education of Amendment No. 1 to the Cost Reimbursement Subaward by and between the District and California State University, East Bay Foundation, Inc., Hayward, CA, the Fiscal Agent, for the California Regional K-16 Education Collaboratives Grant Program, with the former accepting \$70,000.00, increasing the agreement from \$30,000.00, to amount for the budget (action) period of January 1, 2024 through June 30, 2025, with an Incrementally Finalized Total of \$100,000.00, for the estimated performance period of January 1, 2024 through June 30, 2026, to support OUSD's strategic plan for high school students with focus on enhancing their dual enrollment initiative, pursuant to the terms and conditions thereof, via the High School Linked Learning Office.

Background The Oakland Unified School District participates in the California Regional K-16 Education Collaboratives Grant Program, funded by the California Department of General Services (DGS) and administered by the Foundation for California Community Colleges (FCCC). The fiscal agent for the Bay region is CSU East Bay Foundation, Inc.

Discussion The Oakland Unified School District's participation in the California Regional K-16 Education Collaboratives Grant Program through the Bay Area K-16 Collaborative will enable McClymonds High School to increase Dual Enrollment programming, with a focus on college and career pathway alignment to high growth and high-wage industries, and supporting LCAP focal groups with accessing and succeeding in Dual Enrollment, with the ultimate goal of postsecondary matriculation. The funding provided by the grant will pay for essential costs associated with increased growth and improvements to the Dual Enrollment program at McClymonds HS. The California Bay Area K-16 Collaborative aims to strengthen linkages among school districts, community colleges, universities, and employers to streamline educational pathways and address inequities in education and employment in three vital sectors of the Bay Area economy. Collectively, partners will transform the student experience in three priority pathway sectors: Education,

Engineering/Computing, and Healthcare/Biotechnology. This grant program will support activities related to supporting the overarching goals of the Partnership:

1. Increase the number of graduates with postsecondary degrees and certifications in high-growth, high-wage disciplines that will meet the region's economic and labor market needs.
2. Address race equity, diversity, and inclusion of our most vulnerable populations by reducing economic disparities through improved socioeconomic mobility in degree and certification attainment and the labor market.
3. Improve graduation rates and shorten the time to completion for certifications, associate degrees, and bachelor's degrees in pathways to employment to increase educational attainment levels.

The Oakland Unified School District will engage in the collaborative through activities, specifically at McClymonds High School, including:

1. Increasing Dual Enrollment (DE) programming at McClymonds HS with Dual Enrollment courses aligned to the school's college and career pathways
2. Including DE courses in the Master Schedule leads to more equitable access to DE for focal students during the school day.
3. Adding DE courses to the HS course selection process to ensure maximum access and participation, especially of target groups
4. Improving and implementing systems around student recruitment and scheduling by supporting staffing capacity to support this work
5. Improving and implementing systems around Peralta enrollment and the DE enrollment process
6. Providing Dual Enrollment Student Orientations to build student awareness of crucial college success skills
7. Other programming is needed to ensure equitable and increased access and success in dual enrollment courses and postsecondary matriculation of DE participants.
