RE: East Oakland Pride Elementary School, 800 Birch Street – Oakland, CA
Fire and Intrusion Alarm Design and Construction Administration Services

Dear Mr. Esposito:

Jensen Hughes, Inc. (Consultant) is pleased to submit this proposal to provide fire and intrusion alarm design and construction administration services to the Oakland Unified School District (OUSD) (Client) for the referenced project

Jensen Hughes prepared a fire and intrusion alarm system replacement project for the East Oakland Pride Elementary School under a separate agreement with OUSD. The Division of the State Architect (DSA) approval was obtained for Application # 01-117427 on July 31, 2018. However, completing the project was deferred by OUSD. The DSA approval of plans has been extended and is valid until December 9, 2021.

The OUSD Fire & Intrusion Alarm Standards have changed since the original DSA approval, and some equipment used in the original 2018 designs has been discontinued.

OUSD has requested Jensen Hughes' assistance with bidding, construction administration, and updating the plans for conformance with the current OUSD Fire & Intrusion Alarm System Standards.

Scope of Services

Jensen Hughes proposes to provide the following scope of services:

DESIGN UPDATE

1. Update the fire and intrusion alarm plans and specification in accordance with the 2021 OUSD Fire & Intrusion Alarm System Standards.
2. Prepare Construction Change Documents (CCDs) for relevant fire and intrusion alarm design changes. Relevant fire alarm changes include newer model speakers and strobes. Relevant intrusion alarm changes include a newer model intrusion alarm control panel. Fire alarm changes will be submitted to DSA for review and approval.

BID SERVICES

1. Attend one pre-bid meeting arranged by the Client to discuss the project with bidders and provide clarification and technical assistance regarding bidders' questions.
2. Prepare responses to bidders' requests for information (RFIs) during the bid process. Jensen Hughes will provide one addendum, if necessary.

CONSTRUCTION ADMINISTRATION

1. Prepare DSA-required forms for approval of the DSA Project Inspector and Start of Construction. Submit same to DSA for review and approval.
3. Attend one pre-construction and one pre-pull meeting with the selected contractor and Client. Meetings shall be arranged by the Client.
4. Attend one construction kick-off meeting with the selected contractor and Client. Meetings shall be arranged by the Client.
5. Attend weekly project meetings during construction. Meeting minutes shall be recorded and distributed by the Client. A total of 16 weekly meetings are included.
6. Provide appropriate direction to the DSA Project Inspector.
7. Conduct two construction observation visits during construction to ensure compliance and completion in accordance with the approved plans. Construction observation visits will be high-level reviews and are not intended as a substitute for continuous inspection provided by the DSA Project Inspector. Jensen Hughes will provide written comments reflecting items reviewed at the site. It is anticipated that construction observation visits will coincide with construction meetings.
8. Respond to contractor or inspector requests for information concerning interpretation of construction drawings. Prepare RFI responses as appropriate.
9. Provide general consulting regarding the project. This consulting may be used for:
 - A. Mitigating contractor problems and/or conflicts.
 - B. Providing recommendations/solutions.
 - C. Assisting with requests for change orders.
10. Witness the pre- and final acceptance tests of the fire and intrusion alarm systems with the Client, contractor, OUSD Alarm Shop, and Project Inspector. Results of the final tests will be recorded and submitted to the Client. Four site visits are included for systems testing.
11. Conduct one final walk-through at the completion of construction to verify and document that the fire and intrusion alarm systems are installed in accordance with the manufacturer's requirements, OUSD Standards, and the design intent. Prepare a letter report that identifies any deficiencies found during the final walk-through. Submit the same to the Client.
12. Prepare DSA-required verified reports for project close-out.

Additional Services

Any other work requested by Client outside of the Services specified above shall be considered an "Additional Service" and will be conducted on a mutually-agreed-upon basis. When such work is requested, Jensen Hughes will submit an estimate of the cost to the Client for approval prior to commencing work.

Additional work may include, but is not limited to:

1. Additional site visits.
2. Additional meetings.
3. Building, code and accessibility consulting.
4. Review of additional resubmitted shop drawings or construction change orders.
5. Additional construction observation visits beyond the Scope of Services.
6. Additional time for system acceptance testing beyond that noted in Scope of Services resulting from contractor's delays or deficiencies.
7. Evaluation of the existing fire and intrusion alarm system(s).
8. Automatic sprinkler system design, testing, and consulting.
9. Architectural services, mechanical, structural, or civil engineering and consulting.
10. Additional submittals beyond those described in the Scope of Services.
11. Special hazard or kitchen hood fire suppression system design, testing, and consulting.
12. Smoke control system design and testing/special inspection.

All services not specifically described in the Proposal are excluded from Consultant's Scope of Services.

1. Coordinate and arrange all required meetings and tests.
2. Provide Jensen Hughes access to all areas of the building for the purpose of conducting surveys and site visits.
3. Pay for all fees for securing approval of authorities having jurisdiction.
