5. In the space provided explain the mission of your organization and describe its most significant activities.

The mission of the Oakland Unified School District is: *to ensure that all students graduate as caring, competent, and critical thinkers, as well as fully-informed, engaged, and contributing citizens, prepared to succeed in college and career.*

Under the leadership of Superintendent Tony Smith, Oakland Unified School District is in year two of a comprehensive five-year strategic plan to transform ourselves into an equitable full-service community school district aligning city, county, and community resources in service of Oakland families, emphasizing service to neighborhoods that lack opportunities. We are unified in pursuit of one radical goal:

ALL students in Oakland will graduate.

OUSD has established three District Priorities toward achieving this goal:

- * Safe, Healthy & Supportive Schools;
- * High Quality Effective Instruction; and
- * College & Career Readiness.

A Full Service Community School

The guiding vision of OUSD is the “Full Service Community School.” A FSCS serves the whole child; it invites the community in and extends its boundaries into the community in order to accelerate academic achievement; it shares responsibility for student, family and community success.

Full Service Community Schools have the following characteristics:

- a. Become safe and healthy centers of the community: Schools become centers of communities and are open, fun and attractive spaces for the community to use before and after the school day.
- b. Foster trusting, intentional relationships and partnerships between school staff, students, families, parents, and community resources based upon the school and community needs, assets and local context.
- c. Build the capacity of adults and students to share responsibility for leadership and decision-making. Adults at the school and in the community create a common vision for the school and community, supported by strong school leadership that meets the needs of the whole child.
- d. Offer a coordinated and integrated system of academic and support services to students, families, and neighbors. The four essential areas of focus are: 1) academic achievement and skill development; 2) health, safety and social services; 3) youth and community development; and 4) parent, community and student engagement.
- e. Tailor the specific approach and mix of services to each community through a process of understanding and addressing inequities. Schools use data to regularly assess outcomes of academic and support services for diverse communities and develop specific interventions to address the identified inequities in a linguistically and culturally responsive way as identified by the local community and the school.
