Proposal to be attached.

INTEGRAL GROUP

6/23/2016

Dear Kenya Chatman:

This letter is to confirm our team's Local Business Enterprise (LBE) certification with the city of Oakland. Per our earlier discussions OUSD would like to proceed with the Base Services and Add Alternate 1 sections listed on Integral Group's Proposal for Commissioning Services for Fremont High School. The fee breakdown listed on the proposal is as follows:

\$12,000 Commissioning

- Base Services (Integral Group) – \$143,700
- Add Alternate for Envelope Commissioning (sub-contractor) – \$106,000
- Reimbursable Expenses – \$3,000
- Total fee: \$252,700

\$264,700

Integral Group is currently certified as a local business enterprise by the city of Oakland with a LBE number 5628. However our proposed envelope commissioning sub-contractor does not currently hold a LBE certification with the city of Oakland. This results in the following LBE percentage breakdown:

- Integral Group (LBE # 5628) – \$146,700/\$252,700 = 58.05%
- Sub-contractor (Not an LBE) – \$106,000/\$252,700 = 41.98%

Hence the proposed commissioning team LBE percentage is above the 50% threshold required by the city for contracts above \$100,000.

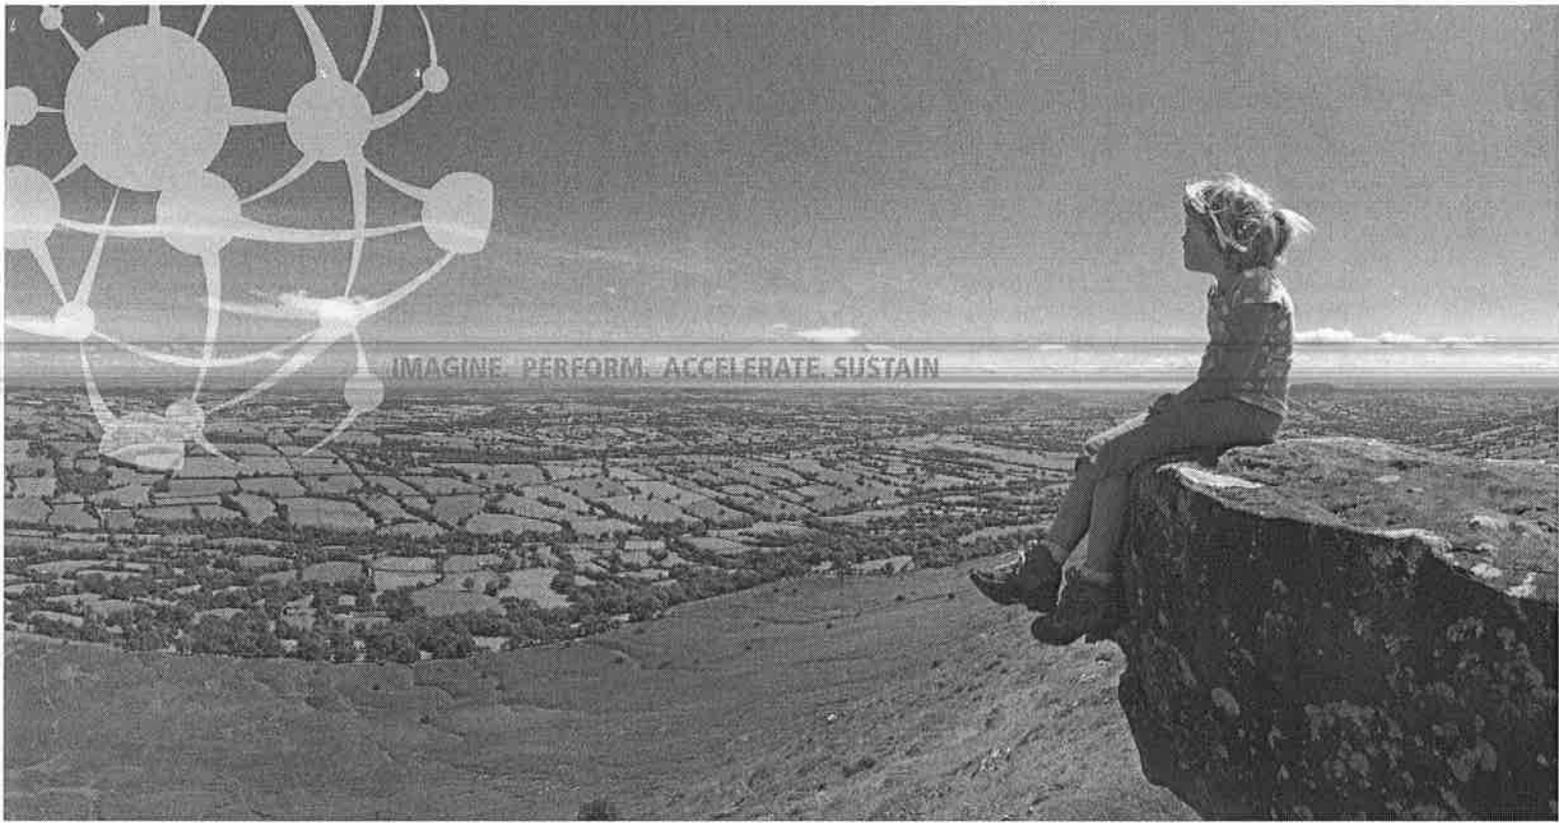

Please feel free to contact us with any questions or concerns.

Sincerely,

IG will also review the specifications to ensure proper commissioning language is in the project documents, as necessary. IG will ensure that systems manual items are included in the commissioning specifications.

Commissioning Plan

Prior to permit issuance, Integral Group will develop a commissioning plans to document how the project will be commissioned and will be provided during the design and construction phases of the building project to guide the project team. The Commissioning Plan will include the following:

- General project information
- Commissioning team information
- Commissioning goals
- Commissioning process activities, schedules and responsibilities
- Systems to be commissioned
- Plans to test systems and components and shall include:
 - Equipment and systems to be tested, including the extent of tests
 - Functions to be tested
- Conditions under which the test shall be performed
- Measurable criteria for acceptable performance

Submittal Review

Integral Group will review contractor submittals applicable to systems being commissioned for compliance with the OPR; BOD and contract documents. This review shall be concurrent with A/E reviews and submitted to the design team and Owner for inclusion back to the installing sub-contractor.

Applicable RFIs and COs will be reviewed as it impacts the Commissioned systems as necessary.

Pre-Functional Test/Checklists – Installation Verification

IG will prepare a pre-functional test/checklist for each commissioned piece of equipment for the use of the installed sub-contractor. This will ensure that all equipment is ready for functional testing (see next item) to begin. These phase will require TAB reports, sub-contractor start-up checklists, controls point-to-point checklists, chlorination reports, etc. The contractor is required to complete these forms and submit them to IG for review prior to functional testing.

IG will also conduct site installation visits during construction to ensure proper installation of the commissioned systems. The visits are to coincide with construction progress meetings. Site reports will be issued to the team. Refer to the meeting section for proposed number of site visits/meetings.

IG will not monitor T24 acceptance tests which are to be performed by the others. However, completed T24 acceptance tests will be required to be submitted as a complete pre-functional test package prior to commencement of the functional testing phase.

IG may witness select start-up and TAB activities to ensure proper procedures. Exact systems and activities to be witnessed shall be documented through the Commissioning plan and communicated during the construction kick off meeting.

10 Month Warranty Review

IG will review the operation of the building during the warranty period; usually 10 months into occupancy. IG will review the following items:

- Interview facilities staff for known issues
- Statically inspect the commissioned systems for issues
- Selectively test building systems to ensure proper operation and/or overrides are not present affecting the operation and energy efficiency of the system. This may be done via BMS trend reviews. It is assumed that facilities personnel and/or contractors will provide the trends.

IG will provide a list of issues to be corrected by the Contractor. IG has included a visit onsite for this task.

Plan Check and CHPS Forms Submission

IG will prepare the appropriate commissioning related forms for plan check and CHPS (EE 3.0 and EE 3.1) submission. We will also provide written comments and responses to all AHJ and CHPS comments.

Meetings

The following meetings are included in the base scope of work:

- One - In-person T24 design review CX kickoff meeting
- Two – In-Person Peer Design Review Meetings with Design Team (including Back check)
- One – In-Person Controls Integration Meeting with District and Design Team
- One – In-Person Pre-bid meeting
- One - In-person construction CX kickoff meeting
- Twenty – Progress meetings onsite while conducting site installation walks and construction progress monitoring

The above meetings are in addition to the onsite functional testing activities.

ADD ALTERNATE 1 - CHPS (EE 3.2) ENVELOPE COMMISSIONING

This additional scope will incorporate the CHPS EE 3.2 envelope commissioning requirements. This will be conducted by a third party sub-contractor to Integral Group. We will manage and supervise our sub-contractor at cost. The proposed sub-contractor is RDH Consulting. They have offices in Oakland, CA.

It is expected that the envelope commissioning sub-contractor will attend some of the meetings for the base scope of work, as necessary, for integration into the overall commissioning process. However the envelope sub-contractor will not be expected to attend all meetings and may host separate envelope commissioning meetings.

ADD ALTERNATE 2 – FIRE/LIFE SAFETY SYSTEMS

Integral group will include the commissioning of the fire alarm and sprinkler systems. We will interface with the IOR to test the systems prior to the local AHJ testing the systems to ensure a smooth inspection process for code approval.

It is not expected that additional meetings will be required, rather covered during regularly scheduled meetings already included in the base scope of work.

ADD ALTERNATE 3 – ADDITIONAL SYSTEM COMMISSIONING

Per the RFP there additional systems that would like to be commissioned that are not part of the base T24-2013 and CHPS requirements. Therefore, we have provided an itemized list of systems in the fee section to add individual systems to IG's scope of commissioning. These additional systems will be monitored and witnessed only by the installing sub-contractors testing and commissioning process. IG will collect all documentation and track any issues as a result of the testing of these additional systems.

It is not expected that additional meetings will be required, rather covered during regularly scheduled meetings already included in the base scope of work.
