How will this grant contribute to sustained student achievement or academic standards?	This grant provides after school staff with professional development on the new common core math standards and provides school-day aligned first grade math lessons to be implemented in 12 elementary after school programs. This grant integrates mathematics education with students' social and emotional learning, and complements the school district's PreK-5 th grade math learning cohort.
How will this grant be evaluated for impact upon student achievement? (Customized data design and technical support are provided at 1% of the grant award or at a negotiated fee for a community-based fiscal agent who is not including OUSD's indirect rate of 5.17% in the budget. The 1% or negotiated data fee will be charged according to an Agreement for Grant Administration Related Services payment schedule. This fee should be included in the grant's budget for evaluation.)	A separate grant will fund evaluation of this project to measure students' increased confidence level and attitudes toward math. Formative assessments will measure improvements in after school staff practices that support students' math learning. Quality of after school programs involved in this project will be evaluated as part of the comprehensive OUSD annual evaluation project for ASES and 21 st CCLC programs.
Does the grant require any resources from the school(s) or district? If so, describe.	This project is a collaborative project between the After School Programs Office and OUSD Math Dept. Staff resources from both departments will support the successful implementation of this project.
Are services being supported by an OUSD funded grant or by a contractor paid through an OUSD contract or MOU? (If yes, include the district's indirect rate of 4.25% for all OUSD site services in the grant's budget for administrative support, evaluation data, or indirect services.)	This math project enhances the academic enrichment programming offered by 12 existing ASES after school programs, and thus, is supported by the school district's ASES grant. After School lead agency partners will implement this math project.
Will the proposed program take students out of the classroom for any portion of the school day? (OUSD reserves the right to limit service access to students during the school day to ensure academic attendance continuity.)	No
Who is the contact managing and assuring grant compliance? (Include contact's name, address, phone number, email address.)	Kasey Blackburn, Program Manager, OUSD After School Programs
