Our Mission & Vision:

The Hidden Genius Project trains and mentors black male youth in technology creation, entrepreneurship, and leadership skills to transform their lives and communities.

Scope of Work:

The Hidden Genius Project's Fall Immersion Program plans to offer its technology, entrepreneurship, and leadership program to 25 high school aged students at Claremont Middle School. Our Immersion Program will take place on Wednesday's from 4:30 pm to 6:00 pm during the academic school year and on the second Saturday of each month. The Fall Immersion Program is supported by two adult educators (Innovation Educators) and one adult support services staff (Care Champion). Our Intensive Fall Immersion Program is designed to connect young black males with the skills, mentors, and experiences that they need to become high-performing entrepreneurs, community problem solvers, and technologists in a 21st century, global economy.

In exchange for the use of program space, The Hidden Genius Project will offer several technology focused program sessions for male students of color at Claremont Middle school. Program sessions will provide an introduction to computer coding, web development, and robotics. All program sessions will be supported by entrepreneurship and leadership components to spark students' interests in solving community problems, gaining more skills, and exploring careers within the technology landscape.

EXHIBIT "B" STATEMENT OF QUALIFICATIONS

1. **Description of Organization and Relevant Experience:** For individual consultants, a resume is sufficient. Attach a separate document if more space is needed.

The Hidden Genius Project (HGP) was founded in Oakland in 2012 by local black male entrepreneurs who decided that the disproportionate access and opportunities for young black men within the local technology sector had to change. The founders developed a program to connect young black males with the skills, mentors and experiences needed to become high-performing entrepreneurs and technologists in a 21st century global economy. Over just six years, The Hidden Genius Project has impacted the lives of 4,000 young geniuses and provided 100,000 hours of training. Last year alone, HGP served 1,400 students in trainings and events spanning the country.

The Hidden Genius Project's Intensive Immersion Program has also grown exponentially ~from serving five in 2012 to more than 100 black male youth in 2018. With dynamic and strategic partnerships, like our work with TEAM in 2017 (Technology Exposure and Access through Mentoring), the Golden State Warriors, and SPAAT, as part of My Brother's Keeper, HGP impacted 220 high school and middle school age youth to opportunities at the intersection of sports and technology (over the course of two events).

With OUSD, the Kapor Center for Social Impact, and the Level Playing Field Institute, The Hidden Genius Project provides computer science and coding workshops to several hundred OUSD students annually for Computer Science Week. Most recently, The Hidden Genius Project went international, traveling to England to participate in Colorintech's ColorCode summit and hosting #TechSlamUK with 200 London students.
