Subject Amendment, Community-Based Organization (CBO) Master Contract Exhibit Coversheet – Alameda County Health Care Services Agency – Nutrition Education and Obesity Prevention Program – Community Schools and Student Services Department

Ask of the Board Approve Amendment, Community-Based Organization Master Contract
 Ratify Services Agreement

Description of Services & Background Alameda County Health Care Services Agency will provide funding for the District to implement Nutrition Education and Obesity Prevention Program and Coordination. Programming shall include development of gardens and integration of nutrition education, professional development and technical assistance to teachers and Wellness Champions, conducting Harvest of the Month, conducting field trips and water promotion.

There is a link between student academic performance and health and wellness. Students who have access to appropriate nutrition and physical activity will ultimately do better in school. Alameda County Public Health Department, through its Alameda County Health Care Services Agency, supports the health of youth in the county and therefore invests in the health of students at OUSD schools. The Agency’s investment is governed by the CBO Master Contract.

The Agency invests in specific programs via addition of cover sheet and exhibits to the CBO Master Contract. One such program is a partnership between the Agency and District to promote nutrition education and obesity prevention.

On May 25, 2022, the Board of Education approved a Master Agreement with the County of Alameda related to school-based support services via Enactment No. 22-0861. Approval of this new cover page and six exhibits will enable the continued funding of promotion of healthy eating habits and obesity prevention for OUSD students.

Audit Requirements

The County contracts with various organizations to carry out programs mandated by the Federal and State governments or sponsored by the Board of Supervisors. Under the Single Audit Act Amendments of 1996 (31 U.S.C.A. §§ 7501-7507) and Board policy, the County has the responsibility to determine whether organizations receiving funds through the County have spent them in accordance with applicable laws, regulations, contract terms, and grant agreements. To this end, effective with the first fiscal year beginning on and after December 26, 2014, the following are required.

I. AUDIT REQUIREMENTS

A. Funds from Federal Sources:

1. Non-Federal entities which are determined to be subrecipients by the supervising department according to 2 CFR § 200.330 and which expend annual Federal awards in the amount specified in 2 CFR § 200.501 are required to have a single audit performed in accordance with 2 CFR § 200.514.
2. When a non-Federal entity expends annual Federal awards in the amount specified in 2 CFR § 200.501(a) under only one Federal program (excluding R&D) and the Federal program's statutes, regulations, or terms and conditions of the Federal award do not require a financial statement audit of the auditee, the non-Federal entity may elect to have a program-specific audit conducted in accordance with 2 CFR § 200.507 (Program Specific Audits).
3. Non-Federal entities which expend annual Federal awards less than the amount specified in 2 CFR § 200.501(d) are exempt from the single audit requirements for that year except that the County may require a limited-scope audit in accordance with 2 CFR § 200.506(c) .

2. Less than \$100,000 are exempt from these audit requirements except as otherwise noted in the contract.

Non-Federal entities that are required to have or choose to do a single audit in accordance with 2 CFR Subpart F, Audit Requirements are not required to have a financial audit in the same year. However, Non-Federal entities that are required to have a financial audit may also be required to have a limited-scope audit in the same year.

3. The audit report must contain a separate schedule that identifies all funds received from or passed through the County that is covered by the audit. County programs must be identified by contract number, contract amount, contract period, and amount expended during the fiscal year by funding source. An exhibit number must be included when applicable.
4. If a funding source has more stringent and specific audit requirements, these requirements must prevail over those described above.

II. AUDIT REPORTS

Within the earlier of 30 calendar days after receipt of the auditor's report or nine months after the end of the audit period, the auditee must electronically submit to the Federal Audit Clearinghouse (FAC) the data collection form described in 2 CFR § 200.512(b) and the reporting package described in 2 CFR § 200.512(c). Background

There is a link between student academic performance and health and wellness. Students who have access to appropriate nutrition and physical activity will ultimately do better in school. Alameda County Public Health Department, through its Alameda County Health Care Services Agency, supports the health of youth in the county and therefore invests in the health of students at OUSD schools. The Agency's investment is governed by the CBO Master Contract.

The Agency invests in specific programs via addition of cover sheet and exhibits to the CBO Master Contract. One such program is a partnership between the Agency and District to promote nutrition education and obesity prevention.

On May 25, 2022, the Board of Education approved a Master Agreement with the County of Alameda related to school-based support services via Enactment No. 22-0861. Approval of this new cover page and six exhibits will enable the continued funding of promotion of healthy eating habits and obesity prevention for OUSD students.

Payment of the final invoice will be contingent upon receipt of all quarterly progress reports, final summary report and deliverables as defined in the comprehensive Scope of Work/Results Based Accountability Worksheet (RBA).

D. Conditions of Withholding Payment

- ACPHD Nutrition Services and/or Alameda County Auditor-Controller may withhold payment of all or a portion of Contractor's claim for reimbursement of expenses when the Contractor has not complied with provisions of the contract. - The Contractor understands and agrees that all deliverables as specified in its agreement must be fully and satisfactorily performed in order to receive the maximum amount payable. The Contractor agrees that if the County determines that any deliverable is not performed, only partially performed, or not performed at a level of quality/satisfaction to County, County may reduce the maximum amount payable under the agreement as follows:
- Where a deliverable is not performed: County shall calculate the pro rata share of the non-performed deliverable by utilizing the relative values specified in the Scope of Work/RBA for each deliverable and reduce the maximum amount payable by deducting the relative value of the deliverable from any sum due the Contractor to the degree that the sum due the Contractor meets or exceeds the reduction. If the reduction exceeds the sum due the Contractor, the Contractor shall pay such amount back to County upon its demand. The Contractor agrees that such deductions to sums due to the Contractor are offsets and no further amount shall be due to the Contractor.
- Where a deliverable is only partially performed: County shall ascertain what percentage of the deliverable was only partially performed, calculate the pro rata share of the partially performed portion by utilizing the relative values specified in the Scope of Work/RBA for each deliverable and reduce the maximum amount payable by deducting the relative value of the partially performed deliverable from any sum due the Contractor

to the degree that the sum due the Contractor meets or exceeds the reduction. If the reduction exceeds the sum due the Contractor, the Contractor shall pay such amount back to County upon demand. The Contractor agrees that such deductions to sums due to the Contractor are offsets and no further amount shall be due to the Contractor.

- Where a deliverable is not performed at a level of quality/satisfaction: County shall ascertain what percentage of the deliverable was not performed at a level of quality/satisfaction, calculate the pro rata share of that portion by utilizing the relative values specified in the Scope of Work/RBA for each deliverable and reduce the maximum amount payable by deducting the relative value of that portion from any sum due the Contractor to the degree that the sum due the Contractor meets or exceeds the reduction. If the reduction exceeds the sum due the Contractor, the Contractor shall pay such amount back to County upon demand. EXHIBIT D

Audit Requirements

The County contracts with various organizations to carry out programs mandated by the Federal and State governments or sponsored by the Board of Supervisors. Under the Single Audit Act Amendments of 1996 (31 U.S.C.A. §§ 7501-7507) and Board policy, the County has the responsibility to determine whether organizations receiving funds through the County have spent them in accordance with applicable laws, regulations, contract terms, and grant agreements. To this end, effective with the first fiscal year beginning on and after December 26, 2014, the following are required.

I. AUDIT REQUIREMENTS

A. Funds from Federal Sources:

1. Non-Federal entities which are determined to be subrecipients by the supervising department according to 2 CFR § 200.330 and which expend annual Federal awards in the amount specified in 2 CFR § 200.501 are required to have a single audit performed in accordance with 2 CFR § 200.514.
2. When a non-Federal entity expends annual Federal awards in the amount specified in 2 CFR § 200.501(a) under only one Federal program (excluding R&D) and the Federal program's statutes, regulations, or terms and conditions of the Federal award do not require a financial statement audit of the auditee, the non-Federal entity may elect to have a program-specific audit conducted in accordance with 2 CFR § 200.507 (Program Specific Audits).
3. Non-Federal entities which expend annual Federal awards less than the amount specified in 2 CFR § 200.501(d) are exempt from the single audit requirements for that year except that the County may require a limited-scope audit in accordance with 2 CFR § 200.506(c).

B. Funds from All Sources:

Non-Federal entities which expend annual funds from any source (Federal, State, County, etc.) through the County in an amount of:

1. \$100,000 or more must have a financial audit in accordance with the U.S. Comptroller General's Generally Accepted Government Auditing Standards (GAGAS) covering all County programs.
2. Less than \$100,000 are exempt from these audit requirements except as otherwise noted in the contract.

Non-Federal entities that are required to have or choose to do a single audit in accordance with 2 CFR Subpart F, Audit Requirements are not required to have a financial audit in the same year. However, Non-Federal entities that are required to have a financial audit may also be required to have a limited-scope audit in the same year.

C. General Requirements for All Audits:

1. All audits must be conducted in accordance with Generally Accepted Government Auditing Standards issued by the Comptroller General of the United States (GAGAS).
2. All audits must be conducted annually, except for biennial audits authorized by 2 CFR § 200.504 and where specifically allowed otherwise by laws, regulations, or County policy.

3. The audit report must contain a separate schedule that identifies all funds received from or passed through the County that is covered by the audit. County programs must be identified by contract number, contract amount, contract period, and amount expended during the fiscal year by funding source. An exhibit number must be included when applicable.
4. If a funding source has more stringent and specific audit requirements, these requirements must prevail over those described above.

II. AUDIT REPORTS

A. For Single Audits

1. Within the earlier of 30 calendar days after receipt of the auditor's report or nine months after the end of the audit period, the auditee must electronically submit to the Federal Audit Clearinghouse (FAC) the data collection form described in 2 CFR § 200.512(b) and the reporting package described in 2 CFR § 200.512(c). The auditee and auditors must ensure that the reporting package does not include protected personally identifiable information. The FAC will make the reporting package and the data collection form available on a web site and all Federal agencies, pass-through entities and others interested in a reporting package and data collection form must obtain it by accessing the FAC. As required by 2 CFR § 200.512(a)(2), unless restricted by Federal statutes or regulations, the auditee must make copies available for public inspection.
2. A notice of the audit report issuance along with two copies of the management letter with its corresponding response should be sent to the County supervising department within ten calendar days after it is submitted to the FAC. The County supervising department is responsible for forwarding a copy of the notice to the County Auditor within one week of receipt.

B. For Audits other than Single Audits

At least two copies of the audit report package, including all attachments and any management letter with its corresponding response, should be sent to the County supervising department within six months after the end of the audit year, or other time frame as specified by the department. The County supervising department is responsible for forwarding a copy to the County Auditor within one week of receipt.

III. AUDIT RESOLUTION

Within 30 days of issuance of the audit report, the entity must submit to its County supervising department a corrective action plan consistent with 2 CFR § 200.511(c) to address each audit finding included in the current year auditor's report. Questioned costs and disallowed costs must be resolved according to procedures established by the County in the Contract Administration Manual. The County supervising department will follow up on the implementation of the corrective action plan as it pertains to County programs.

IV. ADDITIONAL AUDIT WORK

The County, the State, or Federal agencies may conduct additional audits or reviews to carry out their regulatory responsibilities. To the extent possible, these audits and reviews will rely on the audit work already performed under the audit requirements listed above.

this Exhibit.
- E. *Mitigation.* Business Associate agrees to mitigate, to the extent practicable, any harmful effect that is known to Business Associate of a use or Disclosure of PHI by Business Associate in violation of the requirements of this Exhibit. Mitigation includes, but is not limited to, the taking of reasonable steps to ensure that the actions or omissions of employees or agents of Business Associate do not cause Business Associate to commit a Contractual Breach.
- F. *Notification of Breach.* During the term of the Agreement, Business Associate shall notify Covered Entity in writing within twenty-four (24) hours of any suspected or actual breach of security, intrusion, HIPAA Breach, and/or any actual or suspected use or Disclosure of data in violation of any applicable federal or state laws or regulations. - E. *No Third Party Beneficiaries.* Except as expressly provided herein or expressly stated in the HIPAA Regulations, the parties to this Exhibit do not intend to create any rights in any third parties.
- F. *Governing Law.* The provisions of this Exhibit are intended to establish the minimum requirements regarding Business Associate's use and Disclosure of PHI under HIPAA, the HIPAA Regulations and the HITECH Act. The use and Disclosure of individually identified health information is also covered by applicable California law, including but not limited to the Confidentiality of Medical Information Act (California Civil Code section 56 *et seq.*). To the extent that California law is more stringent with respect to the protection of such information, applicable California law shall govern Business Associate's use and Disclosure of confidential information related to the performance of this Exhibit.

Background

The District and County recognize the importance of a coordinated system of school health programs to leverage collective education and health expertise, maximize resources, reduce duplication and ensure quality of services to address the health needs of as many students as possible. Since the previous master contract with the County of Alameda focusing on school-based support services expired in 2020, District and County staff have been negotiating a new agreement.

The original version of this new agreement was written with the term of March 1, 2021 through February 28, 2022. After the county ratified the new agreement but before the District had done so, it was decided that the term of the agreement should be changed to October 1, 2020 through September 30, 2025 so the First Amendment to Master Agreement was added to do so

This packet contains the original Master Agreement and the First Amendment changing the effective dates to be approved at the same time by the Board.

**MASTER AGREEMENT
BETWEEN THE OAKLAND UNIFIED SCHOOL DISTRICT AND THE COUNTY OF ALAMEDA
RELATED TO SCHOOL-BASED SUPPORT SERVICES**

This Agreement is made and entered into by and between the Oakland Unified School District ("DISTRICT" or "OUSD") and the County of Alameda on behalf of its Health Care Services Agency ("COUNTY")

RECITALS

Whereas the mission of the DISTRICT is to build a Full Service Community District focused on high academic achievement while serving the whole child, eliminating inequity, and providing each child with excellent teachers, every day; and

Whereas the DISTRICT, through the Community Schools and Student Services Department, leverages community partnerships and resources so that DISTRICT schools become hubs of support and opportunity for the students, families, and community members; and

Whereas the DISTRICT, through the Office of Post-Secondary Readiness, provides linked learning opportunities to ensure our students are prepared for college, career, and community success; and

Whereas the DISTRICT, through the Programs for Exceptional Children Department, ensures a high-quality and equitable education for students who have learning disabilities or exceptional mental or physical needs; and

Whereas the DISTRICT, through the Nutrition Services Department, ensures high quality, healthy school meals and support programs to increase access to healthy foods; and

Whereas the COUNTY is a political subdivision of the State of California, and includes the Alameda County Health Care Services Agency ("ACHCSA") and

Whereas the COUNTY, through ACHCSA, provides a broad range of services, through its Public Health Department ("PUBLIC HEALTH"), Behavioral Health Care Services ("BEHAVIORAL HEALTH"), Center for Healthy Schools and Communities ("CHSC") and other departments, that include integrated health care services within the context of managed care, behavioral health, public health, community health, health related work based learning and internships and a private/public partnership structure that ensures optimal health and well-being and respects the diversity of the community; and

Whereas the DISTRICT and COUNTY recognize that Full Service Community Schools are an effective strategy for coordinating school partnerships, programs, and resources to achieve equitable outcomes for students, families, and communities: and

Whereas the goal of school based health and wellness services is to build partnerships between the education and health care communities to offer students who are most vulnerable enhanced access to health and supportive services. These comprehensive health and wellness services include, medical, behavioral health, health education and promotion, dental, injury and violence prevention, youth and career development, technical assistance and public health coordination, and coordination with probation and social services; and

Whereas the DISTRICT and COUNTY understand that school based health and wellness services are increasingly recognized as an effective strategy for meeting the health care needs of youth, because they create a multi-tiered system of support with a focus on the early identification of risk factors and addressing the student's immediate physical and emotional needs. In response to high levels of family and community violence, school based health and wellness services are trauma informed. School based health and wellness services also promote long-term health and wellness by helping young people avoid unhealthy behaviors that lead to serious health consequences in adulthood. An accessible and convenient source of health services on a public school campus or virtually through school-based providers can help remove barriers to learning and thereby increase students' academic success; and
