Information Needed	School or Department Response
How will this grant contribute to sustained student achievement or academic standards?	The experience of being bullied or harassed can cause extreme distress and disrupt a child's ability to excel in school and life. Bully prevention increases school connectedness, is associated with better school attendance, test scores, and lower rates of emotional/behavioral problems, including violence to self/others.
How will this grant be evaluated for impact upon student achievement? (Customized data design and technical support are provided at 1% of the grant award or at a negotiated fee for a community-based fiscal agent who is not including OUSD's indirect rate of 5.17% in the budget. The 1% or negotiated data fee will be charged according to an Agreement for Grant Administration Related Services payment schedule. This fee should be included in the grant's budget for evaluation.)	Outcomes associated with PIP will be measures by tracking the changes in perceived safety, school protective factors, and school connectedness via measures on the California Healthy Kids Survey for grades 5, 7, and 9. In addition we will measure incidents of and anticipated reduction in reported incidents of bullying at participating schools by June 2014.
Does the grant require any resources from the school(s) or district? If so, describe.	Our Regional Program Managers and site-based Coordination of Service Team members including Behavioral Health Therapists will participate in supporting implementation.
Are services being supported by an OUSD funded grant or by a contractor paid through an OUSD contract or MOU? (If yes, include the district's indirect rate of 5.17% for all OUSD site services in the grant's budget for administrative support, evaluation data, or indirect services.)	No.
Will the proposed program take students out of the classroom for any portion of the school day? (OUSD reserves the right to limit service access to students during the school day to ensure academic attendance continuity.)	In addition to prevention education, the grant will support education on targeted interventions for bullies. Counseling sessions provided to bullies will be offered at agreed upon times that do not conflict with the core curriculum.
Who is the contact managing and assuring grant compliance? (Include contact's name, address, phone number, email.)
