SCHOLASTIC READING INVENTORY

Allendale Elementary - Growth Report - 2011-12 - 2013-14

Negative Growth
0 or Half Year Growth
1 or More Years Growth

The Scholastic Reading Inventory (SRI) is a screening assessment of reading levels currently given to all students in grades 2-12 not enrolled in a Severely Handicapped course. Students receive a Lexile score, which can be used to indicate the grade level at which the student is reading. This report shows growth in reading grade levels between the beginning and end-of-year administrations of the SRI for students who took both tests. Data used for this report is confined to test results from within the assessment window as defined by the OUSD Assessments Calendar for each school year. For any comments or questions about this report, please contact **Kevin Smith** at kevin.smith@ousd.k12.ca.us.
