Subject Update to Annual California School Dashboard Local Indicators Report for OUSD

Ask of the Board Hear a required update on the Annual California School Dashboard Local Indicators for OUSD. No specific Board action is required.

Background Beginning last year, the California Department of Education began providing Teaching Assignment Monitoring Outcomes (TAMO) data for LEAs, including the percentage of teacher misassignment, one of the data points for the California School Dashboard Local Indicators. In June 2024, we shared in the Local Indicators presentation that OUSD’s 2021-22 rate of misassignment was 27.3%. In July 2024, following LCAP adoption, the CDE released the 2022-23 rate of misassignments, and is requiring all LEAs to return to their Boards to share the 2022-23 data.

Discussion **Update to Priority 1: Basic Conditions:** Priority 1 requires that the LEA annually measures its progress in meeting the Williams settlement requirements at 100% of school sites and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable.

Our rate of teacher misassignment for 2022-23 was 31.6%.
