LIFT UP! 2013-14

BIOGRAPHY

The Literacy Innovations for Teachers Urban Partnership (LIFT UP!) project began in 2010, with Oakland Diocese schools. LIFT UP! is a literacy coaching collaboration between Saint Mary's College of California and the Diocese of Oakland. During its first year the focus was on three schools, Saint Anthony Elementary, Saint Elizabeth's Elementary, and Saint Martin de Porres Elementary. In the second and third years Saint Jarlath Elementary was added. The goal of the program is to have all primary grade students (Kindergarten through third grade) acquire the necessary literacy skills to become effective learners.

To achieve this goal, all primary grade teachers in the four schools were involved in monthly staff development sessions and weekly literacy coaching sessions from the literacy coaches. They were trained in successful research based literacy instruction strategies and effective assessment strategies. Some of these strategies included: a variety of literacy assessments, shared reading, interactive reading, read alouds, morning message, word wall creation, spelling strategies, phonemic awareness strategies, making words, comprehension activities, critical thinking, vocabulary development, shared writing, ELL strategies and interactive writing. The teachers were observed by coaches and held follow-up conferences to reflect on their teaching and discussion of areas for improvement. Student process was monitored by assessments and the data was analyzed to ensure literacy growth.

The teachers were provided with staff development and support in formative assessments for early literacy skills based upon California State Standards and Common Core Standards for grades K-3. The assessments were modeled and teachers were strongly supported with implementation of the assessments as well as strategies to develop these skills for students below proficiency. The assessments were administered at the beginning of the academic and at the end to determine student mastery. These assessments were made available to the next year's teacher as a baseline for their future instruction.

Materials for strategy instruction were provided to all participating teachers including resources to strengthen the use of their technology with suggested researched "apps". Leveled books for each classroom have been provided during the past three years to support guided reading and encourage family reading at home.
