RE: Validity of Signatures

We have reviewed the "Declaration of Peter Haberfeld" that was submitted to at the Board of Education meeting on May 11, 2005 regarding the validity of our signatures on the Cox charter petition.

This is to affirm and certify that the teachers whose signatures appear below did indeed willingly sign the Education for Change petition to convert Cox School into a charter school. Each of us is "meaningfully interested in teaching at the charter" should Cox be converted.

Thank you for attention to this matter.
