Our schools are facing a serious nursing crisis endangering the health of all OUSD students. As a parent of a student I am concerned;

*I am also a pediatrician of many children/teens in OUSD with significant health care needs (G-tube feeds, cystic fibrosis) and many more with potential life threatening conditions (Type I Diabetes, Epilepsy + severe asthma). Their parents are scared to leave their kids at school due to lack of nursing support. Students with medical needs are entitled to free + safe education. In May, 2016, the*

We have no nurse at all at our school. We used to have a  $\frac{1}{3}$  time nurse assigned and now we have none at all. Frankly I think that is shameful and needs to be rectified.

Nuestras escuelas están enfrentando una crisis seria de enfermería, la cual pone en peligro la salud de todos los alumnos de OUSD. Como padre/madre de un alumno, me preocupa mucho.

## **¿URGENTE! NECESITAMOS UNA ENFERMERA EN LA ESCUELA**

- El Distrito Escolar Unificado de Oakland (OUSD por sus siglas en inglés) tiene 86 escuelas, más de 35,000 alumnos y sólo 22 enfermeras para cuidar a nuestros niños.
- OUSD ha presupuestado 32 plazas de enfermeras pero ha FRACASADO en llenar 10 plazas vacantes por más de un año.
- Las necesidades sanitarias durante las horas de escuela están aumentando y no se pueden satisfacer con tan pocas enfermeras.

### **¿QUÉ SIGNIFICA ESTO PARA NUESTROS ALUMNOS?**

- Un empeoramiento de la salud y bajo rendimiento académico para nuestros alumnos más vulnerables.
- Condiciones sanitarias peligrosas para todos los alumnos.
- Serios retrasos en el suministro de tratamientos sanitarios para los alumnos.

Such a shortfall in staffing of nurses will stress existing nurses to take on more work and will put children in our district at risks. Too many cases, specially when we are dealing with the management of administering medicines at school sites, for so few nurses.

I work with very, seriously & terminally ill children. I am also a mother. As a professional, & a human being, I feel that it is of utmost importance to have nurses in every school. Sick children need to be able to receive important care while at school, if the need arises. Not having a nurse at every school is almost negligent.

I am a pediatrician practicing at Kaiser in Oakland. I am very concerned that there is not a full time RN on staff at every school.

They not only help administer important medications and treatments to students, but are providing first line care for students who become acutely ill or injured, and often provide much needed support and resources to students.

# Petition to keep Mr.Rakestraw

<b>Petition summary and background</b>	OUSD is trying to consolidate Mr.Rakestraw a teacher who has bonded and has care for his students and as students who will be impacted by this change we are trying to prevent it from happening.
<b>Our demands</b>	1. We ask to allow Mr.Rakestraw to continue to teach for the rest of the semester since a mid-semester change of teachers will change our understanding of the class and the dynamic of the class.
