While our progress this fall has been slow given changes in both staff and school leadership, our commitment to building out an Entrepreneurship Pathway remains as steadfast as ever. There continues to be strong energy among students and staff for this initiative and as we continue to build out our systems of structures, we are confident that we will have a fully flushed out Linked Learning silver certified pathway by December 2019.</p> <p>Any reduction in funding would set-back our progress and the staff we have in place to help ensure that our understanding and implementation of Linked Learning continues to deepen.</p>
