How will this grant contribute to sustained student achievement or academic standards?	Grant funds will support increased youth development training for credentialed district teachers serving as after school Academic Liaisons/Quality Support Coaches. In this role, teachers will support improved after school program quality by increasing alignment between school day and after school goals and strategies; and providing observation and coaching support to after school workers in order to increase their effectiveness in meeting student's academic and social-emotional needs.
How will this grant be evaluated for impact upon student achievement? (Customized data design and technical support are provided at 1% of the grant award or at a negotiated fee for a community-based fiscal agent who is not including OUSD's indirect rate of 5.17% in the budget. The 1% or negotiated data fee will be charged according to an Agreement for Grant Administration Related Services payment schedule. This fee should be included in the grant's budget for evaluation.)	After school programs involved in this project will be evaluated as part of the comprehensive OUSD After School annual evaluation report. The evaluation project will measure impact of after school programming on student attendance, academic performance, and social and emotional learning skills development.
Does the grant require any resources from the school(s) or district? If so, describe.	The After School Programs Office will manage this project. This grant will augment ASES and 21 st CCLC after school grant funds already secured for OUSD schools.
Are services being supported by an OUSD funded grant or by a contractor paid through an OUSD contract or MOU? (If yes, include the district's indirect rate of 4.57% for all OUSD site services in the grant's budget for administrative support, evaluation data, or indirect services.)	This After School Quality Improvement Initiative will leverage OUSD's ASES and 21 st Century grants and strengthen the quality of after school academic and enrichment programming offered at 75 OUSD schools. This project is thus supported by the district's ASES and 21 st Century grants.
Will the proposed program take students out of the classroom for any portion of the school day? (OUSD reserves the right to limit service access to students during the school day to ensure academic attendance continuity.)	No
