Strengths and Challenges

Strengths

- Placement in the High Tier by the State, based on Dashboard data.
- Economically disadvantaged African American students have consistently outperformed the OUSD average by at least 25 percentage points. The proficiency rate for these students is about double the proficiency rate for this group at the highest-performing District middle school.
- Economically disadvantaged and English Learner students at the school consistently outperformed the OUSD average by substantial margins in each year of the charter term.
- Low chronic absenteeism rates (below 3%), both overall and for all key student groups.

Challenges

- Serves a particularly low percentage (3%) of students with disabilities.
- The school's leadership appears to have minimal involvement in classroom observations or staff coaching.
- Charter Management Organization has not always displayed a willingness to collaborate/partner with OUSD: they do not participate in CORE, they did not consent to sharing data with OUSD as part of the data sharing partnership with Oakland Enrolls and UC Berkeley, they held facilities offers in the Prop 39 process that ultimately they had no intention of accepting.

Renewal Tier Analysis

- AB 1505 introduced a new 3-tiered system for charter renewal
- State identified the renewal tier (Low, Middle, or High) for each school based on its State Dashboard indicators
- AIPCS I met **High Tier** criteria

Renewal Decision Requirements - High Tier Schools

- Eligible for renewal term of 5-7 years (at the discretion of the Board)
- May not be denied for academic reasons
