Provide details of program participation (Students will...) and measurable outcomes (Participants will be able to...). NOT THE GOALS OF THE SITE OR DEPARTMENT.

- Students will participate in a soccer program that is built on increasing their individual soccer skill sets, rather than a generalized goal of simply winning games. In response students will show improvement in their own ball handling skills, physical fitness and understanding of the sport in general, leading to an increase in sportsmanship and self-esteem. Most of which can be measure by their daily attendance in the program and in the school day. As participants begin to show improvement in their soccer skills, they will want to come more to the program and to school as they cannot participate in the program unless they attend school
- Students will receive individual support in Math, Science and Language Arts, monitoring of their daily homework completion, and will be challenged to maintain a 3.0 grade point average, even if students come into the program well below a 3.0 G.P.A. As a result at least 95% of the participants will show an increase in their grade point average by the end of the first marking period
- In June, at the end of the program, each participant will be given an opportunity to tryout for a competitive Bay Area club soccer team where they will be able to continue to play soccer beyond Alliance Academy for the Summer and Fall of 2013
