RECITALS

WHEREAS, District proposes to undertake the construction of one or more improvement projects and requires the services of a duly qualified and licensed materials testing contractor;

WHEREAS, the District requires certain Services (as defined below) and has determined that engaging an independent contractor is the most efficient and effective means of obtaining such Services;

WHEREAS, the Contractor represents and warrants that it is licensed to provide materials testing services in the State of California, and possess the necessary qualifications, expertise, experience, and resources to perform the Services required by the District in a professional and competent manner;

WHEREAS, the Contractor agrees to perform the Services described in this Agreement in accordance with industry standards, to the District’s satisfaction, and in full compliance with the terms and conditions of this Agreement.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants and agreements hereinafter set forth and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Contractor and District agree as follows:

1. Services and Description of Project.

1.1. Contractor shall perform, provide, and furnish the “Services” described in any executed “Project Assignment” amendment attached hereto and incorporated herein as **Exhibit A** (“**Services**”) to the District (a) in accordance with the terms and subject to the conditions set out in the Project Assignment and this Agreement; (b) using personnel of required skills, experience, and qualifications; (c) in a timely, workmanlike, and professional manner; (d) in accordance with the highest professional standards in Contractor’s field; and (e) to the reasonable satisfaction of the District. Notwithstanding anything to the contrary, nothing in this Agreement shall be construed to prevent the District from itself performing services or from acquiring services from other providers that are similar to or identical to the Services.

1.2. The Services are to be provided for any project described in an executed Project Assignment Amendment (“**Project**”).

In addition, as a part of its Services, Contractor shall assist the District in question between the general contractor, its subcontractors and the District relating to Contractor’s work, including but not limited to claims made against the District as a result of Contractor’s alleged or claimed errors or omissions, and shall in all instances provide such truthful testimonial assistance as may be required by the District at no cost to the District. As part of its Services, during the construction phase of the Project, Contractor shall visit the Project site when requested by District to observe conditions encountered by the general contractor or its subcontractors and to assess the progress and quality of contractor’s work. Contractor shall participate in job site meetings as requested by District.

Contractor shall confer and cooperate with District’s other contractors and consultants. The Consultant must comply with the applicable requirements of the Division of State Architect Construction Oversight Process (“**DSA Oversight Process**”), including but not limited to (a) obtaining a copy of the DSA-approved construction documents and Statement of Structural Tests and Special Inspections (DSA form 103) from the District’s architect of the Project (“**Architect**”) before the commencement of the Project construction; (b) reporting all project related activities to the District’s inspector of record (“**IOR**”); (c) submitting applicable verified reports (DSA forms 291, 292, and 293) to DSA, IOR, Architect and District; and (d) coordinating with the District, Architect, any District’s construction manager, IOR, and the Contractor to meet the DSA Oversight Process requirements without delay or added costs to the Project.

If Contractor determines the general contractor or its subcontractors are not meeting the requirements of Contractor’s recommendations or the plans and specifications, Contractor shall immediately bring that information to District’s attention.

Consultant shall retain all samples for no less than three (3) years after the completion of the Project or a later time as requested by the District.

1.4. In the event Contractor becomes aware of the presence of, or exposure of persons to, asbestos, polychlorinated biphenyl (PCB) or any other toxic or hazardous contaminants, materials, air pollutants or water pollutants at the Project site, or the substantial risk thereof, Contractor shall immediately notify the District in writing identifying the details of the presence of such hazardous materials.

1.5. Contractor shall timely and properly complete all reports requested by the District or as required by law. In addition, Contractor shall provide the District a copy of all reports generated by the Contractor during the performance of the Services and other records concerning the Project created or maintained by Contractor.

The term (“**Term**”) of this Agreement and the Parties’ obligations hereunder shall commence on the date that is the later of (1) the Effective Date, and (2) the date that the governing board of the District approves this Agreement (“**Commencement Date**”) and shall continue thereafter for the duration of any Project described in an executed Project Assignment, unless this Agreement is earlier terminated pursuant to the terms and conditions under this Agreement.

Notwithstanding anything to the contrary, the Term of this Agreement shall in no event exceed five (5) years after the Commencement Date.

Contractor expressly warrants that it meets the requirements of an independent contractor under California law, including but not limited to the requirements as set forth in California Labor Code § 2775 et seq. Contractor: (a) is free from the control and direction of the District in connection with the performance of the work, both under this Agreement and in fact; (b) performs work that is outside the usual course of the District's business; and (c) is customarily engaged in an independently established trade, occupation, or business of the same nature as the work performed under this Agreement. Contractor shall have the sole authority to control and direct the performance of the work and the manner in which services are provided under this Agreement. Contractor shall be responsible for all aspects of its business operations, including but not limited to, determining work schedules, providing equipment and materials, and engaging its own employees or subcontractors as needed. Contractor shall assume full responsibility for and shall pay all applicable federal, state, and local taxes, including but not limited to, self-employment taxes, payroll taxes, unemployment insurance, social security, and income taxes, with respect to itself and its employees. Contractor further agrees to defend, indemnify, and hold harmless the District from any claims, liabilities, or penalties arising from Contractor's failure to comply with applicable tax and employment laws, including any claims asserting that Contractor or its employees are employees of the District.

8.1. Contractor represents that Contractor has the qualifications and ability to perform the Services in a professional manner, without the advice, control or supervision of District. Contractor's Services will be performed, findings obtained, reports and recommendations prepared in accordance with generally and currently accepted principles and practices of its profession and applicable laws, rules and regulations.

8.1.1. Contractor hereby represents that it possesses the necessary professional capabilities, qualifications, licenses, skilled personnel, experience, expertise, and financial resources, and it has available and will provide the necessary equipment, materials, tools, and facilities to perform the Services in an efficient, professional, and timely manner in accordance with the terms and conditions of the Agreement.

8.1.2. Contractor shall be responsible for the professional quality, technical accuracy, completeness, and coordination of the Services, and Contractor understands that the District relies upon such professional quality, accuracy, completeness, and coordination by Contractor in performing the Services.

8.1.3. Contractor shall ensure that any individual performing work under the Agreement requiring a California license shall possess all appropriate licenses, and shall have sufficient skill and experience to perform the work assigned to them.

8.2. Contractor and District agree to participate in regular meetings to discuss strategies, timetables, implementation of services, and any other issues deemed relevant to the operation of Contractor's performance of Services.

10. Intellectual Property.

10.1. Contractor acknowledges and agrees that any and all work product, including any deliverables, it conceives, creates, develops, or reduces to practice, in whole or part, during the term of the Agreement, including without limitation, all "works of original authorship" and all content, inventions, improvements, enhancements, designs, ideas, source code, software applications, formula, processes, techniques, discoveries, or know-how, whether or not patentable or copyrightable, are "works for hire" and are and/or shall become and remain the sole and exclusive property of the District and the District shall be the sole owner of all patents, copyrights, and other rights in connection therewith throughout the world. 10.3. All writings or works of authorship, including, without limitation, program codes or documentation, produced or authored by Contractor in the course of performing services for the District, together with any associated copyrights, are works made for hire and the exclusive property of the District. To the extent that any writings or works of authorship may not, by operation of law, be works made for hire, this Agreement shall constitute an irrevocable assignment by Contractor to the District of the ownership of and all rights of copyright in, such items, and the District shall have the right to obtain and hold in its own name, rights of copyright, copyright registrations, and similar protections which may be available in the works. Contractor shall give the District or its designees all assistance reasonably required to perfect such rights.

10.4. If for any reason, including incapacity, the District cannot secure Contractor's signature on any document needed to apply for, perfect, or otherwise acquire title to the intellectual property rights granted to it under this Section, or to enforce such rights within seven (7) business days of such request, Contractor hereby designates the District as Contractor's attorney-in-fact and agent, solely and exclusively to act for and on Contractor's behalf to execute and file such documents with the same legal force and effect as if executed by Contractor and for no other purpose.

The foregoing provisions are in addition to and not a limitation of any other rights or remedies available to District.

Subject: LBU Modification - Scope Specific - Materials Testing and Special Inspection

Greetings Ms. Chatman and Mr. Jang,

As per the Oakland Unified School District's Local Business Policy Program Requirements Section of AR 7115: There is a fifty (50) % minimum participation requirement for all formally bid public works construction contracts over \$45,000 and formally solicited construction related professional services contracts, including, but not limited to, architects, construction managers, inspectors, testing labs and geotechnical engineers, over \$84,100. All informal construction contracts below \$45,000 and all informal construction related professional services contracts below \$84,100.00 will include outreach to certified local firms such that a minimum of three local certified firms are included in the solicitation.

Prior to the issuance of a formal invitation for bid, the District shall ensure that there are at least three certified businesses listed in the industry, trade or profession that constitutes a major category of work. If at least three L/SL/SLRBEs are not certified, then the requirement may, subject to the discretion of the District, be waived, or the 50% requirement may be reset from 50% all the way to 0%, depending on the particular circumstances at time of bid.

Scope: Materials Testing and Special Inspection

Analysis:

An availability analysis has been conducted for Materials Testing and Special Inspection - Scope - Testing Laboratories (NAICS: 541380), to determine the availability of certified firms to meet local business utilization on projects. Based on this analysis, it is our recommendation that due to the lack of availability of small and local firms, the full 50% Local Business Enterprise (L/SLBE) requirement for the above referenced scope be waived.

LBU Recommendation:

Full LBU Waiver

An additional review may be conducted within one (1) year of this notice to reassess the availability of eligible firms. If you have any questions, please feel free to contact our team at any time.

Sincerely,
Tiffany Knuckles
