Discussion:

Among the key purposes of the District's Facilities Master Plan is to provide an academic environment for the Oakland community that will give every student, educator, and community member using our facilities the best possible opportunity for learning.

Through implementation of the Facilities Master Plan, the District intends to improve the District's facilities in terms of structural integrity, safety, reliability of operating (mechanical) systems, access to modern resources, number and type of appropriate laboratories and specialized instruction rooms, opportunities for physical education, and attractiveness, such that the Oakland Public Schools are second to none. Operation of the District schools under the planned approach is intended to ensure safety, cleanliness, and orderliness for all individuals participating in the learning process.

The basic facility needs of students such as proper lighting, functional roofs, noise control and well maintained buildings, not only convey the message that we value our students and teachers but may foster a sense of school pride and community ownership which may improve attitudes towards learning. The

OAKLAND UNIFIED
SCHOOL DISTRICT

implementation of the Facilities Master Plan is our first step in that direction.

SECTION IV. L/LS/LSRBE - RATIONAL FOR NON COMPLIANCE CHECK LIST

1.)	<p>Specialty Service: This contractor provides a unique / specialty service that is currently not available from a certified L/S/SLRBE. Government Code § 53060 / school districts may contract without bidding for, "special services and advice in financial, economic, accounting, . . . legal, or administrative matters if such persons are specially trained and experienced and competent to perform the special services required."</p>	✓
2.)	<p>District Discretion under L/SL/SLRBE due to lack of certified firms at time of bid: If at least three L/SL/SLRBEs are not certified, then the requirement may, subject to the discretion of the District, be waived, or the 20% requirement may be re-set from 19 % to 0%, depending on the particular circumstances at time of bid.</p>	
3.)	<p>Futility: It would be futile to require that the contract be subjected to the L/SL/SLRBE due to (circle one) COST / TIME CONSTRAINTS / NO CERTIFIED BIDDERS. California law provides that "[w]here competitive proposals work an incongruity and are unavailing as affecting the final result or where they do not produce any advantage. . .the statute requiring competitive bidding does not apply." (Hiller v. City of Los Angeles (1961) 197 Cal. App. 2d 685, 694.)</p>	
4.)	<p>Field Test / (1) In order that a field test or experiment may be made to determine the product's suitability for future use. PUBLIC CONTRACT CODE SECTION 3400-3410</p>	
5.)	<p>Product Match/(2) In order to match other products in use on a particular public improvement either completed or in the course of completion. PUBLIC CONTRACT CODE SECTION 3400-3410</p>	
6.)	<p>Sole Source / (3) In order to obtain a necessary item that is only available from one source. PUBLIC CONTRACT CODE SECTION 3400-3410</p>	
7.)	<p>Emergency Repair / (4) (A) In order to respond to an emergency declared by a local agency, but only if the declaration is approved by a four-fifths vote of the governing board of the local agency issuing the invitation for bid or request for proposals. PUBLIC CONTRACT CODE SECTION 3400-3410 / See also: Public Contract Code Section 1102. "Emergency," as used in this code, means a sudden, unexpected occurrence that poses a clear and imminent danger, requiring immediate action to prevent or mitigate the loss or impairment of life, health, property, or essential public services.</p>

EXHIBIT A

PROPOSAL

THIS PRICE IS GOOD FOR 45 DAYS

TO: Will Newby William.newby@ousd.k12.ca.us
 FROM: Sherrie Douplik
 DATE: February 27th 2013
 RE: Quote for 3 24x40 classrooms to be returned to Oakland

Will,

Thank you for requesting the following proposal. I have broken out all the steps individually.

Transportation, permits and pilot cars are included in the quote below.
 Carpet bar will be installed on the floor at the mod-line. All utility hook-ups are by others.
 We will reinstall ramps in the classrooms; we are not responsibility for the transition at the toe of the ramp.

Douplik Mfg Factory in Loomis to Madison Elementary School 3 - 24x40

■ Prepare for shipping – put up on ½ blocks for trucker \$350 x 3 – 24x40	\$ 1,050
■ Trucking to return 24x40 to Oakland site \$ 1,900 x 3 – 24x40	\$ 5,700
Pilot Cars \$222 per piece	1,332
■ Installation of 24x40 \$3,706 x 3.....	\$11,118
Skating pieces in to place \$2,000 x 3	6,000
■ Materials for install...\$600 x 3.....	\$ 2,400

Will Newby
February 27th 2013
Page 2 of 2

The buildings will be reinstalled as they are in their current condition. The hookup of utilities is by others. If there are any cabinets that cross the mod-line, the cabinets will be removed and reinstalled on a time and material basis. The flooring will be cut at the mod-line and a carpet bar will be installed to cover the seam.

The above proposal includes:

- Perimeter skirting of building and painting of skirting only;
- Ramps and landings will be reset;
- New structural connection plates and straps will be furnished and installed;
- Exterior wall close up (we will re-use all interior close-up, carpet bar, wall and ceiling close-up, ceiling tile);

The above proposal does not include:

- Any site preparation;
- Transition at end of ramp;
- Any utility hook-ups
- Any local agency fees or approvals;
- Costs incurred for DSA approvals or DSA inspectors;
- Building(s) will be reassembled to present "as is" condition.
- Any building components requiring replacement will be negotiated on an item by item basis;
- If a site requires crane, forklift assists, or lengthy skate, an extra charge will be negotiated.

It is understood that owner will:

- Provide a building pad level within 9" from corner to corner.
- Provide building pad 6` wider and 10` longer than the building to accommodate the foundation pads and ramp and landing.
- Assure us that building pad will be accessible to our trucks and trailers for delivery and off-loading. Accessible site will enable semi-truck and trailer to either pull or back on to the pad with 60 feet. If not accessible, cost of skating, forklift, crane, etc. will be paid by Owner.

Please contact me should you have any questions or if you need any further information.

Respectfully submitted,

Gary Doupnik, Jr.
