SCOPE OF WORK

Software Project Consulting Inc. will provide a maximum of 500.00 hours of services at a rate of \$ 50.00 per hour for a total not to exceed \$25,000.00. Services are anticipated to begin on 08/01/2012 and end on 06/28/2013.

1. Description of Services to be Provided: Provide a description of the service(s) the contractor will provide. Be specific about what service(s) OUSD is purchasing and what this Contractor will do.

Before children can graduate from high school, they must first enroll into high school. The options process helps students attend the school in Oakland which best meets their needs. Students who are interested in the various industry sectors- from Arts to Health to Hospitality and many more- must have access to the programs which most fit their needs. More students will graduate if they are engaged in the high school curriculum, and choose the school which they want to attend. Students are also more likely to attend a school which they chose to attend. While it's difficult to quantify exactly how many more students are likely to attend 95% of the time or more, the numbers should increase if OUSD can provide programs that meet the needs and interests of students, and if students can access the programs that meet their interests and needs. More students will also have access to health services if students need services which are only located at specific campuses by applying for schools through the options program.

2. Specific Outcomes: What are the expected outcomes from the services of this Contract? Be specific. For example, as a result of the service(s): 1) How many more Oakland children are graduating from high school? 2) How many more Oakland children are attending school 95% or more? 3) How many more students have meaningful internships and/or paying jobs? 4) How many more Oakland children have access to, and use, the health services they need? Provide details of program participation (Students will...) and measurable outcomes (Participants will be able to...). NOT THE GOALS OF THE SITE OR DEPARTMENT.

In order to manage the over 15,000 applications which the Student Assignment & Bilingual Testing Office processes each year, we must have the technological support to process and track these applications. Students will be able to apply for their schools of choice, and receive notification of their assignment. The assignment process follows the board priorities, and different variables (schools, capacities, etc.) must be used to determine these assignments. The consultant will ensure that the database and software used runs properly and solve related technological problems. Specific measurable outcomes include ensuring that letters are printed on-time, ensuring that the assignment software is working properly, analyzing data to assist staff in creating school capacities, and creating several reports provide results to the cabinet.

Students who need the initial CELDT will be identified by the consultant who will also provide reports detailing the students who have been tested and still need testing.

3. Alignment with District Strategic Plan: Indicate the goals and visions supported by the services of this contract: (Check all that apply.)

- Ensure a high quality instructional core
