- D. Guest speakers – NFTE will work with classroom teachers to confirm at least one per semester (by teacher request

IV. Deliverables

Student Development and Support Services: As the centerpiece of the program, every student creates and presents an original business plan based on a NFTE template. The lean canvas model is the vehicle through which they learn and apply the business/financial concepts learned through classroom instruction, while developing business ideas based on their own special interests and talents. By presenting their ideas at business plan competitions, students also gain experience practicing their public-speaking skills. Experiential activities and field trips allow teachers to model business concepts and reinforce learning principles. Volunteers bring fresh perspectives to the classroom, an additional level of expertise in a business subject or industry, and provide a greater support network to students, giving them an expanded view of the world and the opportunities, they may have never before dreamed possible.

Teacher Development and Support: A key program standard for NFTE is to ensure that our entrepreneurship programs are taught by NFTE-certified teachers and that these teachers have access to ongoing professional development opportunities so that they continually improve their effectiveness in the classroom. To ensure that teachers use the curriculum effectively as well as stay current on all emerging business trends related to small business development, NFTE provides meaningful and continual professional learning opportunities and support both locally and nationally, through a variety of different avenues such as curriculum certification, professional development seminars, webcasts, local and national retreats, and awards and recognition programs. Teachers that attend NFTE professional learning experiences are provided with both a certificate of completion endorsed by NFTE as well as CE credit hours approved by the district.

Programmatic Support and Consulting: NFTE will provide consulting to certified teachers on structuring syllabi and programmatic elements as well as on-site support (when requested) to assess classroom needs and areas of volunteer engagement. In addition to the above, NFTE will assist CTE administration to consult on approaches for bringing our entrepreneurship curriculum to more content areas within CTE's broader programming in order for more students to recognize the power of entrepreneurship and ownership in their field of study.

V. Outcomes

Students:

When NFTE curriculum and instructional resources are implemented with fidelity students will experience content knowledge growth during the course of the year, as measured by pre/post assessments.

Teachers:

Teacher participation in NFTE programs should improve student understanding of business startup, increase teacher instructional practice based on their participation in NFTE professional learning activities
