TO: Board of Education

FROM: Anthony Smith, Ph.D., Superintendent
Brigitte Marshall, Associate Superintendent, Human Resources Services and Support

SUBJECT: Creation of a Classified Management Position – Research, Assessment and Data Department

ACTION REQUESTED

Approval by the Board of Education of Resolution No. 1112-0072 – Creation of a Classified Management position in the Research, Assessment and Data Department.

DISCUSSION

The Superintendent's Five Year Strategic Plan necessitates the need for a Statistician position in building a Full Service Community School District. Predictive and early warning data analyses, motion charts, the Healthy Kids, Healthy Oakland data framework, and outlier analyses all require advanced statistical techniques such as regression, survey sampling and probability theory; currently, no position with this expertise exists within the District. To better enable the District to implement the goals of the Strategic Plan, the essential functions of the Statistician position have been designed to summarize, streamline, and collect large data sets within the District and with external partners as well as use applied statistical modeling to address inequities and to extend best practices.
