## Private Schools Program

### Program Improvement Plan — Title II A

**School name: St. Leo the Great      Year: 2013-2014**

The Title II Part A Program provides assistance for preparing, training, recruiting, and retaining high-quality teachers. It can also be used to provide leadership development and management training for principals. Teacher and principal professional development should support improved student academic achievement.

**Assessment:** *What are our areas of need with regard to supporting the professional development of teachers? How do these areas relate to student academic achievement? What is the supporting evidence?* (Evidence can include surveys, test results, Leadership Team input, etc.) As a result of the WCEA/WASC self-study, a need for major improvement of the school technology was identified. Stimulated by grant money and fundraising, the school set out to provide a viable 21<sup>st</sup> century environment for student learning. Interactive whiteboards, a new student computer lab were added and in 2012 mobile technology has been added to the school with a plan to add more. To support the successful implementation of the new technology, the administration recognizes that Professional Development of teachers is critical.

**Objectives:** *What do we need to do to support the development of our teachers through preparation and training?* Teachers will require support and training in the use of the Promethean Active boards, Apple iPod Touches, student laptops and related software, Web 2.0 tools, and best practice in the integration of technology throughout the curriculum.

**Action Steps:** *How will we achieve our objectives?* The service of a qualified technology Specialist/trainer Linda Orear is required on a regular basis to support the teaching staff in their efforts to facilitate student 21<sup>st</sup> century learning. In addition to training the staff in the use of the new technology, the specialist will support the principal in the implementation of the new technology plan.

**Evaluation:** *How will we know if our actions are effective? What is the supporting evidence?* Having access to update technology has brought a new excitement to the learning environment. Students are more engaged in their learning and teachers have more confidence in their lesson planning. Students and teachers collaborate, communicate, and design authentic, challenging lessons. There is no doubt that standardized test scores will document what the summative and formative assessment in the classroom is revealing — that students are learning!

**Planning for next year:** *What have we learned this year so we can provide a better program next year? (to be completed at the end of the school year)*
