Student Directors' Report

### **All City Council Youth Summit**

200 had students from Castlemont, Skyline, Oakland Tech, McClymonds, Fremont, Dewey, CCPA, and Bunche

We conducted focus groups with all 200 students on “making A-G real” campaign

The focus groups were led by ACC Governing Board officers on the 3 issue areas we've identified for system change in our district for making a-g real: quality teaching, student support, safety

We spent the day discussing

1. the progress that we see on our campuses in each area (teaching, safety, student support),
2. what still needs improvement,
3. student ideas for improvement
4. questions for the superintendent on issues we feel we can't control on our own and need his support

We want to thank our Board President for coming in the morning, and our Superintendent for staying with us in the afternoon. We know the questions for hard questions, and appreciate the thoughtfulness of your responses and conversation.

What came out of this summit:

ACC proposal for “No Ds Policy”

ACC proposal for students to be on hiring teams for School Security Officers (SSOs)

ACC proposal for defining what is the ideal role for an SSO

Superintendent committed to coming with us to talk to sites where we have a hard time getting peer programs like PASS and REAL HARD

ACC proposal to meet with teacher leaders and OEA leaders on defining what a healthy and supportive student-teacher relationship looks like

ACC engaging the community on ACC definition for quality teaching

This is all work that we may get started on next school year.

Next ACC and final meeting is May 17<sup>th</sup> 1pm-3pm, Elections for new officers, and teacher panel on issues teachers face in the classroom and at their schools.

Next ACC Middle School event: College Trip to UCSC April 26<sup>th</sup>.
