Memo

To Board of Education

From Kyla Johnson-Trammell, Superintendent
Sonali Murarka, Executive Director-Enrollment
Jody Talkington, Senior Director-Special Projects
Equitable Enrollment Working Group

Board Meeting Date June 24, 2020

Subject Equitable Enrollment Working Group Update

Action Discussion

Background The Board held a retreat on February 1, 2020, to begin the conversation about what an equitable enrollment policy could look like. At the retreat, the Board decided to convene a community working group. Each Board member nominated a member to the working group, and the Superintendent/designees nominated additional members to help ensure broad representation on the group. Since the retreat, the working group has convened (virtually) 8 times.

Discussion The equitable enrollment working group has covered a lot of ground -- distributing, collecting, and analyzing results of a community survey; hearing case studies from 3 major cities who have tackled similar issues; and beginning to synthesize learnings from all these different sources. The group is also sharing its materials on our website, and has recently created an email address for feedback as well as a way to sign up for electronic updates.

At this point, we are excited to bring the Board an update on the equitable enrollment work and to get Board feedback on two areas in particular:

- Which *pain points* are you interested in seeing us focus on?
- What are the *values* you believe our enrollment system should prioritize?

Fiscal Impact N/A
