Discussion:

Among the key purposes of the District's Facilities Master Plan is to provide an academic environment for the Oakland community that will give every student, educator, and community member using our facilities the best possible opportunity for learning.

Through implementation of the Facilities Master Plan, the District intends to improve the District's facilities in terms of structural integrity, safety, reliability of operating (mechanical) systems, access to modern resources, number and type of appropriate laboratories and specialized instruction rooms, opportunities for physical education, and attractiveness, such that the Oakland Public Schools are second to none. Operation of the District schools under the planned approach is intended to ensure safety, cleanliness, and orderliness for all individuals participating in the learning process.

The basic facility needs of students such as proper lighting, functional roofs, noise control and well maintained buildings, not only convey the message that we value our students and teachers but may foster a sense of school pride and community ownership which may improve attitudes towards learning. The implementation of the Facilities Master Plan is our first step in that direction.

Discussion Info: (Needed to prepare Executive Summary) (Provide detailed background - Why is contract required and what is the benefit to students) - Add additional pages as needed.
 As a result of B&G mechanics thinking that with the continuing removal of these panels to change filters with the diconnects and electrical outlets on them will eventually cause the electrical cables to wear out and want the outlets and diconnects relocated to avoid this possibility.

SECTION IV. L/LS/LSRBE - RATIONAL FOR NON COMPLIANCE CHECK LIST

1.)	<p>Specialty Service: This contractor provides a unique / specialty service that is currently not available from a certified L/S/SLRBE. Government Code § 53060 / school districts may contract without bidding for, "special services and advice in financial, economic, accounting, . . . legal, or administrative matters if such persons are specially trained and experienced and competent to perform the special services required."</p>	✓
2.)	<p>District Discretion under L/SL/SLRBE due to lack of certified firms at time of bid: If at least three L/SL/SLRBEs are not certified, then the requirement may, subject to the discretion of the District, be waived, or the 20% requirement may be re-set from 19 % to 0%, depending on the particular circumstances at time of bid.</p>	
3.)	<p>Futility: It would be futile to require that the contract be subjected to the L/SL/SLRBE due to (circle one) COST / TIME CONSTRAINTS / NO CERTIFIED BIDDERS. California law provides that "[w]here competitive proposals work an incongruity and are unavailing as affecting the final result or where they do not produce any advantage... the statute requiring competitive bidding does not apply." (Hiller v. City of Los Angeles (1961) 197 Cal. App. 2d 685, 694.)</p>	
4.)	<p>Field Test / (1) In order that a field test or experiment may be made to determine the product's suitability for future use. PUBLIC CONTRACT CODE SECTION 3400-3410</p>	
5.)	<p>Product Match /(2) In order to match other products in use on a particular public improvement either completed or in the course of completion. PUBLIC CONTRACT CODE SECTION 3400-3410</p>	
6.)	<p>Sole Source / (3) In order to obtain a necessary item that is only available from one source. PUBLIC CONTRACT CODE SECTION 3400-3410</p>	
7.)	<p>Emergency Repair / (4) (A) In order to respond to an emergency declared by a local agency, but only if the declaration is approved by a four-fifths vote of the governing board of the local agency issuing the invitation for bid or request for proposals. PUBLIC CONTRACT CODE SECTION 3400-3410 / See also: Public Contract Code Section 1102. "Emergency," as used in this code, means a sudden, unexpected occurrence that poses a clear and imminent danger, requiring immediate action to prevent or mitigate the loss or impairment of life, health, property, or essential public services.</p>

Project: Montera Rooftop Disconnect Switches

To: Mr. John Esposito

The total cost to relocate the HVAC disconnect switches and receptacles as per the revised detail prepared by Hibser Yamauchi Architects and sent to us on 7/12/12 is \$15,000. We will agree to perform this work per the clarifications listed below for a lump sum total of \$7,500.

CLARIFICATIONS:

1. This quote is based on a total of twenty units. As per your e-mail dated 7/19/12, this quote does not include the HVAC units installed at the Administration Building.
2. This quote is only valid if the roof liability letter is signed by the OUSD.
3. This quote is based on working normal working hours. Zair is currently in the middle of a project at Stanford Hospital. After receipt of a purchase order and the roof liability letter, I will schedule Zair to perform this work. Please allow a minimum of two weeks after we receive these documents for us to start.
4. Due to field conditions, it may not be possible to locate all disconnects to the locations shown in the architect's sketch. We need a contact with OUSD that can come to the school within 24 hours and advise us on an alternate installation that is acceptable to the district.
5. Since this is a very short duration job, this quote is based on no retention being withheld.

If this is satisfactory, please forward a purchase order and the signed roof liability letter at your earliest convenience.

Sincerely
Del Monte Electric Co., Inc.

John Hunter
President
