

NCS/CIF ACSBA Representative

Candidate: **Jeffrey A Bowser**
District: **Pleasanton USD**
Position: **Clerk**
Elected: **November 2010**
Type/Size: **K-Adult/15,000 students**

BIO/CV

I have been a player, coach, league official, and umpire at the youth, high school and collegiate levels. I have also been a teacher, school and district administrator in school districts in Alameda and Contra Costa counties as well as the Alameda County Office of Education. My extensive sports and school administration experience combined with my business insight would well serve the Alameda County School Boards Association. Participating in the management of youth sports has been my passion since coaching my son's T-Ball baseball team 13 years ago. I discovered that I possessed the skills necessary to bring people together to benefit the organization. My strengths lie in my ability to gather input from diverse sources, process the facts or details in a transparent fashion, and communicate the decision or outcome back to the stakeholders. These skills were put to test when the boundaries of the three Pleasanton Little Leagues were successfully re-negotiated. High school sports bring life changing memories, skills and teachable moments to our students. I am committed to fully represent the needs of students regardless of gender, race or physical handicap.
