### OVERVIEW & OBJECTIVE

Twenty six OUSD district schools and charter schools submitted their 2019-20 Measure N Education Improvement Plan (SPSA) that articulates the pathway development work done to date, the pathway development work planned for the upcoming academic year, and a clear Measure N budget.

The Measure N Commission held question and answer sessions for a total of 6 days during the month of April. During the question and answer sessions, Commissioners and Linked Learning High School Office staff asked clarifying and probing questions to further understand the thinking behind the Measure N Education Improvement Plans submitted.

Linked Learning High School Office staff have reviewed the 2019-20 Measure N Education Improvement Plans and applied a framework that looked at primarily 4 variables:

1. Implementing all phases of Linked Learning in the school
2. Quality of the Analysis and Plan
3. Alignment of Budget to the overall plan and outcomes
4. Information provided during questions and answer sessions

Nine schools who were determined as "Probationary" during the final recommendations of the 2017-18 academic year underwent an intensive probationary school process this academic year with the goal to support sites to develop their understanding of Linked Learning implementation by providing more feedback on their progress and building site capacity. The Measure N Commission approved 2019-20 funding recommendations for probationary schools on January 2019. Six of the nine schools will remain on probationary status during the 2019-20 academic year to continue the intensive supports as they transition into the implementation process.

Three schools who have been newly designated as having addressed feedback and concerns and have been removed from probationary status will have one follow up site visit from Linked Learning staff in the 2019-20 school year to ensure successful transition and follow through.

Schools with corrective actions required to their Measure N budget were informed of the corrective actions required after initial recommendations were provided and worked with Linked Learning High School Office staff to review, revise, and re-submit to the Measure N Commission.

Schools who submitted revised Measure N budgets addressed feedback provided by both the Measure N Commission and staff. The schools who submitted revised Measure N budgets were reassessed to ensure compliance and final recommendations capture the revisions made by the school. For schools that indicate a recommendation "*with budget revision*", a summary has been made available within the assessment that articulates the specific budget feedback provided to the school and how the feedback was addressed.

One school has submitted a 2019-20 Planning Grant application, completed a Measure N Orientation, and submitted supplemental documentation.
