ASES and 21st CCLC After School Programs 2013-2014

SECTION 4: Program Model and Lead Agency Selection

For 2013-2014, my site will operate the following program model:

☑ Traditional After School: voluntary program open to all students, with enrollment priorities targeting certain students
□ Extended School Day: additional class periods added to the bell schedule during after school hours for students of a particular grade and/or all students of the school

Blended/Hybrid: combination of some extended day and some traditional after school programming

Description and Rationale for Selection of Lead Agency Describe how the selecter Lead Agency permer will apport the school's plans for Full Service Countering Selection memory

The BACR philosophy about after school programs extend far beyond keeping children safe. We believe in providing a nurturing and enjoyable environment where students can improve their academic and life skills. We believe in integrating the principles and practices of your development into all activities. Just as important, we see the schools, students and parents as our customers, and we believe it is our responsibility to understand and meet their needs.

This approach to after school program is consistent with the BACR mission of serving youth and families, fostering volunteerism and building community. As a large, diverse community agency, BACR has the organizational capacity and infrastructure to maintain a high quality while expanding our services.

SECTION 5: ATTENDANCE, PROGRAM DATES, AND PROGRAM SCHEDULE

In order to remain in compliance and meet minimum funding requirements, the after school program must commence immediately upon the conclusion of the regular day and operate at least until 6pm on every regular school day for elementary and middle schools. (EC 8483)

High school programs are required to operate a minimum of 15 hours per week.

Required # of Program Days your program will operate during School Year 2013-2014:	180 days required*
Projected Daily Attendance during School Year 2013-2014:	83
Program Schedule	

Submit program schedule as an attachment, using the standard program schedule template.

ASES and 21st CCLC After School Programs 2013-2014 * CDE allows programs to close for a maximum of 3 of these days during the school year for professional development. Families must be notified of these program closure dates in advance, and the lead agency must maintain documentation of professional development activities offered on these dates.

SECTION 6: Academics

Your site should plan to offer a range of academic supports including: 1) Targeted Interventions 2) Skill-Building 3) Homework Support 4) Tutoring Other possible supports may include computer lab, library exploration, project-based learning, coordination with SES tutoring.

Academic activities should be aligned with school goals and support specific student achievement needs defined by the school. Activities should be based on sound instructional strategies aligned with the regular school day program.

Enrichment activities and physical activity/recreation are required components of the ASES and 21st Century grants. Enrichment activities should provide students with the opportunity to apply their classroom learning in a real, hands-on way. Enrichment activities should intentionally and creatively build skills that support students' success in school and in life. Enrichment activities often support school goals for health and wellness, positive school climate, arts learning, and student engagement.

SECTION 9: Chronic Absence Action Plan

Improving school day attendance for all students and reducing chronic absenteeism is one of the key OUSD strategic goals. The district goal is that all students will attend school at least 95% of the required school days or more, thereby achieving satisfactory attendance. Students who attend school 90% or less of required days are considered chronically absent. Students whose attendance falls in the "grey zone" between 90% - 95% are considered at risk of chronic absenteeism.

In partnership with the school day, after school programs can play an important role in supporting student attendance by doing things like celebrating good attendance, informing parents about the importance of attendance, uncovering what challenges students/families are facing that cause them to miss school, regularly monitoring student attendance data, contacting families to let them know their child was missed at school, etc., in addition to providing meaningful after school learning experiences that help keep students engaged and coming.

Below are several key strategies that after school programs can implement in partnership with the school day, in order to promote positive attendance, and support students and families who are struggling with attendance. Select at least two of the following strategies below, and identify specific action steps that your program will implement for each strategy.

Strategies to Support Attendance	Action Steps
 Recruit and address the needs of students who are at risk of chronic absenteeism. 	Talk with the principal, day teachers, and parents, to review absent data. Talk about family support with parents and refer them to appropriate resources when needed. Work with district, school, Success Office, and BACR to find services/resources.
b) Inform parents about the importance of attendance and encourage parents to help each other get their students to class.	Discuss the importance of attendance at family events, orientations, workshops, and family meetings. Refer parents to appropriate resources if needed.
c) Track students with poor program attendance and reach out to find out why and how attendance could be improved.	Work with Principal, MH team, COST team, and attendance clerk to better understand the cause of the absences and develop strategies.
d) Celebrate good attendance and/or offer meaningful incentives to attract and reward students for attending our program.	Recognize students and families for good attendance with awards and certificates.
SECTION 10: Transforming School Culture and Climate	and a second office start street.

ASES and 21st CCLC After School Programs 2013-2014 a) The following are paths that OUSD schools are taking to change discipline and transform school culture and climate. What strategy/strategies is your school utilizing to transform school culture and climate?

b) How will the school and lead agency partner work together to ensure that the after school program is aligned and supporting these efforts, and helping to transform school culture and climate?

BACR will train Program Coordinator around issues of Restorative Justice, Social Emotional Learning and Bullying Prevention. BACR will also advocate for Program Coordinator's participation in any school day trainings around these issues in order to align with the school day policies

In addition, Academic Liaison will train and provide PD to ASP Staff to align school day behavior policy with ASP policy. ASP staff will participate in school day PD's twice a year.

c) Reducing the disproportionate suspension rates of African American students is a key priority for OUSD. Please describe any special efforts your after school program is taking to support the school engagement, social-emotional wellbeing, and/or academic success of African American students at your school (ie. Manhood Development circles, Ethnic Studies curriculum, recognition ceremonies for student accomplishments, Black professionals as role models or mentors, etc.): Esperanza ASP Instructors will identify students to receive additional mental health support. The instructors will reflect the community and serve as role models to the students. The Black Student Union will continue to be a backdrop for students to voice their concerns, share their experiences, and celebrate their culture.

SECTION 11: Coordination with Other Service Providers

In the Full Service Community School model, the school becomes a hub of services where various types of service providers come together, work together, and coordinate their efforts to meet the holistic needs of students and families.

The after school Site Coordinator or Director will actively participate in which of the following school group(s), in order to increase alignment between after school and school day efforts? 2013-14 After School Enrollment Policy for Esperanza Academy

OUSD has established district-wide guidelines for Target Population and Enrollment in ASES and 21st Century After School Programs. Within these guidelines, each school will create a site-specific After School Enrollment Policy that will be made public to the school community through the following methods:

- · Enrollment policy will be included in After School Enrollment Packet and program materials.
- · Enrollment policy will be discussed at after school parent orientation/meetings.
- · Enrollment policy will be shared with school faculty.

Target Population: (Describe targeted student populations in order of priority. Specify data that will inform student selection.)

Students from socio-economically disadvantaged families/backgrounds	Applications, school data, parent information, previous family knowledge.	
English Language Learners	Applications, school data, parent information, previous family knowledge.	
Students with Chronic Absenteeism	School Data, attendance Records	
Students with siblings in the program	Applications, school data, parent information, previous family knowledge.	

Grade levels prioritized for programming: <u>1st – 5th</u>

Note: The ASES and 21st CCLC grants require that programs are open to all students of the school, if space remains after outreach is done to targeted students. (For example, if program slots remain open after you have reached out to fill slots with target populations identified above, then by law, you must accept a kindergarten family that desires program services, even if your program prioritizes students in grades 1-5.)

Additional Notes:

- Successful after school programs are heterogeneous and include several target populations.
- Sites cannot simply utilize a first come-first serve process for enrolling students; sites should establish priorities for participation.
- · Programs are intended to help close the achievement gap by serving a variety of students with academic and other needs.
- In alignment with OUSD's strategic goal to reduce chronic absenteeism, programs should consider targeting students at risk
 of chronic absenteeism, as determined by individual attendance rates between 90 95% during the current school year.
 (Programs should collaborate with school site leadership to obtain student attendance data.)

· Program must enroll adequate numbers of students to meet CDE attendance targets.

Enrollment Process and Timeline: (Summarize your enrollment timeline below. Describe how your school will identify and recruit students beginning in Spring 2013. Indicate how families will be notified of 2013-14 enrollment before the last day of school, June 13, 2013.)

OAKLAND UNIFIED SCHOOL DISTRICT Office of the Board of Education June 26, 2013

TO: Board of Education	n
------------------------	---

FROM:

Dr. Anthony Smith, Ph.D., Superintendent Muria Scurtos with Master Memorandum of Understand SUBJECT: Master Memorandum of Understanding between OUSD and Bay Area Community Resources

ACTION REQUESTED

Authorize the President and Secretary of the Board to enter into and execute a Memorandum of Understanding with Bay Area Community Resources, on behalf of the District to provide services to students. This establishes a one year relationship with Bay Area Community Resources, and a Not-To-Exceed amount of \$4,271,386.00. This amount is projected using historical cost data, known changes to the number of sites served and expected available grant funding allowable.

BACKGROUND

The Oakland Unified School District enters into contracts each year to provide professional services that support the District's academic mission. The Master MOU establishes all terms and conditions, a defined menu of services with negotiated rates, and allows for the gathering of necessary supporting documentation to further streamline the process of receiving necessary services, while keeping the integrity of checks and balances, as well as maintaining oversight by the Governing Board.

A Menu of Services was established that would allow a principal to "Order" from the Menu using the Individual Service Agreement (ISA). This is essential to promoting transparency of services, and the costs of those services, between like schools. Each Individual Service Agreement is submitted to the board for approval. In the event that this vendor receives more orders for service than anticipated, an amendment to this MOU will request a new not-to-exceed amount.

DISCUSSION

Vendor: Bay Area Community Resources

Overview of Services: Bay Area Community Resources contracts with schools to be a lead agency to provide high quality after school programming consisting of academic enrichment and recreational physical activities, family literacy and targeted Equitable Access services to students that are high risk.

Not-To-Exceed Amount: \$4,271,386.00

Determination of the Not-to-Exceed Amount is based on historical data and projections for the coming school year, it is anticipated that Bay Area Community Resources will provide services to 26 school sites.

The District contracts with agencies to provide various activities and after school programs. Chosen by the number of sites served with District and the long standing relationship with the agencies, the Master Memorandum of Understanding establishes a relationship with Bay Area Community Resources, defining terms and conditions as well as setting a maximum not-to-exceed ceiling amount. This ceiling is derived from historical cost data, and known changes in sites to be served, as well as expected grant funding.

In addition, the District has been working with agencies to provide a Menu of Service, which delivers a clear and measurable scope of work. Analogous to ordering from a common table menu, each product is described and the price is clearly quoted, establishing and promoting a more perfect competition where the consumer, here the principal, is informed of the services offered, and the price for those services. This allows the principal to easily compare services and prices, and plan for programmatic needs.

FISCAL IMPACT

There is no funding associated with the Master Memorandum of Understanding or the Amendment to the Master Memorandum of Understanding herewith. The Master Memorandum of Understanding establishes a relationship, as well as setting the terms and conditions with Bay Area Community Resources. The funding source for each Individual Service Agreement will be determined separately and individually. Funding for the Individual Service Agreement is verified through a review of the BDT budget process, and a review of State and Federal compliance funding when applicable.

RECOMMENDATION

Approval of the Amendment to the Master MOU between Bay Area Community Resources and the Oakland Unified School District authorizing the President and Secretary of the Board to enter into and execute an Amendment to the Master Memorandum of Understanding and Individual Service Agreement(s) with Bay Area Community Resources in an amount Not-To-Exceed \$4,271,386.00.

The Secretary of the Governing Board shall place said Individual Service Agreements on the Consent Calendar for Approval.

Bay Area Community Resources After School Programs

Bay Area Community Resources (BACR) is a non-profit community agency that has served youth and families since 1976. We have delivered after school programs for over 20 years. Our programs promote successful youth development by providing opportunities for young people to acquire new skills, learn, share their talents, and make a mark in their community.

We have two management roles at elementary, middle or high schools:

- BACR is the lead community agency— managing the entire program, providing staff, and delivering services—24 schools in Oakland, 13 in San Francisco, 5 in Alameda, 5 in San Rafael, 2 in San Leandro Unified, 15 in West Contra Costa County, and 12 in Mt. Diablo Unified in Contra Costa County..
- 2. BACR is the fiscal sponsor-managing human resources, payroll and fringe benefits

OUR VALUES

- Give children a safe, nurturing and enjoyable environment after school.
- Integrate youth development practices into everything we do.
- Schools, students, parents and partner non-profits are our customers. Meet their needs.
- Youth are valuable. Support them in realizing their power.
- Respect our ancestors, improve the present, and sustain future generations.
- Give youth just, equal and meaningful opportunities to learn, grow and succeed.
- ✤ We like to have FUN! Take every opportunity to enjoy and celebrate our work.

PROGRAM MODEL

Academic Assistance

- Homework support: Students work in small groups with trained staff.
- Academic enrichment: Students get hands-on opportunities to master academic content, through robotics, chemistry lab, poetry slams, and creative writing workshops.
- Academic interventions: Students who need it get one-on-one review sessions with teachers or tutors and Supplemental Educational Services tutoring.
- * Test preparation and credit recovery: High school students get help to graduate.

Enrichment

- Students explore their interests and build new skills. Visual and performing arts, community service, and student-led projects that promote pride, embody culturally-responsive activities, and integrate learning objectives in California Content Standards.
- Enrichment activities are tailored to each school site.

Recreation

Students can exercise, relax, and build social skills through organized sports, cooperative games, and free time.

Showcases

Young people get opportunities to showcase their work and share their achievements with peers and family.

EVIDENCE OF OUTCOMES

A research study showed academic improvement for our after school participants:

- CAT6 reading scores increased more than peers not in the program, and the difference was statistically significant. Students initially in the lowest quartile rose 8.7 percentile points.
- In CST English Language Arts, students showed a statistically significant increase in scores. 48% of students who were Below or Far Below Basic increased 7.5 points.
